Feed Your Kids Well Fred Pescatore, M.D., 2008-05-02 I've worked side by side with Dr Pescatore for many years. In this book which I heartily recommend Dr Pescatore teaches you how to bring health and nutrition to the next generation. Robert C Atkins M.D. author of the multimillion copy bestseller *Dr Atkins New Diet Revolution*. *Feed Your Kids Well* offers a sensible approach to the difficult problem of childhood obesity and many other children's health problems. Dr Pescatore provides parents with excellent strategies for dealing with their children in a positive sensitive way. It exposes the dangers associated with high sugar foods and reveals the true cause of childhood obesity. Joyce and Gene Daoust authors of *40 30 30 Fat Burning Nutrition*. I helped nutritionally vet Adelle Davis's book *Let's Have Healthy Children*. In my opinion *Feed Your Kids Well* replaces that important work. Fran Gare nutrition expert CBS TV Today one third of North American children and teenagers are overweight. And despite decades of medical and scientific breakthroughs the percentage of children with health problems today is the highest in history. *Feed Your Kids Well* will be a revelation for millions of worried parents. Dr Fred Pescatore who was overweight and asthmatic as a child brings an empathetic and hopeful tone to this groundbreaking guide to achieving optimum nutrition ideal health and self confidence. Building on the low carbohydrate principles of the hugely popular *Dr Atkins New Diet Revolution* which has helped millions of adults lose weight permanently Dr Pescatore applies the Atkins Center's proven nutritional program to children and teenagers. Thoroughly tested over years of exhaustive research his *Next Generation Diet* is the first health program to recognize that simply applying adult diet plans to children is ineffective and often dangerous. The author argues that the real culprit behind dietary problems is not fat but sugars and starches. *Feed Your Kids Well* brings something new to the table sane and practical guidance for parents concerned not only about weight loss but also about general wellness and the prevention of disease from asthma to ADD from earaches to allergies.
