Peter Paul Rubens and the Counter-Reformation Crisis of the Beati moderni Ruth S. Noyes, 2017-09-18 Peter Paul Rubens and the Crisis of the Beati Moderni takes up the question of the issues involved in the formation of recent saints or Beati moderni modern Blessed as they were called by the Jesuits and Oratorians in the new environment of increased strictures and censorship that developed after the Council of Trent with respect to legal canonization procedures and cultic devotion to the saints Ruth Noyes focuses particularly on how the new regulations pertained to the creation of emerging cults of those not yet canonized the so called Beati moderni such as Jesuit founders Francis Xavier and Ignatius Loyola and Filippo Neri founder of the Oratorians Centrally involved in the book is the question of the fate and meaning of the two altarpiece paintings commissioned by the Oratorians from Peter Paul Rubens The Congregation rejected his first altarpiece because it too specifically identified Filippo Neri as a cult figure to be venerated before his actual canonization and thus was caught up in the politics of cult formation and the papacy s desire to control such pre canonization cults The book demonstrates that Rubens second altarpiece although less overtly depicting Neri as a saint was if anything more radical in the claims it made for him Peter Paul Rubens and the Crisis of the Beati

Natural Materials of the Holy Land and the Visual Translation of Place, 500-1500 Renana Bartal, Neta Bodner, Bianca Kuhnel, 2017-04-21 Natural Materials of the Holy Land and the Visual Translation of Place 500 1500 focuses on the unique ways that natural materials carry the spirit of place Since early Christianity wood earth water and stone were taken from loca sancta to signify them elsewhere Academic discourse has indiscriminately grouped material tokens from holy places and their containers with architectural and topographical emulations two dimensional images and bodily relics However unlike textual or visual representations natural materials do not describe or interpret the Holy Land they are part of it Tangible and timeless they realize the meaning of their place of origin in new locations What makes earth stones or bottled water transported from holy sites sacred How do they become pars pro toto signifying the whole from which they were taken This book will examine natural media used for translating loca sancta the processes of their sanctification and how although inherently abstract they become charged with meaning It will address their metamorphosis natural or induced how they change the environment to which they are transported their capacity to translate a static and distant site elsewhere the effect of their relocation on users viewers and how their containers and staging are used to communicate their substance

The Senses and the English Reformation Matthew Milner, 2016-03-03 It is a commonly held belief that medieval Catholics were focussed on the bells and whistles of religious practices the smoke images sights and sounds that dazzled pre modern churchgoers Protestantism in contrast has been cast as Catholicism's austere intellectual and less sensual rival sibling With its white washed walls lack of incense and often music Protestantism worship emphasised preaching and scripture making the new religion a drab and disengaged sensual experience In order to challenge such entrenched assumptions this book examines Tudor views on the senses to create a new lens through which to explore the

English Reformation Divided into two sections the book begins with an examination of pre Reformation beliefs and practices establishing intellectual views on the senses in fifteenth century England and situating them within their contemporary philosophical and cultural tensions Having established the parameters for the role of sense before the Reformation the second half of the book mirrors these concerns in the post 1520 world looking at how and to what degree the relationship between religious practices and sensation changed as a result of the Reformation By taking this long term binary approach the study is able to tackle fundamental questions regarding the role of the senses in late medieval and early modern English Christianity By looking at what English men and women thought about sight hearing smell taste and touch the stereotype that Protestantism was not sensual and that Catholicism was overly sensualised is wholly undermined Through this examination of how worship was transformed in its textual and liturgical forms the book illustrates how English religion sought to reflect changing ideas surrounding the senses and their place in religious life Worship had to be sensible and following how reformers and their opponents built liturgy around experience of the sacred through the physical allows us to tease out the tensions and pressures which shaped religious reform
