Maine's Place in the Environmental Imagination Michael D. Burke, 2020-12-15 The essays in *Maine's Place in the Environmental Imagination* address from a variety of perspectives how Maine's unique identity among the states of the United States has been formed and what that identity is. A place that is still imagined by others primarily through its environmental associations its nature and landscape rather than through its social arrangements and human history. The collection attempts a foundational study not of a regional literature but of a state literature. In doing so it makes the case that Maine was constructed imaginatively and environmentally through its literature and that this image is the one that endures even now. The essays suggest how this identity was formed by discussing writings ranging from the recently recovered work of Joseph Nicolar a member of the Penobscot Nation in the late 19th century to the contemporary Maine author Carolyn Chute from Thoreau's canonical essay *Ktaadn* to the modernist E. B. White whose works have an underappreciated environmental project. Contributors include scholars Nathaniel Lewis Annette Kolodny Linda Kornasky Daniel Malachuk Kent Ryden and Lynn Wake. **North Woods at Night: Literary Reflections on Maine's Largest Forest** Steven Long, Ret Talbot, 2024-12-01 *North Woods at Night* is a rich anthology of 38 Maine writers reflecting on the magic and mystery of the state's largest forest. Through poems stories and essays this collection brings to life nighttime camping adventures encounters with creatures and the peace found in nature. Whether it's humorous anecdotes of outhouse trips or soul searching moments beneath the stars the anthology captures the transformative power of Maine's wild. Proceeds from sales will benefit the Forest Society of Maine supporting their efforts to conserve Maine's forest heritage. **Tide Tables, High and Low Water Predictions** United States. National Ocean Service, 1983 **Maine's Golden Road** John Gould, 1995 *Maine's Golden Road* is a memoir of the annual vacation John Gould took for thirty two consecutive summers with his daughter's father in law Bill Dornbusch. *U.S. Geological Survey Bulletin*, 1983 **Tide Tables, East Coast, North and South America, Including Greenland** U.S. Coast and Geodetic Survey, 1958 **Bulletin of the United States Bureau of Fisheries** United States.
