Magritte, Ideas and Images René Magritte, Harry Torczyner, 1977 **René Magritte** René Magritte, Harry Torczyner, 1979 *Magritte* Harry Torczyner, 1977 **The Cambridge Companion to Edgar Allan Poe** Kevin J. Hayes, 2002-04-25 This collection of specially commissioned essays by experts in the field explores key dimensions of Edgar Allan Poe's work and life Contributions provide a series of alternative perspectives on one of the most enigmatic and controversial American writers The essays specially tailored to the needs of undergraduates examine all of Poe's major writings his poetry short stories and criticism and place his work in a variety of literary cultural and political contexts They situate his imaginative writings in relation to different modes of writing humor Gothicism anti slavery tracts science fiction the detective story and sentimental fiction Three chapters examine specific works The Narrative of Arthur Gordon Pym The Fall of the House of Usher The Raven and Ulalume The volume features a detailed chronology and a comprehensive guide to further reading and will be of interest to students and scholars alike *Picture Titles* Ruth Bernard Yeazell, 2015-09-29 How the practice of titling paintings has shaped their reception throughout modern history A picture's title is often our first guide to understanding the image Yet paintings didn't always have titles and many canvases acquired their names from curators dealers and printmakers not the artists Taking an original historical look at how Western paintings were named *Picture Titles* shows how the practice developed in response to the conditions of the modern art world and how titles have shaped the reception of artwork from the time of Bruegel and Rembrandt to the present Ruth Bernard Yeazell begins the story with the decline of patronage and the rise of the art market in the seventeenth and eighteenth centuries as the increasing circulation of pictures and the democratization of the viewing public generated the need for a shorthand by which to identify works at a far remove from their creation The spread of literacy both encouraged the practice of titling pictures and aroused new anxieties about relations between word and image including fears that reading was taking the place of looking Yeazell demonstrates that most titles composed before the nineteenth century were the work of middlemen and even today many artists rely on others to name their pictures A painter who wants a title to stick Yeazell argues must engage in an act of aggressive authorship She investigates prominent cases such as David's Oath of the Horatii and works by Turner Courbet Whistler Magritte and Jasper Johns Examining Western painting from the Renaissance to the present day *Picture Titles* sheds new light on the ways that we interpret and appreciate visual art **The Architecture of Full-Scale Mock-Ups** Nick Gelpi, 2020-02-26 *The Architecture of Full Scale Mock Ups* looks at the theory and contemporary practice of creating full scale architectural mock ups This book serves as an introduction to the various forms of full scale mock ups which occur today To broaden the definition of mock ups Nick Gelpi dives deep into the use of mock ups in seven high profile and global contemporary case studies Instead of the presentation drawings and final building photos the documentation of case studies relies on process photos interviews and moments of tension in the execution of each building With never before published

content case studies include buildings from all over the world including the Quincho Tia Coral and Teleton Building Copper House II the Perez Art Museum Miami the Cit de l'Occident du Surf Museum and more Investigating unique case studies to answer how and when full scale mock ups occur today this book is ideal for professionals and students of architecture studying materials and representation design build and professional practice Coming Out of War Janis P.
