SEVEN STEPS TOWARDS A SUCCESSFUL LIFE Circle of Success This circle of success shows different stages and dimensions of the growth of the dream or vision in your mind Steps 1 to 3 happen in your mind without most people seeing what you are trying to do Other people will begin to see what you are doing when you are at stages 4 to 7 1 All success begins as a dream conceived through thoughts imagination in the mind 2 Speaking out your dream is the second stage in the growth of a dream or vision 3 Planning is the third stage toward growth and achieving your dream or vision 4 Working out your dream or vision according to plan is the fourth stage 5 Praying and fasting are means of connecting with God to get Power to work 6 Giving and generosity will keep you within an infinite supply of blessings from God 7 Time Courage Faith and fear nothing except God and then just do it Poetics of Alterity Soyoung Lee, 2022-11-14 **POETICS OF ALTERITY**

Education today is commonly oriented towards citizenship and skills for life with aims of happiness and wellbeing But this benign image harbours surreptitious forms of control which ultimately undermine the goods it professes to safeguard and stifle education s very purpose What release can there be from these constrictions Release is to be found as Soyoung Lee eloquently shows by attending to elements of experience that seem to escape our grip from challenging aspects of our moral lives to struggles over practicalities of curriculum content The more robust more outward turning orientation she demonstrates emphasises engagement with subject matter with problems and forms of narrative that defy pre determined

formulations and categories This requires turning towards objects worthy of attention and towards people and their claims on us The arts and the humanities have special importance as spaces where alterity presents and expresses itself Lee s dialogue with Heidegger Levinas Derrida and Celan shows how acknowledgement of the other must condition not only practices of teaching and learning but practicalities of our social and political lives Attending to anxieties inherent in teaching and learning in school and the wider world the book s powerful rationale for the curriculum provides nothing less than a new grounding for the humanities
