Service Economy A Geographical Approach:

The Service Economy Sven Illeris, 1996-12-09 This book reviews research from around the world that examines the development and the future of the service economy It reviews the growth and development of the service economy in spatial terms and discusses some surprising and controversial conclusions for the future

The Development of Service Economy Zhenhua Zhou, 2015-10-26 This book focuses on service economy development particularly on how an industrial economy evolves into a service economy The book is organized in three sections The first theoretically answers the general question what is the service economy The second explains the mechanism of the service economy's formation and development revealing the evolution trends and attempts to answer the question where does the service economy come from The third section includes an in depth analysis of Chinese case studies to answer the key question how can the service economy development be promoted Readers will discover what the service economy is and how it relates to and differs from the industrial economy More importantly it will provide policy makers with suggestions for how to promote service economy development

Innovation Systems in the Service Economy J Stanley Metcalfe, Ian Miles, 2012-12-06 A frequent complaint in literature is that services have been previously largely overlooked by innovation researchers and technology policy makers Given the unarguable growth in the importance of the service sectors increasing numbers of researchers and policy makers have taken a fresh look at service activities Innovation Systems in the Service Economy Measurement and Case Study Analysis presents contributions which increase the understanding of the role of services in the development of the division of labor in modern economics This volume is devoted to the elaboration and understanding of the following two themes First service firms can be innovative in their own right even though the process of innovation and the kinds of innovation may be different from those traditionally associated with manufacturing and other primary activities Second service firms and associated activities play an important role in the evolving division of creative labor which is constituted by modern innovative systems

The Service Economy Sven Illeris, 1996-12-09 Services dominate the modern economy This controversial and important book reviews research into the development and future of the service economy Professor Illeris synthesises not only English language research on the nature and function of services but also introduces the lesser known but equally important work done on services by researchers in other languages which often reaches surprising and challenging conclusions While the emphasis is on producer services in the western world due consideration is also given to the role and significance of personal and household services which have been frequently ignored in the literature The approach adopted is geographical and macro economic and among the topics discussed are the nature and classification of service activities the role and importance of services in the overall economy and the increasing importance of services in regional development and international trade The overall theme of the book is how our society has been transformed into a service economy and what this implies for individuals institutions and states as both producers and consumers of services

This is a key text for students and researchers of economics economic geography planning regional science and applied social science as well as of interest to planners consultants and managers in service industries and government
