Dennis J. Frost

Seeing Stars:

Seeing Stars C. R. Kitchin, Robert W. Forrest, 2012-12-06 Seeing Stars is written for astronomers regardless of the depth of their theoretical knowledge who are taking their first steps in observational astronomy Chris Kitchin and Bob Forrest both professional astronomers take a conducted tour of the night sky and suggest suitable observing programmes for everyone from beginners to experts How is this book different We are all familiar with the beautiful images of planets and galaxies obtained by spacecraft and giant telescopes but what can you really see with a small telescope What should you expect from a small refractor or reflector And what is the effect of observing from a site near a city The answers are all here with many photographs that will illustrate exactly what can be seen with different instruments everything from the naked eye to a 300mm telescope and from different locations

Seeing Stars Dennis J. Frost, 2020-03-17 In Seeing Stars Dennis J Frost traces the emergence and evolution of sports celebrity in Japan from the seventeenth through the twenty first centuries Frost explores how various constituencies have repeatedly molded and deployed representations of individual athletes revealing that sports stars are socially constructed phenomena the products of both particular historical moments and broader discourses of celebrity Drawing from media coverage biographies literary works athletes memoirs bureaucratic memoranda interviews and films Frost argues that the largely unquestioned mass of information about sports stars not only reflects but also shapes society and body culture He examines the lives and times of star athletes including sumo grand champion Hitachiyama female Olympic medalist Hitomi Kinue legendary pitcher Sawamura Eiji and world champion boxer Gushiken Yoko demonstrating how representations of such sports stars mediated Japan's emergence into the putatively universal realm of sports unsettled orthodox notions of gender facilitated wartime mobilization of physically fit men and women and masked lingering inequalities in postwar Japanese society As the first critical examination of the history of sports celebrity outside a Euro American context this book also sheds new light on the transnational forces at play in the production and impact of celebrity images and dispels misconceptions that sports stars in the non West are mere imitations of their Western counterparts

Seeing Stars Rosanna Hansen, 2002 From the mid 1960s to the mid 1970s West German foreign policy underwent substantial transformations from bilateral to multilateral from reactive to proactive The Conference on Security and Cooperation in Europe CSCE was an ideal setting for

this evolution enabling the Federal Republic to take the lead early on in Western preparations for the conference and to play a decisive role in the actual East West negotiations leading to the Helsinki Final Act of 1975 Based on extensive original research of recently released documents spanning more than fifteen archives in eight countries this study is a substantial contribution to scholarly discussions on the history of détente the CSCE and West German foreign policy The author stresses the importance of looking beyond the bipolarity of the Cold War decades and emphasizes the interconnectedness of European integration and European détente He highlights the need to place the genesis of the CSCE conference in its historical context rather than looking at it through the prism of the events of 1989 and shows that the bilateral and multilateral elements Ostpolitik and the CSCE were parallel rather than successive phenomena parts of the same complex process and in constant interaction with each other *I See Stars* D.H.
