Superintendent of Documents, 1896 **Museum Informatics** Paul F. Marty, Katherine Jones, 2012-07-26 Museum Informatics explores the sociotechnical issues that arise when people information and technology interact in museums It is designed specifically to address the many challenges faced by museums museum professionals and museum visitors in the information society It examines not only applications of new technologies in museums but how advances in information science and technology have changed the very nature of museums both what it is to work in one and what it is to visit one To explore these issues Museum Informatics offers a selection of contributed chapters written by leading museum researchers and practitioners each covering significant themes or concepts fundamental to the study of museum informatics and providing practical examples and detailed case studies useful for museum researchers and professionals In this way Museum Informatics offers a fresh perspective on the sociotechnical interactions that occur between people information and technology in museums presented in a format accessible to multiple audiences including researchers students museum professionals and museum visitors [Museums in Motion](#) Juilee Decker, 2024-08-06 This book explores the histories and functions of museums while also looking at the current standing of museums and their ongoing efforts toward relevance resiliency and future proofing Section I examines the beginnings of museums with chapters dedicated to art and design museums natural history and anthropological museums science museums museums focused history and the past and gardens zoos and children s museums Emphasis is on museums in the United States with some historical framing beyond the U S Section II explores the primary functions of museums including conservation exhibition interpretation engagement and service Section III examines museums from within by exploring critical issues and contemporary movements facing museums and our society transparency and openness labor and equity belonging and coalition building risk taking and risk aversion and sustainability and empathy Advocating for change rather than death to museums Museums in Motion demonstrates the very premise that museums have been in motion all along as they have shifted from their rather simple form of a treasury storehouse and tomb to something much more complex by deeply considering where museums have come from where they are today and where they are going Entirely new to this edition Section III Museum Aspirations features five new chapters each centered around topics rather than a museum type or museum function Each topic is meant to be a micro narrative and springboard for a conversation about museums today and their sustainability in the future The chapters examine museums

from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible
