La enseñanza de la psicología en programas de pregrado en Colombia Sonia Carrillo, Karen Ripoll, 2024-03-01 El objetivo principal de la exhaustiva investigación que recogen estas páginas es ofrecer una descripción comparativa de las características de la enseñanza de diversas asignaturas de Psicología en el país En particular se seleccionaron asignaturas en tres áreas de formación específicas que corresponden a las propuestas en el Modelo Bogotá para la formación de psicólogos a nivel de pregrado formación básica investigativa y profesional Un equipo de

psicólogos expertos en las respectivas áreas de enseñanza lider los procesos de recolección y análisis de la información y son estos mismos expertos quienes escribieron los capítulos que componen el libro Otro objetivo no menos relevante es que los hallazgos de la investigación motiven a los lectores a reflexionar sobre el quehacer docente en su especialidad y a plantearse preguntas de investigación sobre cómo mejorar la calidad de la formación en Psicología en Colombia y quizás también en la región latinoamericana Hace un llamado a los directores de departamentos y decanos de facultades de Psicología a promover un diálogo en sus instituciones educativas sobre la importancia de una enseñanza de la Psicología que conduzca a establecer y consolidar una cultura que reconozca y estimule la importancia de la investigación sobre docencia en sus contextos educativos **Psicología Antología**, 2002 Revista Digital Internacional de Psicología y Ciencia Social | Vol. 2 | Num. 1 | 2016 Arturo Silva-Rodríguez | Editor General, 2016-01-11 En el ámbito nacional el tránsito hacia un modelo de acceso abierto de la divulgación científica apenas está empezando a consolidarse puesto que todavía los círculos de científicos conservadores siguen viendo con desconfianza el conocimiento que se difunde en revistas que siguen esta política editorial Un indicador de esta situación es que apenas el año antepasado precisamente el 20 de mayo de 2014 se le adiciona a la Ley de Ciencia y Tecnología el capítulo X relacionado con la divulgación de la información científica tecnológica y de innovación mediante una política de acceso abierto Diario Oficial de la Federación 2014 Al margen de los fuegos fatuos creados por los editores tradicionales en la actualidad el movimiento de acceso abierto enfrenta un gran desafío puesto que evidentemente para garantizar la calidad del contenido que se difunde a través de esta modalidad existe un costo para hacer funcionar toda la cadena de producción y divulgación de los conocimientos científicos y evidentemente alguien tiene que pagar o absorber ese costo Precisamente en el artículo editorial de este número se presentan los modelos de negocios que se están aplicando para garantizar la sostenibilidad de las revistas que impulsan el acceso abierto a la divulgación del conocimiento científico movimiento al que está incorporada la Revista Digital Internacional de Psicología y Ciencia Social El volumen de esta revista está constituido por tres artículos empíricos una revisión de la literatura y en la sección de la Psicología Ayer y Hoy se publica la traducción de un artículo relacionado con la visión cualitativa de la investigación científica La sección de artículos empíricos comienza con el trabajo de Jiménez y Negrete en donde se exponen los resultados de un estudio realizado entre las viviendas urbanas y rurales con el propósito de conocer las diferencias entre el uso del espacio en ambos ambientes Los hallazgos mostraron importantes diferencias en el uso de las viviendas en estos dos contextos por lo tanto es notable la importancia de atender los espacios habitacionales rurales a los objetivos de la psicología ambiental El siguiente artículo que compone este número es el realizado por la autora Damián Díaz el cual muestra la exploración que se realiza los juegos elegidos por niños en los primeros años de su etapa escolar Los resultados muestran las preferencias de juego en contextos como el hogar y la escuela además de que es posible distinguir el juego favorito para niños y niñas en su primer grado de primaria el segundo y el tercero Continuando con los estudios empíricos presentados en este número el artículo de los autores Ortiz y

Moreno canaliza de igual manera sus propósitos hacia objetivos psicoeducativos pero a diferencia del artículo presentado por Damián Díaz se dirige hacia adolescentes de educación secundaria. El estudio muestra de manera clara y amena la influencia que tiene el estilo parental en el rendimiento académico categorizando en autoritario, democrático y negligente para esto se midió el estilo parental de los padres de 90 adolescentes con el propósito de identificar la relación que este ejerce en el rendimiento académico prestando especial atención en situaciones en las que se comparta por ambos padres o difiera entre ellos el estilo parental. Continuando en esta línea el artículo de Flores Rivera y Sánchez nos habla de rendimiento académico pero en este caso en un nivel de educación superior. El objetivo de este estudio fue determinar la influencia de los factores sociopsicopedagógicos en el rendimiento académico de alumnos de medicina. Se pretendió determinar con exactitud la influencia que tienen ciertos factores en el éxito escolar para esto se indagó en la historia escolar del alumno, proyecto de vida, hábitos y técnicas de estudio, relaciones con docentes, compañeros y familiares esperando encontrar una fuerte relación de uno o varios de ellos con el bajo o alto rendimiento. Los resultados y las conclusiones son interesantes y tienen claras intenciones de contribuir en la solución de un problema que aqueja a las instituciones educativas: la deserción escolar. A continuación se presenta la revisión de la literatura especializada desarrollada por Enriquez y Sánchez la cual tiene por objetivo abordar el estado actual y las líneas futuras de investigación sobre la influencia fraterna en el comportamiento sexual bajo los conceptos de socialización sexual fraterna e influencia de los hermanos sobre el comportamiento sexual de riesgo. Para cerrar este número se presenta la contribución del autor Pérez Campos la cual es una interesante traducción del primer capítulo del libro *Historical origins of psychological research* del psicólogo Kurt Danziger. Dicha traducción se realiza con fines didácticos como lo menciona Pérez Campos en la breve introducción que comparte. Es así que finalizamos el presente número. El equipo editorial de la Revista Digital Internacional de Psicología y Ciencia Social agradece como siempre su atención. Esperamos disfrute ampliamente la divulgación de la ciencia en formato digital libre y gratuito.
