## Seen From Here And There:

**Visible Here and Now** Ayya Khema, 2022-06-07 This practical commentary on one of the most important scriptures of the Pali canon will provide essential sustenance for Buddhist practitioners Ayya Khema is a mountain of strength encouragement and tough love as she pours out down to earth practical instruction on the journey to enlightenment following the framework set forth in the Samannaphala sutta the Buddha's discourse on the rewards of spiritual life The sutta included here in the translation by Bhikkhu Bodhi contains the Buddha's teachings in response to questions posed by King Ajatasattu Why the king asked should we give up the satisfactions of worldly life and devote ourselves to meditation What are the tangible benefits to be gained from following the Buddha's way In answering this question the Buddha provides a compact synopsis of the entirety of the spiritual path and Ayya Khema expands on this with her characteristic approach simple direct experiential and loving An important aspect of the sutta is an account of the eight meditative absorptions or jhanas states of mind that bring joy serenity and peace and that open the way to clarity and liberation Ayya Khema who was herself adept at the eight absorptions confidently leads the reader to through and beyond the jhanas following the Buddha's plan Her words have the effect of inspiring us to roll up our sleeves and get to work so that we may grasp the insights accomplish the meditative goals and become enlightened to the highest extent of our talents and efforts Here/There Kris Paulsen, 2017-02-24 An examination of telepresence technologies through the lens of contemporary artistic experiments from early video art through current drone vision works Telepresence allows us to feel present through vision hearing and even touch at a remote location by means of real time communication technology Networked devices such as video cameras and telerobots extend our corporeal agency into distant spaces In *Here There* Kris Paulsen examines telepresence technologies through the lens of contemporary artistic experiments from early video art through current drone vision works Paulsen traces an arc of increasing interactivity as video screens became spaces for communication and physical tactile intervention She explores the work of artists who took up these technological tools and questioned the aesthetic social and ethical stakes of media that allow us to manipulate and affect far off environments and other people to touch metaphorically and literally those who cannot touch us back Paulsen examines 1970s video artworks by Vito Acconci and Joan Jonas live satellite performance projects by Kit Galloway and Sherrie Rabinowitz and CCTV installations by Chris Burden These early works she argues can help us make sense of the expansion of our senses by technologies that privilege real time over real space and model strategies for engagement and interaction with mediated others They establish a political aesthetic and technological history for later works using cable TV infrastructures and the World Wide Web including telerobotic works by Ken Goldberg and Wafaa Bilal and artworks about military drones by Trevor Paglen Omar Fast Hito Steyerl and others These works become a meeting place for here and there *Here and There in London* J. **THE RING S THE THING** Thing was a young girl who hid beneath a mask Her companions included a crow, a toad, a goldfish, and a kitten Never had a more unlikely band of unheroic heroes set off on a difficult and dangerous quest But Thing had a ring with unusual powers Summer was an orphan who only wanted to find a husband and settle down But first she had to help out a blind knight with amnesia and a winged pig But how to get those two, as well as a raggle tail assortment of other creatures in distress, to the far distant place where they belonged Summer owned almost nothing except a certain magic ring Summer was cast adrift in London by the untimely death of her parents Then an uncle left her a legacy that would lift her up from poverty if she took a dragon's egg into uncharted Asia The task was daunting and time was short but her late uncle had also left her a very remarkable ring Three very unusual heroines in widely separated eras, each wearing for a time a ring made from a unicorn's horn, a ring with extraordinary powers At the publisher's request, this title is sold without DRM Digital Rights Management People who think they hate fantasies are going to like this one USA Today Endearing characters Brown's
