Mediterranean Studies Vol 11:

When Greeks think about Turks Dimitrios Theodossopoulos, 2013-09-13 Drawing upon anthropological studies that document culturally specific ways of perceiving ethnic Others in Greece and Cyprus this book explores the cultural boundaries of the categories Greek and Turk and compares views on what it means to be one of these ethnic groups or both The contributors examine the opinions of diverse social groups such as ordinary middle class citizens intellectuals army officers children villagers refugees from Asia Minor and Greek and Turkish Cypriots They also investigate the local attitudes to international politics and highlight the contextual as opposed to immutable and essentialist meaning of evaluations about nations such as Greece Turkey and Cyprus and their citizens When Greeks think about Turks carefully unpacks the cultural meaning of popular metaphors stereotypes and versions of history as these are articulated in the context of discussions about the Turks in Greece It sets the template for understanding how local perceptions of resemblance and difference provide a conceptual framework for defining and negotiating ethnic identity at the local national and international level It sheds valuable light on the politics of identity making and the constitution of nationalism in Greece and Cyprus This book was previously published as a special issue of South European Society and Politics New Trends in Turkish Foreign Affairs

Salomon Ruysdael, 2002 With the present book we intend to give an account of Turkish foreign policy written by Turkish scientists and decision makers Up to now countless treatises on the foreign policy of the Republic of Turkey have been published within the Anglo American language area The specialized literature is particularly extensive in the domain of Turkish European policy as well as on the Europeans foreign policy towards Turkey and on security and defense policy We are primarily interested in the self perception of Turkish decision makers and advisors who as the scientific and bureaucratic elite have a significant influence on the conception of Turkish foreign policy We are interested in the elites priorities in shaping the country s foreign policy We hope that readers will be able to read the ideas hopes and fears between the lines of the contributions in order to form ideas for themselves We also intend to bring the Turkish perspective to sectors outside the university Moreover we intend to draw an outline of scientific literature by means of which readers may immerse themselves in the subject **Annual Report** Woods Hole Oceanographic Institution, 1966 **The Organization of the Pyramid**

Texts (2 vol. set) Harold M. Hays, 2012-06-08 The ancient Egyptian Pyramid Texts form the oldest body of religious texts in the world This book weds traditional philology to linguistic anthropology to associate them with two spheres of ritual action mortuary cult and personal preparation for the afterlife Soil Erosion Danilo Godone, Silvia Stanchi, 2011-11-21 Soil erosion affects a large part of the Earth surface and accelerated soil erosion is recognized as one of the main soil threats compromising soil productive and protective functions The land management in areas affected by soil erosion is a relevant issue for landscape and ecosystems preservation In this book we collected a series of papers on erosion not focusing on agronomic implications but on a variety of other relevant aspects of the erosion phenomena The book is divided into three

sections i various implications of land management in arid and semiarid ecosystems ii erosion modeling and experimental studies iii other applications e g geoscience engineering The book covers a wide range of erosion related themes from a variety of points of view assessment modeling mitigation best practices etc **Women and Bullfighting** Sarah

Pink,2020-07-12 This book investigates the popularity and success of contemporary women performers in bullfighting culture which has been framed by a discourse of traditionalist masculinity This examination of the changing situation of women in the bullfighting world is used to explore the ways in which gender is represented enacted and negotiated in contemporary Spain The bullfight in the 1990s is in an ambiguous position it is a traditional performance in a changing consumer society In order to survive it needs to adapt itself to a wider social context and in particular to international media coverage It is in this context that the current success of women performers is located However women performers are a contested phenomenon in the bullfighting world there is heated debate over their acceptability much of which focuses on the body Moreover the entry of women into the bullfight questions existing definitions of the sport s ritual structure and of gender relations in Spain Thoroughly researched and compelling to read Women and Bullfighting addresses these issues and argues that existing traditionalist approaches to gender bullfighting and ritual in Spain need to be revised in order to locate women bullfighters in the context of a richly varied culture which is increasingly affected by the media and contemporary patterns of consumption This provocative book will be of interest to researchers and students of anthropology gender studies sociology cultural studies media studies and Spanish studies **The Cruise of the Celtic Around the Mediterranean, 1902** R. McCready,H. M. Tyndall,1902 *Humanitarian Action and Ethics* Ayesha Ahmad,James Smith,2018-06-15 From natural disaster areas to conflict zones humanitarian workers today find themselves operating in diverse and difficult environments While humanitarian work has always presented unique ethical challenges such efforts are now further complicated by the impact of globalization the escalating refugee crisis and mounting criticisms of established humanitarian practice Featuring contributions from humanitarian practitioners health professionals and social and political scientists this book explores the question of ethics in modern humanitarian work drawing on the lived experience of humanitarian workers themselves Its essential case studies cover humanitarian work in countries ranging from Haiti and South Sudan to Syria and Iraq and address issues such as gender based violence migration and the growing phenomenon of volunteer tourism Together these contributions offer new perspectives on humanitarian ethics as well as insight into how such ethical considerations might inform more effective approaches to humanitarian work Crisis and Conciliation James Ker-Lindsay,2007-10-24 When Abdullah Ocalan leader of the Kurdistan Workers Party PKK was arrested in February 1999 it marked a turning point in relations between Greece and Turkey As the country s most wanted man his arrest was greeted with jubilation throughout most of Turkey However it also led to a public outcry when it emerged that he had been captured leaving the Greek Embassy in Nairobi Kenya This was seen as definitive proof that the Greek Government had been aiding and abetting the PKK In the

