Severn And Somme And Wars Embers:

Severn & Somme Ivor Gurney,1917 **Severn & Somme ; And, War's Embers** Ivor Gurney,1987 This is a pre 1923 historical reproduction that was curated for quality Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process Though we have made best efforts the books may have occasional errors that do not impede the reading experience We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide Collected Critical Writings Geoffrey Hill,2009 The Collected Critical Writings gathers more than forty years of Hill s published criticism in a revised final form and also adds much new work It will serve as the canonical volume of criticism by Hill the pre eminent poet critic whom A N Wilson has called probably the best writer alive in verse or in prose In his criticism Hill ranges widely investigating both poets including Jonson Dryden Hopkins Whitman Eliot and Yeats and prose writers such as Tyndale Clarendon Hobbes Burton Emerson and F H Bradley He is also steeped in the historical context political poetic and religious of the writers he studies Most importantly he brings texts and contexts into new and telling relations neither reducing texts to the circumstances of their utterance nor imagining that they can float free of them A number of the essays have already established themselves as essential reading on particular subjects such as his analysis of Vaughan s *The Night* his discussion of Gurney s poetry and his critical account of *The Oxford English Dictionary* Others confront the problems of language and the nature of value directly as in *Our Word is Our Bond* *Language Suffering and Value* and *Poetry and Value* In all his criticism Hill reveals literature to be an essential arena of civic intelligence **War's Embers** Ivor Gurney,1919 **Handbook of British Literature and Culture of the First World War** Ralf Schneider,Jane Potter,2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War *Modern English War Poetry* Tim Kendall,2006-07-20 *Modern English War Poetry* ranges widely across the twentieth century incorporating detailed discussions of some of the most important poets of the period It emphasizes the influence of war and war poetry even on those poets usually considered in other contexts such as Ted Hughes and Geoffrey Hill **The**

Poetry of Clare, Hopkins, Thomas, and Gurney Andrew Hodgson, 2019-12-31 This book attends to four poets John Clare Gerard Manley Hopkins Edward Thomas and Ivor Gurney whose poems are remarkable for their personal directness and distinctiveness It shows how their writing conveys a potentially individual quality of feeling perception and experience each poet responds with unusual commitment to the Romantic idea of art as personal expression The book looks closely at the vitality and intricacy of the poets language the personal candour of their subject matter and their sense obdurate but persuasive of their own strangeness As it traces the tact and imagination with which each of the four writers realises the possibilities of individualism in lyric it affirms the vibrancy of their contributions to nineteenth and twentieth century poetry

Gloucester: History You Can See D G Amphlett, 2015-02-02 Tracing Gloucester's history from its Roman and monastic remains to the battle scars from the English Civil War and the changes wrought by the Industrial Revolution this book explores the colourful and fascinating history of Gloucester through the remnants of a bygone age Taking a fresh look at both well known and less recognisable local buildings Gloucester History You Can See serves as a guide to some of the many statues sculptures plaques and other memorials that can be found across the city and highlights the places connected with the city's famous and in some cases infamous characters including Ivor Gurney Charles I Bishop Hooper and John Stafford Smith Richly illustrated and extensively researched this is a captivating read for locals and visitors alike

The Spectre of Defeat in Post-War British and US Literature David Owen, Cristina Pividori, 2021-01-22 It is a commonplace belief that history is written by the victorious However less recognised but equally common is the idea that the defeated also write history even if their particular account is rather different This collection looks at these matters from a novel and distinct perspective It essentially presents the idea that victors often perceive themselves as defeated by examining the ways in which the idea of defeat comes to dominate the victors own sense of superiority and achievement thereby undermining the certainties that victory is conventionally thought to create The contributions here discuss fiction mostly UK and US published since the First World War Through the frameworks of experience memory and post memory they examine this subliminal defeat basically as seen in conflict itself in the societies that it affects and in the individual lives of those who it destroys The result is an innovative literary account of the victorious yet somehow defeated

The Oxford Critical and Cultural History of Modernist Magazines Peter Brooker, Andrew Thacker, 2009-03-26 The first of three volumes charting the history of the Modernist Magazine in Britain North America and Europe this collection offers the first comprehensive study of the wide and varied range of little magazines which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland In thirty seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications We learn of the role of editors and sponsors the relation of the arts to contemporary philosophy and politics the effects of war and economic depression and of the survival in hard times of radical ideas and a

belief in innovation The chapters are arranged according to historical themes with accompanying contextual introductions and include studies of the New Age Blast the Egoist and the Criterion New Writing New Verse and Scrutiny as well as of lesser known magazines such as the Evergreen Coterie the Bermondsey Book the Mask Welsh Review the Modern Scot and the Bell To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto This collection therefore confirms the value of magazine culture to the field of modernist studies it provides a rich and hitherto under examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion
