Science humankind has been engaged in a methodical quest to understand the cosmos With the development of quantum
mechanics the notion that everything is solid matter is being replaced with the idea that information or thought may be the
true source of physical reality Such scientific inquiry has led to a growing interest in the brain s unique and mysterious
ability to create perception possibly through quantum interactions Consciousness is now being considered as much a
fundamental part of reality as the three dimensions we are so familiar with Although this direction in scientific thought is
seen as a new approach the secret wisdom of the ancients presented just such a view thousands of years ago Building on Ren
A Schwaller de Lubicz s systematic study of Luxor s Temple of Amun Mut Khonsu during the 1940s and 50s Edward
Malkowski shows that the ancient Egyptians worldview was not based on superstition or the invention of myth but was the
result of direct observation using critical faculties attuned to the quantum manifestation of the universe This understanding
of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients precisely the
