Robert Johnston, Graham Clark

Service Operations Management Improving Service Delivery:

Service Operations Management Robert Johnston, Graham Clark, Michael Shulver, 2012 This international market leading book aimed at both students and practising managers provides a comprehensive and balanced introduction to service operations management Building on the basic principles of operations management the authors examine the operations decisions that managers face in controlling their resources and delivering services to their customers Combining a unique practical approach with a detailed theoretical underpinning the authors provide tools frameworks and techniques for operational analysis and improvement and set operations management within the wider business context bringing a valuable real world perspective to this growing area Each chapter includes definitions of key terms real world examples and case studies with exercises questions to test both understanding and application together with recommended further reading and suggested web sites to deepen your knowledge New features for this 4th edition include A new 17 chapter structure A practical focus on how to deal with the key issues and challenges facing service operations managers A new chapter on the customer experience A new chapter on driving continuous improvement A new chapter on learning from other operations A new chapter on world class service Six new end of chapter case exercises A new full colour design **Service Operations Management** is an invaluable guide to students and managers confronting operational issues in service management whether from a general management perspective or focused in specific sectors such as tourism and leisure or business services This book is ideal for undergraduates postgraduates or executives wishing to gain a deeper understanding of managing service operations and improving service delivery

Service Operations Management Robert Johnston, Graham Clark, 2005 The central focus of this book is how organizations deliver service and the operational decisions that managers face in managing resources and delivering service to their customers *Service Operations Management* Robert Johnston, Graham Clark, 2008 **Service Operations Management** is an invaluable guide to students and managers confronting operational issues in service management whether from a general management perspective or focused in specific sectors such as tourism and leisure or business services This book is ideal for undergraduates postgraduates or executives wishing to gain a deeper understanding of managing service operations and improving service delivery Johnston and Clark is an outstanding text and should remain at the forefront of service management texts for the foreseeable future It has attracted excellent student feedback Geoffrey Plumb Senior Lecturer Staffordshire University Finally a book that encompasses and illustrates all the phases of service processes giving the right emphasis to each rather than focusing exclusively on the marketing aspects of the service context Andrea Vinelli Professor of Operations Management University of Padova Italy

Public Service Operations Management Zoe J. Radnor, Nicola Bateman, Ann Esain, Maneesh Kumar, Sharon J. Williams, David M. Upton, 2015-07-30 How do policy makers and managers square the circle of increasing demand and expectations for the delivery and quality of services against a backdrop of reduced public funding from government and philanthropists Leaders executives and

managers are increasingly focusing on service operations improvement In terms of research public services are immature within the discipline of operations management and existing knowledge is limited to government departments and large bureaucratic institutions Drawing on a range of theory and frameworks this book develops the research agenda and knowledge and understanding in public service operations management addressing the most pressing dilemmas faced by leaders executives and operations managers in the public services environment It offers a new empirical analysis of the impact of contextual factors including the migration of planning systems founded on MRP ERP and the adoption of industrial based improvement practices such as TQM lean thinking and Six Sigma This will be of interest to researchers educators and advanced students in public management service operations management health service management and public policy studies

Service Operations Management: Improving Service Delivery, 2/E Johnston,2007-09

Service And Operations Management Cengiz Haksever,Barry Render,2017-12-26 The purpose of this book is to provide cutting edge information on service management such as the role services play in an economy service strategy ethical issues in services and service supply chains It also covers basic topics of operations management including linear and goal programming project management inventory management and forecasting This book takes a multidisciplinary approach to services and operational management challenges it draws upon the theory and practice in many fields of study such as economics management science statistics psychology sociology ethics and technology to name a few It contains chapters most textbooks do not include such as ethics management of public and non profit service organizations productivity and measurement of performance routing and scheduling of service vehicles An Instructor s Solutions Manual is available upon request for all instructors who adopt this book as a course text Please send your request to sales wspc com

South African Human Resource Management Ben Swanepoel,Barney Erasmus,Heinz Schenk,2008 Book Strategising designing and planning as preparatory HRM work Sourcing work talent Facing the countrys people empowerment challenge Meeting the reward and care challenge Handling labour and employee relations challenges Championing change and transformation Managing HRM related information including HRM and sustainability reporting Based on most recent theoretical developments the emphasis is on the practical applications Samples of relevant documents are included and an accompanying CD contains a wealth of relevant resources as well as a continuing integrating case study that serves as a basis for these applications and individual and group activities As a package South African Human Resource Management will be extremely valuable to both current and aspirant managers and human resource practitioners

Improving Healthcare Services Sharon J. Williams,Lynne Caley,2020-02-21 Building on co author Sharon Williams previous title Improving Healthcare Operations this book examines the role of co design and coproduction in health and social care Extending current thinking on coproduction in healthcare and how this can be operationalised this book opens a discussion around how it can contribute to improvement Providing a number of case studies it links previous public service management operations management and supply chain management

research by extending and translating these core design and improvement principles into health and social care Considering the wider role of patients communities and other stakeholders it will challenge and develop existing thinking in relation to co design coproduction and redesign of services *Transforming Field and Service Operations* Gilbert Owusu,Paul O'Brien,John McCall,Neil F. Doherty,2014-01-21 The drive to realise operational efficiencies improve customer service develop new markets and accelerate the introduction of new products has substantially increased the complexity of field service operations To maximise the efficiency and effectiveness of these operations organisations have embarked on a wide range of transformation programmes that have sought to introduce automation through the use of workforce management technologies Despite the potential business value that can be provided by such transformation programmes too often the automation technologies have not been fully utilised and their expected benefits have as such not been realised Scholars of organisation change argue that the success of any transformation programme is a function of how well the technical political structural and social aspects of a specific project have been managed The objective of this edited book is to provide insights into how organisations might successfully transform their field service operations with the help of workforce management technologies Accordingly the book is organised into four sections Section A The Case for Transforming Service and Field Operations explains the rationale as to why organisations should actively consider transforming their service and field operations while Section B presents various Methods Models and Enabling Technologies for Transforming Service and Field Operations In Section C a number of Case Studies illustrate how new technologies can be applied to field and service operations to deliver concrete business benefits Lastly Section D considers Challenges Outcomes and Future Directions Overall this book provides valuable insights into how to successfully transform field service operations with automated technologies It draws on years of experience from different industries and from different perspectives on realising change It is aimed at managers technologists change agents and scholars who are interested in field service operations in general and the use of advanced computing technologies in this area in particular *Operations Management in the Travel Industry, 2nd Edition* Peter Robinson,Paul Fallon,Harry Cameron,John C Crotts,2016-02-26 Covering the applied managerial perspective of the travel industry this book looks at the core disciplines and the application of theory to practice Considering individual and corporate social responsibility it teaches effective managerial skills by reviewing legal frameworks quality management and marketing financial management and the management of shareholders and stakeholders It discusses current trends such as sustainability and governmental emission targets against a background of the needs of a commercial business to innovate and increase profits A valuable tool for both students and those working in the travel industry this new edition includes new content a revised structure and all new international case studies
