Jeglic, Cynthia Calkins, 2016-10-24 The purpose of this edited volume is to examine the disconnect in the sexual violence prevention field between legislation research and practice The work is focused primarily on United States policies and initiatives with key case studies internationally Contributions show that current policies are mainly based on repeat offenders residence restrictions registration and notification statutes and post sentence initiatives While these initiatives address public fears they are not evidence based and do not necessarily reduce offending Research shows that post sentence policies may destabilize offenders and limit their ability to reintegrate with society at a critical period therefore increasing the chances of recidivism Furthermore the majority of sex crimes 95% are committed by first time offenders This innovative book is divided into two parts juxtaposing what is currently being done

Troubling Sex Elaine Craig, 2012-07-01 When legal scholars or judges approach the subject of sexuality they are often constrained by existing theoretical frameworks For instance queer theorists typically focus on sexual liberty but tend not to consider issues such as sexual violence Feminist theories focus on violence but often don't give recognition to the joy of sexuality To assess the possibility of devising a legal theory of sexuality that can ensure equality without assimilation diversity without exclusion and liberty without suffering Elaine Craig examines the Supreme Court of Canada's approach to sexuality in cases that range from sexual violence to discrimination based on orientation Although the Court continues to hold an essentialist understanding of sexuality that renders certain harms invisible its feminist inspired approach to sexual violence recognizes the socially constructed nature of sexuality and produces legal reasoning that promotes sexual integrity as a common interest Blending feminist theory with the inclusiveness of queer theory Craig advances an iconoclastic approach to law and sexuality that has the power to transform both theory and practice [Tackling Sexual Violence at Universities](#) Graham Towl, Tammi Walker, 2019-03-04 Sexual violence is a problem well beyond universities however universities are uniquely well placed to contribute to reducing sexual violence encouraging those affected to come forward and speak about their experiences and actively encourage increased reporting This book is unique in that it offers an international perspective on the incidence reporting and impact of sexual violence at universities Drawing on evidence from the UK North America Australia and Europe Towl and Walker explore the psychological and structural challenges to

reporting sexual violence They provide a set of policy and practice guidance recommendations that move beyond awareness campaigns to call for systems to be put in place whereby reports of sexual assault are handled promptly fairly and consistently They also discuss how universities can strengthen their approach to prevention promoting safeguarding and the welfare of victims and survivors and involving victims and survivors in the development and improvement of services However fundamental to their approach is keeping decision making with the victim and survivor and emphasising that their health and recovery is paramount Tackling Sexual Violence at Universities is an invaluable and ground breaking resource for students and researchers in forensic psychology and criminology as well as professionals working in higher education The authors are donating their royalties in full to Kirklees and Calderdale Rape Sexual Abuse Centre KCRASACC UK a small registered charity that provides specialist therapy counselling advocacy and support for survivors of sexual or domestic violence and abuse Running for nearly 30 years the centre works with young people and adults over the age of 13
