Main Economic Policy Areas Of The Eec:

Main Economic Policy Areas of the EEC — Towards 1992 P. Coffey, 2013-12-01 At the end of 1992 things will never again be the same inside the European Economic Community EEC because as that year draws to a close the aims of the Single Act of European Union SAEU which became law in July this year will have become effective thus creating a real Common Market This will mean that there will no longer be any obstacles to the free movement of goods between the Member States Equally and for the first time in the EEC's history internal capital movements will be absolutely free there will no longer be any exchange controls and it will be possible to freely establish financial services between EEC countries Likewise as currently being proposed by Lord Cockfield wide variations in the levels of value added tax VAT between Member States will not be allowed Also in the case of the Common Agricultural Policy CAP it will no longer be possible nor even necessary to have the monetary compensatory amounts MCA's All these changes but especially the increased freedom in capital movements will have profound consequences for the different regions of the Community and it will be desirable to have a much more dynamic Regional Policy before 1993 Last but by no means least a greater number of decisions inside the Community will be made by majority voting and the Parliament will be endowed with enhanced powers

Main Economic Policy Areas of the EEC P. Coffey, 2013-11-27 by Peter Coffey This is indeed a most opportune time for the publication of a serious critical and independent study about the Main Economic Policy Areas of the EEC The European Economic Community is the world's most important commercial and trading bloc and its economic policies consequently have the most far reaching implications for all countries in the world The rest of the world is acutely conscious of the Community's trading policies In turn these policies apart from those based on historical links antecedent to the EEC's formation are strongly influenced by the internal economic policies of the Common Market especially by the Common Agricultural Policy CAP At the present time the Community finds itself both internally and externally at a crossroads This crossroads takes the form of a choice between protectionism or openness Unfortunately present evidence suggests that currently and in the immediately foreseeable future the former option has been chosen by the EEC

Main Economic Policy Areas of the EEC — Toward 1992 P. Coffey, 2012-12-06 PETER COFFEY Since the appearance of the second edition of this work which was so quickly out of print so much has happened in Europe In the EEC itself 1989 was a watershed year concerning the Community's moves towards the creation of the Single European Market SEM by the end of 1992 Early in the year the appearance of the Delors Report on Economic and Monetary Union in the European Community was followed by an agreement at the European Summit in June to begin the first stage of this union in the Summer of 1990 As a counterpart to this and other agreements seen by trade unions and similar groups as an agreement New composition of the ECU as on 21st September 1989 Deutsche Mark DEM 30 10% French Franc FRF 19 00% Pound Sterling GBP 13 00% Italian Lira ITL 10 15% Dutch Guilder NLG 9 40% 7 90% Belgian Franc BFR 2 45% Danish Kronor DKK 1 10% Irish Pund IEP 0 80% Greek Drachma GRD 5 30% Spanish
