Seeing the Animal Whole Craig Holdrege, 2021-02-16 We conceive of the individual animal as a small world existing for its own sake by its own means Every creature is its own reason to be All its parts have a direct effect on one another a relationship to one another thereby constantly renewing the circle of life Thus we are justified in considering every animal physiologically perfect Goethe Every animal on earth has its own unique character the slow sloth the burrowing mole the towering giraffe the huge but flexible elephant In vivid portrayals of nine different animals Craig Holdrege shows how all of an animal's features are interconnected and reveal the animal as a whole Moreover every animal intersects with and influences the larger environment in dynamic ways Seeing the Animal Whole provides a nuanced sense for what it means to be a living being With the open ended question Who are you and with the will to let the animals themselves be his guide Holdrege avoids the pitfalls of mechanistic and anthropomorphic perspectives that skew our concepts of animals and even lead to their mistreatment This book presents an integrative view of animals and nature that you won't find elsewhere The author presents a different way of seeing and relating to nature leading to a groundbreaking understanding of animal development and evolution as creative processes with the animals as active participants Further evolution of life on earth depends largely on human activity and this book shows a way to learn from nature's living qualities so we can further rather than disrupt the health of the planet which belongs to all of its inhabitants And that matters

Seeing Whole Asbjørn Grønstad, Mark Ledbetter, 2016-02-08 *Seeing Whole* Toward an Ethics and Ecology of Sight explores the ways in which seeing as an embodied process is always a multivalent ambiguous and holistic undertaking Looking at an image entails the mobilization of a range of affordances that together produce sight and insight as a phenomenological experience namely cultural predispositions geographical situatedness medium specificity personal biography socio political relationality and corporeal affectibility In their own diverse ways the essays in this book suggest that acts of seeing make up a visual ecology that in turn introduces a new ethical horizon distinct from but in continuous interaction with conventional ethics Spanning a great variety of media forms from painting and photography to film video literature fashion graffiti and installation art this interdisciplinary collection offers a thorough reconceptualization of the relation between the aesthetics and the ethics of images and represents an innovative addition to the field of visual culture studies

Speaking of Animals Robert Palmatier, 1995-04-30

No other nonhuman source has served as the basis for more metaphors than animals. Speaking of Animals is a dictionary of animal metaphors that are current in American English. It is comprehensive historical and metaphor based. Each entry refers to the other dictionaries that catalog that same metaphor and the dates of first appearance in writing are supplied where possible for both the metaphor and the name of the source. The main text is organized alphabetically by metaphor rather than by animal or animal behavior; all the metaphors are classified according to their animal source in a list at the end of the book. An animal metaphor is a word phrase or sentence that expresses a resemblance or similarity between someone or something and a particular animal or animal class. True metaphors are single words such as the noun tiger the verb hog and the adjective chicken. Phrasal metaphors combine true metaphors with other words such as blind tiger hog the road and chicken colonel. Other animal metaphors take the form of similes such as like rats leaving a sinking ship and prickly as a hedgehog. Still others take the form of proverbs such as Don't count your chickens before they hatch and Let sleeping dogs lie. The horse is the animal most frequently referred to in metaphors followed closely by the dog. The Bible is the most prolific literary source of animal metaphors followed closely by Shakespeare. **»Gold Fever« and Women** Sigrid Schönfelder, 2023-02-06

Throughout its history the American West symbolized a place of hope and new beginnings where anything was possible especially for men. However the history written until the 1970s and 1980s excluded women. Sigrid Schönfelder illustrates how the American West served as a catalytic gold mine for many transformations for women. It draws on the life narratives of three healthcare providers whose devotion within the social reform movements of the long nineteenth century contributed significantly to shaping healthcare policies. Their stories show how women contributed to place making in the West and served as role models for other women to enter the field of medicine. Mbazo Lynn van Rooyen, 2014-03-27

Origin of the elephants name. Named after Lynn van Rooyen who served in conservation for the South African National Parks for 39 years. Mbazo meaning hatchet refers to Lynns early years as a Ranger where he was known to lead field patrols armed only with a hatchet. The Oral Artist Wanjiku M. Kabira, 1997
