The Seven Synonyms for God Max Kappeler, 1984-01-01      The Christian Science Journal, 1920      *The Revelation of Saint John* I.C. Tomlinson,      Christian Science Stephen Gottschalk, 1978      **The Best of Two Worlds** Yu-Tang Daniel Lew, 2008-07 Yu Tang Daniel Lew had a long and distinguished career as a diplomat editor and professor He served as consul general in Vancouver minister in Brazil and ambassador to New Zealand and at the United Nations He also devoted many years to teaching first at Tsing Hua University in Beijing in 1948 later at Mackinac College in Michigan in the late 60s and then at the Chinese Culture University in Taiwan from 1976 until his death in 2005 In 1974 he established the Sino American Relations quarterly and was its editor in chief for all of its 30 years A long admirer of Abraham Lincoln Dr Lew founded the Lincoln Society in 1984 to promote Lincoln's ideals of democracy among the Chinese He also spent his final years teaching children the spirit of Liang zhi espoused first by the philosopher Mencius The oldest of six siblings Dr Lew was born on October 26 1913 in Guangzhou China He attended Seattle's Broadway High School and obtained his doctorate at Harvard University Married to Yalan Chang Lew they had three sons      **The Philosophical Foundations of Christian Science** Nicholas Sheldon, 2025-04-24 Mary Baker Eddy 1821-1910 is best known for founding the religion of Christian Science an international institution which has extended beyond her lifetime and into the twenty first century Often labelled as fringe theology rather than core philosophy Eddy's work has remained on the peripheries of academia Her unmitigated idealism and occasionally nebulous style have led to a reluctance to apply a philosophical rigour to her thinking In *The Philosophical Foundations of Christian Science* Nicholas Sheldon rediscovers her as a radical philosopher one of many female philosophers of her time who he contends should no longer be underestimated Carefully analysing her non linear style in order to understand her internal system of thought Sheldon resolves flaws within her argument and draws out Christian Science's remarkable philosophical assertion that it is not only illness and suffering which are unreal but the entire physical realm For Eddy it is only the spiritual which remains      **Prayers from the Heart, Prayers from the Mind** Karren M. Hoyt, 2011  
*The Christian Science Journal*, 1930      A Spiritual Journey Richard A. Nenneman, 2009-07      **Scientific Government and Self-government** Rolf A. F. Witzsche, 2003      Violet Oakley Bailey Van Hook, 2016-03-04 Violet Oakley An Artist's Life is the first full length biography of Violet Oakley 1874-1961 the only major female artist of the beaux arts mural movement in the United States as well as an illustrator stained glass artist portraitist and author There is much human interest here a pampered and spoiled young woman who suddenly finds herself in near poverty forced to make a living in illustration to support her parents a sensitive and idealistic young woman who in a desperate attempt to save her neurasthenic father embraces Christian Science a religion derided by her family and friends a 28 year old woman who receives one of the plum commissions of the era a mural cycle in the Pennsylvania State Capitol in a field dominated by much older and predominantly male artists a woman in her forties who although professionally successful finds herself very much alone and bonds with her

student Edith Emerson a friend of artists like dancer Ruth St Denis and violinist Albert Spalding who nevertheless was supremely conscious of social mores the Miss Oakley of the Social Register who preferred the company of upper class to bohemian society the tireless self promoter who traveled abroad to become the unofficial visual historian of the League of Nations yet who ironically was increasingly regarded as a local artist      **The Christians' God Does Not Exist! Yes, He/She Does!** Proncell F. Johnson Jr.,2018-02-22 The Christians God Does Not Exist Yes He She Does By Proncell F Johnson Jr Carl Sagan popular astronomer cosmologist astrophysicist and astrobiologist wrote We are Star Stuff which has taken its destiny into its own hands The scientific community basically agrees that everything is made of atoms Proncell F Johnson Jr says that they are all wrong Johnson shows that the material universe along with us mortals is one big illusion for all things are actually incorporeal spiritual the manifestation of the spiritual being we Christians have come to call God He says that the realization of and utilization of this fact will enable one to duplicate for himself the so called miracles of Christ Jesus in degrees thus proving the existence of this God and the non existence of matter Johnson s proof is based upon a law of physics that make it all but impossible to refute as the below reviews confirm      The Infinite Nature of Man Rolf A. F. Witzsche,2003

*If I Knew Then What I Know Now* John Paciorek,2018-04-19 The joy of first time big league baseball experience is the fulfillment of countless childhood dreams imagining glorified moments of grandeur My first taste of major league fan adulation made me feel good and I wanted more even for just another moment The enthusiasm with which the sportscaster mentioned my name along with details of my first game exploits slowed only after his summation conferred upon me the unofficial major league batting title The 1963 baseball season ended that day and he as well as the entire Colt 45 Organization was looking forward to a brilliant future for this phenomenal rookie and the Organization itself The 1964 spring training began in February and I was anxious to make the team and be in the starting lineup on opening day April 13 in Cincinnati Monday s game would begin at 1 00 PM The lineups were announced and the cards presented to the umpires prior to the first pitch It was without a sudden unexpected sense of disappointment that one prominent name was unobtrusively replaced in the visiting team s lineup It would have been an unconscionable act of omission had the world of dreams maintained its credibility in the unimaginative world of reality It seems that a personally satisfying account not only of what could have been but of what can be is a new prospect only to be explored presently in the mind s incredible realm of imagination I now sense that I always had an inherent right to experience my life story in the way that I wanted it to be I realize that I could have lived with an uncommon understanding that I do create my own reality The future is the only perpetuation of time but now is the constantly new exemption from time s past It seems unfortunate that it should have taken more than fifty years to accrue life s valuable lessons and then find little time remaining to take advantage of the wisdom that would have been found to give most beneficial service to the days of youth If I knew then what I know now what could have been Suddenly a thought occurred to me How and why is all this knowledge and the understanding and application of it

