Catherine Gomes, 2018-04-30 This book examines the experiences of transient migrants in the Asia Pacific and in so doing provides new ways of understanding diversity By focusing on the transient destination hubs of Australia and Singapore Catherine Gomes shifts our thinking about diversity for two disruptive reasons the increasingly large and global transient flows of people and our everyday reliance on digital media The unprecedented usage of digital media influences not only communication patterns and information seeking behaviour but has also led to the rapid evolution of the very nature of entertainment and news and directly impacted on our documenting and mapping of self e g posts of photographs opinions and links on social media timelines The book introduces readers to the concept of siloed diversity a phenomenon which occurs when people rely on a hierarchy of identities developed while in transience to make connections and disconnections with others

Mohamed Nasir,Bryan S. Turner,2014-05-09 Singapore like many other advanced economies has a relatively low and declining birth rate One consequence of this and a consequence also of the successful economy is that migrants are being drawn in and are becoming an increasing proportion of the overall population This book examines this crucial development and assesses its likely impact on Singapore society politics and the state It shows that although Singapore is a multi ethnic society migration and the changing ethnic mix are causing increasing strains putting new demands on housing education and social welfare and changing the make up of the workforce where the government is responding with policies designed to attract the right sort of talent The book discusses the growing opposition to migration and explores how the factors which have underpinned Singapore s success over recent decades including a cohesive elite with a clearly focused ideology a tightly controlled political system and strong continuity of government are at risk of being undermined by the population changes and their effects The book also compares the position in Singapore with other East Asian countries including Japan South Korea and the Philippines which are also experiencing population changes with potentially far reaching consequences
