Joe Hill Franklin Rosemont, 2015-12-18 A monumental work expansive in scope covering the life times and culture of that most famous of the Wobblies songwriter poet hobo thinker humorist martyr Joe Hill It is a journey into the Wobbly culture that made Hill and the capitalist culture that killed him Many aspects of the life and lore of Joe Hill receive their first and only discussion in IWW historian Franklin Rosemont's opus In great detail the issues that Joe Hill raised and grappled with in his life capitalism white supremacy gender religion wilderness law prison and industrial unionism are shown in both the context of Hill's life and for their enduring relevance in the century since his death Collected too is Joe Hill's art plus scores of other images featuring Hill inspired art by IWW illustrators from Ralph Chaplin to Carlos Cortez as well as contributions from many other labor artists As Rosemont suggests in this remarkable book Joe Hill never really died He lives in the minds of young and old rebels as long as his songs are sung his ideas are circulated and his political descendants keep fighting for a better day

DIY Utopia Amber Day, 2016-12-22 At first glance contemporary popular culture filled with bleak images of the future seems to have given up on the possibility of positive collective change Below the surface however alternative culture is rife with artist led projects activist movements and subcultural communities of interest that seek to spark the collective imagination and to encourage hunger for alternatives More playfully self conscious than past utopian movements today's are often whimsical or ironic but are still entirely earnest Artists invite us to re author city maps or archive individual ideas for the future while maker collectives urge us to rethink our relationship to consumer goods All seem to have grown out of a similar do it yourself ethos and alternative culture One of the central conflicts informing these case studies is that while it remains immensely difficult to envision anything outside of the current system of consumer capitalism there is nevertheless a

powerful desire to take it apart in piecemeal ways We see the longing for new social and political narratives new forms of communion and sociability and new imaginings of the possible longings that are currently unmet by mainstream culture but that are taking expression in myriad ways at the local level Taken as a whole this collection examines what our grand ideals and playful daydreams tell us about ourselves Do It Yourself The Trapeze Collective, 2007-05-20 Do you really want to change the world If the answer is YES then this book shows you how Ethical consumerism is now big business But leading a sustainable and truly radical life encompasses a whole variety of things that challenge the mainstream This book shows how we can make real changes to the way we live In simple steps it describes how you can create sustainable and equitable ways of living that can help transform not just your own life but the culture around you The book weaves together analysis stories and experiences It combines in depth analytical chapters followed by easy to follow How to Guides with practical ideas for change Taken together these small steps can move us towards taking back control of our lives from governments and corporations Hand-held Visions DeeDee Halleck, 2002 For almost forty years DeeDee Halleck has been involved in a variety of projects that involve media making by non professionals Her goal has been to develop a critical sense of the potential and limitations of mediated communication through practical exercises that generate a sense of both individual and non hierarchical group power over the various apparati of media and electronic technology Hand Held Visions is a collection of essays presentations and lectures that she has written throughout this process Halleck starts with a discussion of her own development as a teacher producer and an active participant in the struggle for media democracy She gives the reader a historical first person perspective on the community based media movement and a sense of the determination and resolve that have enabled often fragile and much embattled organizations and individuals to survive in a climate dominated by global media corporations that are in direct opposition to their work Life Under the Jolly Roger Gabriel Kuhn, 2020-09-01 Over the last couple of decades an ideological battle has raged over the political legacy and cultural symbolism of the golden age pirates who roamed the seas between the Caribbean Islands and the Indian Ocean from roughly 1690 to 1725 They are depicted as romanticized villains on the one hand and as genuine social rebels on the other Life Under the Jolly Roger examines the political and cultural significance of these nomadic outlaws by relating historical accounts to a wide range of theoretical concepts reaching from Marshall Sahlins and Pierre Clastres to Mao Zedong and Eric J Hobsbawm via Friedrich Nietzsche and Michel Foucault With daring theoretical speculation and passionate respectful inquiry Gabriel Kuhn skillfully contextualizes and analyzes the meanings of race gender sexuality and disability in golden age pirate communities while also surveying the breathtaking array of pirates forms of organization economy and ethics Life Under the Jolly Roger also provides an extensive catalog of scholarly references for the academic reader Yet this delightful and engaging study is written in language that is wholly accessible for a wide audience This expanded second edition includes two new prefaces and an appendix with interviews about contemporary piracy the ongoing fascination with pirate imagery and the thorny issue

of colonial implications in the romanticization of pirates The Routledge Reader of African American Rhetoric Vershawn Ashanti Young, Michelle Bachelor Robinson, 2024-11-01 The Routledge Reader of African American Rhetoric is a comprehensive compendium of primary texts that is designed for use by students teachers and scholars of rhetoric and for the general public interested in the history of African American communication The volume and its companion website include dialogues creative works essays folklore music interviews news stories raps videos and speeches that are performed or written by African Americans Both the book as a whole and the various selections in it speak directly to the artistic cultural economic gendered social and political condition of African Americans from the enslavement period in America to the present as well as to the Black Diaspora **The New Media Nation** Valerie Alia, 2012 Around the planet Indigenous people are using old and new technologies to amplify their voices and broadcast information to a global audience This is the first portrait of a powerful international movement that looks both inward and outward helping to preserve ancient languages and cultures while communicating across cultural political and geographical boundaries Based on more than twenty years of research observation and work experience in Indigenous journalism film music and visual art this volume includes specialized studies of Inuit in the circumpolar north and First Nations peoples in the Yukon and southern Canada and the United States
