The book is divided into two parts where the author delves into the duality of existence: one reflecting the visible, tangible world and the other the hidden depths of the soul. Maeterlinck's prose is tinged with a mystical quality, employing rich imagery and layered symbolism that invites readers to ponder the mysteries of life and the interconnectedness of all beings within the natural world. The philosophical underpinnings of this work resonate with the themes prevalent in the Symbolist movement, which Maeterlinck was a key figure in emphasizing experience over rationality and the subjective nature of reality. Awarded the Nobel Prize in Literature in 1911, Maeterlinck's life experiences, including his fascination with the workings of the natural world and the human psyche, inform the introspective tone of *The Double Garden*.