days and weeks that followed the arrest relations between the Aegean neighbours sank to their lowest level since the summer of 1974 when Athens and Ankara had come to the brink of war over Cyprus However by the end of the year the picture could not have been more different An improbable series of events that included a regional conflict two major disasters and the death of a senior Greek politician had led to a complete transformation in the relations between the two countries The crowning moment of this change came in December when Greece dropped its long standing opposition to Turkish candidacy for EU membership How did this remarkable change come about Who should take the credit And what did it mean for diplomatic relations in the Eastern Mediterranean This is the story of how two countries started down a path to peace after decades of tension and hostility and how over the course of one monumental year relations between Greece and Turkey went from the brink of conflict to an unprecedented affirmation of friendship and solidarity

Preserving Dance Across Time and Space Lynn Brooks,Joellen Meglin,2016-05-06 Dance is the art least susceptible to preservation since its embodied kinaesthetic nature has proven difficult to capture in notation and even in still or moving images However frameworks have been established and guidance made available for keeping dances performances and choreographers legacies alive so that the dancers of today and tomorrow can experience and learn from the dances and dancers of the past In this volume a range of voices address the issue of dance preservation through memory artistic choice interpretation imagery and notation as well as looking at relevant archives legal structures documentation and artefacts The intertwining of dance preservation and creativity is a core theme discussed throughout this text pointing to the essential continuity of dance history and dance innovation The demands of preservation stretch across time geographies institutions and interpersonal connections and this book focuses on the fascinating web that supports the fragile yet urgent effort to sustain our dancing heritage The articles in this book were originally published in the journal *Dance Chronicle* Studies in Dance and the Related Arts

Regional Economic Development and Policy David Pinder,2017-09-05 Originally published in 1983 when Europe s economies were facing the worst recession since the 1930s this book reviews the outcome of a quarter of a century of research and practical experience in the field of regional economic management In the spatial context of the European Community the author explores central issues by integrating the results of his own research with those of economists geographers economic historians and psychologists It provides a wide survey of the subject demonstrates the complexity of the spatial economic systems which the regional economic planner seeks to modify analyses the strategies for regional development employed by national and international agencies and offers a substantial annotated bibliography Contradictions arising from the contrasting spatial perspectives of national governments and the European Commission are emphasised Among other things it concludes that many regional problems strongly reflect perception and behavioural factors as well as purely economic constraints

General Technical Report PSW. ,1982 *Democracy in Southern Europe* Isabelle Calleja Ragonesi,2019-02-28 How

have Malta and Cyprus both EU members transitioned from colonial island states to independent democracies With the assistance of primary documentation this book traces the difficult path of these two states to becoming independent liberal democracies by using the pathway of democratization through decolonization Using socio economic and political data analysed through the microscope of political science and international relations theories Isabelle Calleja Ragonesi charts the progress of the two islands in the context of a number of four distinct phases Firstly decolonization independence and achieving the status of procedural democracies secondly post colonial independence consolidating democracy and regime breakdown thirdly sovereign nation state status and second attempts at consolidating democracy and finally attempting to reach substantive democracy status and EU membership The study of these two states is contextualized within the context of democratization in Southern Europe and the cases of Malta and Cyprus provide new insights on the region for scholars of political science and international institutions

