Sex Murder and Sex Aggression Eugene Revitch, Louis B. Schlesinger, 1989 **A Review of Sex Murder and Sex Aggression** NS. Kaye, 1990 Revitch and Schlesinger have set out to cover a broad topic as the title alone suggests They begin in Chapter 1 by defining gynocide as anger directed toward the mother but displaced onto another female resulting in sexual homicide in the continuum of sexual aggression They then develop the classification of catathymic and compulsive gynocide each in its own chapter Chapter 4 is devoted to psychodynamics psychopathology and differential diagnosis while Chapter 5 is entitled Prognostic Considerations *Sexual Murderers* Jean Proulx, Eric Beauregard, Maurice Cusson, Alexandre Nicole, 2007-04-30 Little is known about Sexual Murderers those who kill in a sexual context Recent studies have compared their backgrounds and characteristics with that of rapists and or violent non sexual offenders This translation of a French original by the renowned Jean Proulx challenges existing knowledge on sexual murders offers new tools for profiling and interrogation and helps to establish a new research base Current theories of sexual murder its prevalence reasons including attachment theories profiling and interrogation techniques are all addressed in Proulx's distinctive thought provoking style Routledge International Handbook of Sexual Homicide Studies Jean Proulx, Eric Beauregard, Adam Carter, Andreas Mokros, Rajan Darjee, Jonathan James, 2018-04-17 This book provides the first systematic overview of the theoretical empirical clinical and police issues related to sexual murderers and murder Bringing together leading researchers theoreticians and practitioners from across eight different countries this is a truly international collaboration and an essential reference text for students researchers and professionals interested in sexual homicide as well as an exhaustive source of guidelines for the assessment and treatment of sexual murderers This book is divided into five parts Part I Theories and research presents a detailed review of theoretical models and empirical studies of sexual homicide Part II Sexual sadism discusses theoretical empirical and clinical considerations and reviews the literature on the characteristics of sadistic sexual aggressors Part III Clinical issues discusses the assessment and management of sexual murderers at each phase of the judicial process at trial during incarceration and during follow up in the community Part IV Policing issues discusses research and practical issues related to police activities surrounding a sexual murder Topics include investigation offender and geographical profiling behavioural linkage and police interrogation of the murderers Part V New directions presents new directions for the study of sexual homicide and discusses the limits of current knowledge related to sexual murderers and their crimes Offering a broad and comprehensive approach this Handbook is an indispensable source of information on theory research clinical assessment treatment and police issues related to sexual murderers and murder

Managing Sex Offender Risk Ms Hazel Kemshall, Gill McIvor, 2004-09-15 Based on key research into assessment treatment and recidivism this book offers practical guidance on improving intervention techniques with sex offenders The contributors explore the monitoring and surveillance strategies and cognitive behavioural techniques currently in use and

give clear directions for future practice The Psychology of Love and Hate in Intimate Relationships Katherine Aumer, 2016-06-23 Social psychology has made great advancements in understanding how our romantic relationships function and to some extent dissolve. However, the social and behavioral sciences in much of western scholarship often focus exclusively on the more positive aspects of intimate relationships and less so on more controversial or unconventional aspects. The goal of this volume is to explore and illuminate some of these underrepresented aspects, such as non monogamy, female orgasm, sadism and hate that often function alongside love in intimate relationships. Ultimately, by looking at intimate relationships in this way, the volume contributes to and advocates for a more holistic and comprehensive view of intimate relationships. Throughout the volume, contributors from social, clinical and evolutionary psychology cover love and hate from a variety of, sometimes opposing, perspectives. The first section covers love and the changing landscape of intimate relationships. Its chapters review the current literature and research of understudied topics like non monogamy, female orgasm, sexual fantasies and the viewpoint of love as something other than positive. The second section explores hate and how hate can operate in intimate relationships, for example, the appearance of sadistic behavior and debates the nature of hate as either a motivation or emotion. The volume concludes by looking at ways in which the appearance of hate in relationships can be dealt with and overcome successfully. Taken together, these two sections reflect the full variety of experiences within intimate relationships. With the aim of exploring how love and hate can and frequently do work together, *The Psychology of Love and Hate in Intimate Relationships* is a fascinating psychological exploration of intimate relationships in modern times. It is an invaluable resource to academics and students specializing in psychology, gender and sociology, including clinicians and therapists, and all those interested in increasing our knowledge of intimate relationships.

The Psychology of Criminal Investigation Andy Griffiths, Rebecca Milne, 2018-05-20 The contribution of psychological research to the prevention of miscarriages of justice and the development of effective investigative techniques is now established to a point where law enforcement agencies in numerous countries either employ psychologists as part of their staff or work in cooperation with academic institutions. The application of psychology to investigation is particularly effective when academics and practitioners work together. This book brings together leading experts to discuss the application of psychology to criminal investigation. This book offers an overview of models of investigation from a psychological and practical viewpoint, covering topics such as investigative decision making, the presentation of evidence, witness testimony, the detection of deception, interviewing suspects and evidence based police training. It is essential reading for students, researchers and practitioners engaged with police practice, investigation and forensic psychology.
