Seventeenth Century Bacon Through Marvell:

Francis Bacon and the Seventeenth-Century Intellectual Discourse A. Funari, 2011-10-10 This book explores the resistance of three English poets to Francis Bacon's project to restore humanity to Adamic mastery over nature moving beyond a discussion of the tension between Bacon and these poetic voices to suggest they were also debating the narrative of humanity's intellectual path **The Seventeenth Century** Arthur Edward Barker, 1979 *The Seventeenth Century*, 1930

A Reference Guide for English Studies Michael J. Marcuse, 2023-11-15 *Andrew Marvell, Sexual Orientation, and Seventeenth-Century Poetry* George Klawitter, 2017-09-01 Andrew Marvell's *Sexual Orientation and Seventeenth Century Poetry* examines the important Interregnum Restoration poet Andrew Marvell against a background of his contemporary lyric poets. His major works from the early elegies to the later political pieces are discussed with a view to unmasking the poet's own sexuality and his reflection of prevailing sexual attitudes. Popular poems like the Mower poems and *The Nymph Complaining for the Death of her Fawn* are explicated in depth as well as lesser known poems like *The Unfortunate Lover* and *The Gallery*. Marvell often described as a chameleon has teased readers for hundreds of years. This new book will help both new readers as well as established Marvellians to understand cryptic sexual meanings and references in the verses. Poems are explicated against current heteronormative theory as well as recent work on homoeroticism, autoeroticism and celibacy. George Klawitter has devoted much of his recent scholarly life to a study of Marvell's lyric pieces and brings to this new book fresh insights into the suggestive intent of the poet's works **The Cambridge Companion to Andrew Marvell** Derek Hirst, Steven N. Zwicker, 2011 A set of specially commissioned essays forming a fresh understanding of the poet within his time and place **ENGLISH LITERATURE ADVANCING THROUGH HISTORY 3 - The Seventeenth Century** Petru Golban, 2021-12-24 The present book is third in a series of works which aim to expose the complexity and essence, power and extent of the major periods, movements, trends, genres, authors and literary texts in the history of English literature. Following this aim, the series will consist of monographs which cover the most important ages and experiences of English literary history including Anglo-Saxon or Old English period, the Middle Ages, the Renaissance, the Restoration, neoclassicism, romanticism, Victorian Age and the twentieth century and contemporary literary backgrounds. The reader of these volumes will acquire the knowledge of literary terminology along with the theoretical and critical perspectives on certain texts and textual typology belonging to different periods, movements, trends and genres. The reader will also learn about the characteristics and conventions of these literary periods and movements, trends and genres, main writers and major works and the literary interaction and continuity of the given periods. Apart from an important amount of reference to literary practice, some chapters on these periods include information on their philosophy, criticism, worldview, values or episteme in the Foucauldian sense which means that even though the condition of the creative writing remains as the main concern, it is balanced by a focus on the condition of thought as well as theoretical and critical writing during a particular period.
