Participatory Democracy in Southern Europe Joan Font, Donatella Della Porta, Yves Sintomer, 2014-06-05 Citizen participation is a central component of democratic governance As participatory schemes have grown in number and gained in social legitimacy over recent years the research community has analyzed the virtues of participatory policies from several points of view but usually giving focus to the most successful and well known grass roots cases This book examines a wider range of participatory interventions that have been created or legitimized by central governments providing original exploration of institutional democratic participatory mechanisms Looking at a huge variety of subnational examples across Italy Spain and France the book interrogates the rich findings of a substantial research project The authors use quantitative and qualitative methods to compare why these cases of participatory mechanisms have emerged how they function and what cultural impact they've achieved This allows highly original insights into why participatory mechanisms work in some places but not others and the sorts of choices that organizers of participatory processes have to consider when creating such policies

Personal Identity Ellen Frankel Paul, Fred Dycus Miller, Jeffrey Paul, 2005 What is a person What makes me the same person today that I was yesterday or will be tomorrow Philosophers have long pondered these questions In Plato's Symposium Socrates observed that all of us are constantly undergoing change we experience physical changes to our bodies as well as changes in our manners customs opinions

desires pleasures pains and fears Aristotle theorized that there must be some underlying substratum that remains the same even as we undergo these changes John Locke rejected Aristotle's view and reformulated the problem of personal identity in his own way is a person a physical organism that persists through time or is a person identified by the persistence of psychological states by memory These essays written by prominent philosophers and legal and economic theorists offer valuable insights into the nature of personal identity and its implications for morality and public policy **Battle for Hong Kong, December 1941** Philip Cracknell, 2019-07-15 25 December 1941 is known to this day by the people of Hong Kong as Black Christmas The battle for Hong Kong is a story that deserves to be better known **Paul Rudolph** Roberto De Alba, 2003-05 The light and breeze filled modern houses in Florida of the 1950s featured in Paul Rudolph The Florida Houses and the hard lined silhouette of Yale's Art and Architecture Building 1962 are the two images that come to mind when one thinks of Paul Rudolph Yet few people know the work of the last decades of his life from the 1970s through the 90s Published here for the first time Rudolph's final works are explored through his masterful pencil drawings models and photographs as well as the last interview of his life with architect Peter Blake In a book that considers these projects in the context of his early success Roberto de Alba explores the architect's buildings designed from 1969 to 1996 and includes an astonishing variety of projects many built such as houses towers bungalows chapels corporate buildings and urban plans of a monumental scale All show the complicated interplay of space light and mass that are the trademarks of Rudolph's genius Through de Alba's close contact with the architect before his death Rudolph's own vision is conveyed in descriptive texts and accompanying images Paul Rudolph The Late Work is designed as a companion volume to The Florida Houses and is the second in a planned three volume set of the complete works of this legendary architect **Budget Justice** Celina Su, 2025-09-09 A bold vision that empowers communities to solve our cities most pressing problems Amid political repression and a deepening affordability crisis Budget Justice challenges everything you thought you knew about dull and daunting government budgets It shows how the latter confuse and mislead the public by design not accident Arguing that they are moral documents that demand grassroots participation to truly work for everyone the book reveals how everyday citizens can shape policy to tackle everything from rising housing and food costs to unabated police violence underfunded schools and climate change driven floods and wildfires Drawing on her years of engagement with democratic governance in New York City and around the globe Celina Su proposes a new kind of democracy in which city residents make collective decisions about public needs through processes like participatory budgeting and in which they work across racial divides and segregated spaces as neighbors rather than as consumers or members of voting blocs Su presents a series of interludes that vividly illustrate how budget justice plays out on the ground including in depth interviews with activists from Porto Alegre Brazil Barcelona Spain and Jackson Mississippi and shares her own personal reflections on how changing social identities inform one's activism Essential reading to empower citizens Budget Justice explains why public budgets reflect a crisis not so
