Home Care Fault Lines Cynthia J. Cranford, 2020-06-15 In this revealing look at home care Cynthia J Cranford illustrates how elderly and disabled people and the immigrant women workers who assist them in daily activities develop meaningful relationships even when their different ages abilities races nationalities and socioeconomic backgrounds generate tension As Cranford shows workers can experience devaluation within racialized and gendered class hierarchies which shapes their pursuit of security Cranford analyzes the tensions alliances and compromises between security for workers and flexibility for elderly and disabled people and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics What comes through from Cranford s analysis is the need for deeply democratic alliances across multiple axes of inequality To support both flexible care and secure work she argues for an intimate community unionism that advocates for universal state funding designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers and addresses everyday tensions in home workplaces

Bridging Silos Katrina Smith Korfmacher, 2019-08-27 How communities can collaborate across systems and sectors to address environmental health disparities with case studies from Rochester New York Duluth Minnesota and Southern California Low income and marginalized urban communities often suffer disproportionate exposure to environmental hazards leaving residents vulnerable to associated health problems Community groups academics environmental justice advocates government agencies and others have worked to address these issues building coalitions at the local level to change the policies and systems that create environmental health inequities In Bridging Silos Katrina Smith Korfmacher examines ways that communities can collaborate across systems and sectors to address environmental health disparities with in depth studies of three efforts to address long standing environmental health issues childhood lead poisoning in Rochester New York unhealthy built environments in Duluth Minnesota and pollution related to commercial ports and international trade in Southern California All three efforts were locally initiated driven by local stakeholders and each addressed issues long known to the community by reframing an old problem in a new way These local efforts leveraged resources to impact community change by focusing on inequities in environmental health bringing diverse kinds of knowledge to bear and forging new connections among existing community

academic and government groups Korfmacher explains how the once integrated environmental and public health management systems had become separated into self contained silos and compares current efforts to bridge these separations to the development of ecosystem management in the 1990s Community groups government agencies academic institutions and private institutions each have a role to play but collaborating effectively requires stakeholders to appreciate their partners diverse incentives capacities and constraints

Unbroken Will Bernhard Rammerstorfer,2014-02 History World War I World War II Nazi Concentration Camp Survivor Holocaust BiographyThis book is a milestone in recording the horrors of National Socialism It is essential reading and I am delighted that the translation has already received such keen attention in the United States Heinz Fischer president of the Republic of AustriaThis book is not only an enthralling read every detail in it has also been thoroughly researched From a scientific point of view it is one of the most reliable biographies of a victim of National Socialism Professor Walter Manoschek political scientist University of ViennaYou have given current and future generations a priceless gift by recording Mr Engleitner s life story His experiences remind us of the strength of the human will to overcome even the most horrible and challenging circumstances Arnold Schwarzenegger governor of California WHEN LEOPOLD ENGLEITNER WAS NINE YEARS OLD an event of historical significance for the world that initiated the First World War took place in his hometown Moreover although Leopold Engleitner and his contemporary Adolf Hitler who was sixteen years his senior grew up in the same province Upper Austria and shared the same cultural background and educational system the convictions and attitudes they developed were diametrically opposed Whereas Adolf Hitler caused untold suffering to millions as a merciless mass murderer Leopold Engleitner devoted his life to peace refusing to buckle even in the face of death The ordinary farmhand found the extraordinary courage to follow his conscience He refused to serve in Hitler s army and did not even use the Nazi greeting Heil Hitler Suffering unspeakable cruelty in three concentration camps he grew so thin that he weighed less than sixty two pounds Yet nothing and no one could break his will Astoundingly he could easily have had his freedom all he had to do was sign a paper renouncing his religious convictions as one of Jehovah s Witnesses but he steadfastly refused And he never lost his optimism In the concentration camp he even bought a suitcase for the journey home it seemed impossible he

would ever make His unshakable faith in God helped Engleitner to lead a full and happy life despite constant rejection and he never lost his zest for life as he became the oldest and one of the best known male concentration camp survivors in the world His unexpected rehabilitation was achieved thanks to an extraordinary friendship Though already far advanced in years he travelled more than ninety five thousand miles across Europe and the USA between 1999 and 2012 testifying as a witness of history to ensure the past is not forgotten as such he became a model of tolerance and peace Letters written by Engleitner during his internment and believed lost for nearly sixty years were discovered and their combination with original minutes of police and court proceedings reports from the concentration camps and personal accounts of traumatic childhood incidents from one hundred years ago constitutes an impressive firsthand history CIO ,2007-08-15 Renoir Alexander Eiling,Juliane Betz,Fabienne Ruppen,Guillaume Faroult,Marine Kisiel,Michela Bassu,Astrid Reuter,Matthias Krüger,Mary G.
