 as one would wish for to this great troubled metropolis Teju Cole PEN Hemingway Award winning author of Open City

 mining shares rose over four times in price with one gaining ten times In just the first two months of 2004 26 mining shares
 increased more than 20% with five shares doubling Merrill Lynch's World Mining Trust is the UK's best performing fund over
 the past three years having risen by over 200 per cent But is the mining boom about to end Not according to this book by
 Michael Coulson Chairman of the Association of Mining Analysts Coulson argues that if anything we are still in the early
 stages of prolonged strength in mining stocks and despite what some commentators are saying the boom is far from over
 FROM THE BACK COVER The prospect of instant riches gives the mining sector an obvious glamour And when the mining
 sector begins to run it can be an awesome sight and the excitement generated can be every bit as seductive and heady as
 that which enveloped markets during the internet boom But due to the counter cyclical nature of many mining stocks they
 can also offer a valuable refuge when stock markets turn down In this book Michael Coulson gives a masterly overview of the
 sector explains both the rewards and the pitfalls of investing in mining shares and argues convincingly that mining should
 once again form a core sector for all investors The book is for anyone interested in mining and particularly mining as an
 investment Whilst it contains material which will be useful to even experienced followers of the sector its main target is those
 who are interested in mining but perhaps not particularly familiar with the sector and would like to know more All the

subjects are covered that are fundamental to acquiring sufficient knowledge about the mining sector to invest in it with confidence While the mining s *How I Lost My Mother* Leslie Swartz, 2021-03 *How I Lost My Mother* is a deeply felt account of the relationship between a mother and son and an exploration of what care for the dying means in contemporary society The book is emotionally complex funny sad and angry but above all heartfelt and honest It speaks boldly of challenges faced by all of us challenges which are often not spoken about and hidden but which deserve urgent attention This is first and foremost a work of the heart a reflection on what relationships mean and should mean There is much in the book about relationships of care and exploitation in southern Africa and about white Jewish identity in an African context But despite the specific and absorbing references to places and contexts the book offers a broader more universal view All parents of adult children and all adults who have parents alive or have lost their parents will find much in this book to make them laugh cry think and feel **KES AND TELL. Donaldson, 1949 **Digging Deep** Jade Davenport, 2013-12-18 Before the advent of the great mineral revolution in the latter half of the 19th century South Africa was a sleepy colonial backwater whose unpromising landscape was seemingly devoid of any economic potential Yet lying just beneath the dusty surface of the land lay the richest treasure trove of gold diamonds platinum coal and a host of other metals and minerals that has ever been discovered in one country It was the discovery and exploitation of first diamonds in 1870 and then gold in 1886 that proved the catalyst to the greatest mineral revolution the world has ever known which transformed South Africa into the supreme industrialised power on the African continent Here for the first time is the complete history of South Africa's phenomenal mineral revolution spanning a period of more than 150 years from its earliest commercial beginnings to the present day incorporating seven of the major commodities that have been exploited *Digging Deep* describes the establishment and unparalleled growth of mining tracing the history of the industry from its humble beginnings where copper was first mined on a commercial basis in Namaqualand in the Cape Colony in the early 1850s to the discovery and exploitation of the country's other major mineral commodities This is also the story of how mining gave rise to modern South Africa and how it compelled the country to develop and progress the way in which it did It also incorporates the stories of the visionary men Cecil Rhodes Alfred Beit Barney Barnato Sir Ernest Oppenheimer Sammy Marks and Hans Merensky who pioneered and shaped the development of the industry on which

modern South Africa was built **Paradise Lost** ,2022-06-13 Paradise Lost Race and Racism in Post apartheid South Africa is about the continuing salience of race and persistence of racism in post apartheid South Africa The chapters in the volume illustrate the multiple ways in which race and racism are manifested and propose various strategies to confront racial inequality racism and the power structure that underpins it while exploring how through a renewed commitment to a non racial society apartheid racial categories can be put under erasure at exactly the time they are being reinforced

Zimbabwes Lost Decade Lloyd Sachikonye,2012-04-24 Zimbabwe occupies a special place in African politics and international relations and has been the subject of intense debates over the years At independence in 1980 the country was better endowed than most in Africa and seemed poised for economic development and political pluralism The population was relatively well educated the industrial and agricultural bases were strong and levels of infrastructure were impressive However in less than two decades Zimbabwe was mired in a deep political and economic crisis Towards the end of its third decade of independence the economy had collapsed and the country had been transformed into a repressive state How can we make sense of this decline How can we explain the lost decade that followed Can the explanation be reduced to the authoritarian leadership of Robert Mugabe and role of ZANU PF Or was something defective about in the institutions through which the state has exercised its authority Or was it the result of imperialism the West and sanctions Zimbabwes Lost Decade draws on Lloyd Sachikonyes analyses of political developments over the past 25 years It offers a critique of leadership systems of governance and economic strategies and argues for democratic values and practices and more broad based participation in the development process **Enemy of the People** Adriaan Basson,Pieter du Toit,2017-11-07 Enemy

of the People is the first definitive account of Zuma s catastrophic misrule offering eyewitness descriptions and cogent analysis of how South Africa was brought to its knees and how a people fought back When Jacob Zuma took over the leadership of the ANC one muggy Polokwane evening in December 2007 he inherited a country where GDP was growing by more than 6% per annum a party enjoying the support of two thirds of the electorate and a unified tripartite alliance Today South Africa is caught in the grip of a patronage network the economy is floundering and the ANC is staring down the barrel of a defeat at the 2019 general elections How did we get here Zuma first brought to heel his party Africa s oldest and most revered liberation movement subduing and isolating dissidents associated with his predecessor Thabo Mbeki Then saw the emergence of the tenderpreneur and those attempting to capture the state as well as a network of family friends and business associates that has become so deeply embedded that it has in effect replaced many parts of government Zuma opened up the state to industrial scale levels of corruption causing irreparable damage to state enterprises institutions of democracy and the ANC itself But it hasn t all gone Zuma s way Former allies have peeled away A new era of activism has arisen and outspoken civil servants have stepped forward to join a cross section of civil society and a robust media As a divided ANC square off for the elective conference in December where there is everything to gain or to lose award winning

journalists Adriaan Basson and Pieter du Toit offer a brilliant and up to date account of the Zuma era