coming into my human experience I seem so far advanced of the times in this year of 1964      **God's Perfect Child** Caroline Fraser, 2024-06-04 From the Pulitzer Prize winning author the most powerful and persuasive attack on Christian Science to have been written in this century Los Angeles Times Book Review Millions of Americans from Lady Astor to Ginger Rogers to Watergate conspirator H R Haldeman have been touched by the Church of Christ Scientist Founded by Mary Baker Eddy in 1879 Christian Science was based on a belief that intense contemplation of the perfection of God can heal all ills an extreme expression of the American faith in self reliance In this unflinching investigation Caroline Fraser herself raised in a Scientist household shows how the Church transformed itself from a small eccentric sect into a politically powerful and socially respectable religion and explores the human cost of Christian Science s remarkable rise Fraser examines the strange life and psychology of Mary Baker Eddy She takes us into the closed world of Eddy s followers who refuse to acknowledge the existence of illness and death and reject modern medicine even at the cost of their children s lives She reveals just how Christian Science managed to gain extraordinary legal and Congressional sanction for its dubious practices and tracks its enormous influence on new age beliefs and other modern healing cults A passionate expos of zealotry God s Perfect Child tells one of the most dramatic and little known stories in American religious history A work of impassioned rationality important and profoundly disturbing Susan Jacoby Newsday New Startling Fraser has an eye and ear for the kind of detail that can help readers make up their own minds about an always controversial American religious expression Martin Marty The Boston Globe Splendid The New York Times      **The Lifestyle of God's True Believers** Garratt Edsall, 2010-09 This work is laid out as guide first to help the individual believer understand God s order for their soul life next how to apply His Word to their psyche soul then how to exercise their believing to throw the power of God through His gift of holy spirit into manifestation If an individual falters in their believing this writing may aid them to diagnose where the deficiency resides and then make reparations so as to achieve success The strengthening of the Body of Christ through the strengthening of each member is the ultimate goal      Spiritual Moderns Erika Doss, 2023-05-03 Examines how and why religion matters in the history of modern American art Andy Warhol is one of the best known American artists of the twentieth century He was also an observant Catholic who carried a rosary went to mass regularly kept a Bible by his bedside and depicted religious subjects throughout his career Warhol was a spiritual modern a modern artist who appropriated religious images beliefs and practices to create a distinctive style of American art Spiritual Moderns centers on four American artists who were both modern and religious Joseph Cornell who showed with the Surrealists was a member of the Church of Christ Scientist Mark Tobey created pioneering works of Abstract Expressionism and was a follower of the Bah Faith Agnes Pelton was a Symbolist painter who embraced metaphysical movements including New Thought Theosophy and Agni Yoga And Warhol a leading figure in Pop art was a lifelong Catholic Working with biographical materials social history affect theory and the tools of art history Doss traces the linked subjects of art and religion and proposes a revised interpretation of American modernism

**The Emergence of Christian Science in American Religious Life** Stephen Gottschalk, 2024-07-26 Christian Science is one of only two indigenous American religions the other being Mormonism Yet it has not always been examined seriously within the context of the history of religious ideas and the development of American religious life Stephen Gottschalk fills this void with an examination of Christian Science's root concepts the informing vision and the distinctive mission as formulated by its founder Mary Baker Eddy Concentrating on the quarter century preceding Eddy's death a period of phenomenal growth for Christian Science Gottschalk challenges the conventional academic view of the movement as a fringe sect He finds instead a serious and distinctive though radical religious teaching that began to flower just as orthodox Protestantism began to fade He gives a clear and detailed account of the rancorous controversies between Christian Science and the various mind cure and occult movements with which it is often associated and contends that Christian Science appealed to disenchanted Protestants because of its pragmatic quality a quality that relates it to the mainstream of American culture This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973

*The Apocalypse* Charles H. Talbert, 1994-01-01 In this concise and clearly written commentary Charles H Talbert brings to mainline Christians a fresh reading of the book of Revelation demonstrating that it is not only accessible but relevant for the modern day Christian According to Talbert the primary causes of the marginalized status of the book of Revelation by mainline Christians are threefold the apparent inaccessibility of its meaning the seeming impossibility of its pastoral application and its demonstrated susceptibility to abuse Talbert ably demonstrates that the book of Revelation was written to help the early Christians avoid assimilation into the larger pagan culture Talbert also gives full attention to the literature of the Greco Roman early Christian and early Jewish worlds as he examines the more mystical components of the narrative