Turkish-Greek Relations Mustafa Aydin,Kostas Ifantis,2004-06-01 The discord between Turkey and Greece has grown deeper and wider over time over a series of seemingly vital issues which have at times brought the two countries to the brink of war Yet in 1999 the two countries opened a dialogue on non sensitive issues such as trade the environment and tourism The causes of the current rapprochement progress are explored in this book in relation both to the international environment which is increasingly conducive to this progress and the significant domestic changes that both Greece and Turkey have experienced since the end of the Cold War This book confronts each of these important dimensions by addressing issues of continuity and change in Greek Turkish relations

Routledge Handbook of Forest Ecology Kelvin S.-H. Peh,Richard T. Corlett,Yves Bergeron,2024-10-07 The Routledge Handbook of Forest Ecology is an essential resource covering all aspects of forest ecology from a global perspective This new edition has been fully revised and updated throughout to reflect the profound and unprecedented changes in both forests and climates since the publication of the first edition in 2015 The handbook reflects key developments in the field of forest dynamics and large scale processes as well as the changes that are now manifesting in different types of forests across the globe as a result of climate change It covers both natural and managed forests from boreal temperate sub tropical and tropical regions of the world In this second edition the breadth of the handbook has been expanded with new chapters on mountain forests monodominance pathogens and invertebrate pests and amphibians and reptiles in forest ecosystems Original author teams are complemented by the addition of new authors to offer fresh perspectives and the second edition places greater emphasis on the applicability of each topic at a global level The handbook is divided into seven parts Part I The forest Part II Forest dynamics Part III Forest flora and fauna Part IV Energy and nutrients Part V Forest conservation and management Part VI Forest and climate change Part VII Human ecology The Routledge Handbook of Forest Ecology is an essential reference text for a wide range of students and scholars of ecology environmental science forestry geography and natural resource management

Knowledge, Differences and Identity in the Time of Globalization James Kusch,2011-05-25 The

discourse of globalization that pertains to higher education reform is troubling The first troubling thing about much of the discourse that concerns globalization is that it most often does not name a human subject We propose that globalization discourse should be written for and directed towards human beings or students The second troubling thing about the discourse of globalization is the way that it antagonizes and marginalizes who that missing subject might be The two relationships form the themes of this book The nature and logic of discourse about globalization expresses a social rationality that serves as a precondition to constructing relevant meanings The way that we conceive or obscure the subject produces a condition or position where those whom are the subject of the discourse must indeed await its effects who is the pertinent policy about Or for whom is policy intended Much policy discourse holds consequences for the way in which outcomes of policies are understood or explained in the social milieu where policies are enacted The same discourse constructs and deconstructs identities and as we will see the language of reform in fact antagonizes and marginalizes students by virtue of a particular vagueness in the discourse and symbols of the discourse What is at issue in the discourse of globalization is the character and logic of collective identities How then to relate students to the cluster of features that comprise globalization

Ethnicity and Elections in Turkey Gul Akdag,2014-09-15 Ethnicity and Elections in Turkey attempts to understand the mobilization strategies of incumbent parties to consolidate and increase their support among swing voters of an ethnic group By analyzing the strategy of AKP on voters of Kurdish origin it investigates the conditions under which it can mobilize them through the clientelistic network and its effectiveness in increasing support for the party This investigation is conducted through a district and neighborhood level case study conducted in the districts of Beyo lu Sancaktepe and Beykoz situated in Istanbul The main hypotheses are tested through five different steps Firstly an examination of electoral results identifies a large number of voters of Kurdish origin as ideologically close to pro Islamist and pro Kurdish parties Secondly the book identifies the main organs responsible of mobilizing voters and defines the nature of the clientelistic network Thirdly the study suggests that the incorporation of these voters into the party s clientelistic network is a function of the number and time of entry of activists of Kurdish origin in the party s ranks and the intensity of their contacts with the voters

Fourthly it reveals the effectiveness of clientelistic mobilization in consolidating and increasing support among swing voters of Kurdish origin Lastly the inner party organization and critical juncture experienced by the party are argued to be influential in its ability to increase its network through the incorporation of new activists Providing an alternative explanation of AKP s electoral success in Turkey this book is essential reading for students and scholars with an interest in Middle East politics political parties and political science
