Jews in the Early Modern English Imagination Eva Johanna Holmberg, 2016-05-06 Based on travel writings religious history and popular literature Jews in the Early Modern English Imagination explores the encounter between English travellers and the Jews While literary and religious traditions created an image of Jews as untrustworthy even sinister travellers came to know them in their many and diverse communities with rich traditions and intriguing life styles The Jew of the imagination encountered the Jew of town and village in southern Europe North Africa and the Levant Coming from an England riven by religious disputes and often by political unrest travellers brought their own questions about identity national character religious belief and the quality of human relations to their encounter with the scattered nation

The End of Byzantium Jonathan Harris, 2011-01-25 By 1400 the once mighty Byzantine Empire stood on the verge of destruction Most of its territories had been lost to the Ottoman Turks and Constantinople was under close blockade Against all odds Byzantium lingered on for another fifty years until 1453 when the Ottomans dramatically toppled the capital s walls During this bleak and uncertain time ordinary Byzantines faced difficult decisions to protect their livelihoods and families against the death throes of their homeland In this evocative and moving book Jonathan Harris explores individual stories of diplomatic maneuverings covert defiance and sheer luck against a backdrop of major historical currents and offers a new perspective on the real reasons behind the fall of this extraordinarily fascinating empire

After Expulsion Jonathan S Ray, 2023-11-21 A groundbreaking portrait of the migration and resettlement of Spain s Jewish community after 1492 and how the Sephardic identity emerged American Historical Review Honorable Mention Jordan Schnitzer Book Award in Medieval and Early Modern Jewish History presented by the Association for Jewish Studies On August 3 1492 the same day that Columbus set sail from Spain the long and glorious history of that nation s Jewish community officially came to a close The expulsion of Europe s last major Jewish community ended more than a thousand years of unparalleled prosperity cultural vitality and intellectual productivity Yet the crisis of 1492 also gave rise to a dynamic and resilient diaspora society spanning East and West After Expulsion traces the various paths of migration and resettlement of Sephardic Jews and Conversos over the course of the tumultuous sixteenth century Pivotaly the volume argues that the exiles did not become Sephardic Jews

overnight Only in the second and third generation did these disparate groups coalesce and adopt a Sephardic Jewish identity This is a new and fascinating portrait of Jewish society in transition from the medieval to the early modern period a portrait that challenges many longstanding assumptions about the differences between Europe and the Middle East A rich and compelling history With its intense focus on one century Ray s book makes a distant time and trauma painfully vivid and immediate to the reader Jewish Currents Magazine [New Testament History and Literature](#) Dale B. Martin,2012-04-24 In this engaging introduction to the New Testament Professor Dale B Martin presents a historical study of the origins of Christianity by analyzing the literature of the earliest Christian movements Focusing mainly on the New Testament he also considers nonbiblical Christian writings of the era Martin begins by making a powerful case for the study of the New Testament He next sets the Greco Roman world in historical context and explains the place of Judaism within it In the discussion of each New Testament book that follows the author addresses theological themes then emphasizes the significance of the writings as ancient literature and as sources for historical study Throughout the volume Martin introduces various early Christian groups and highlights the surprising variations among their versions of Christianity **The Place of the Social Margins, 1350-1750** Andrew Spicer,Jane L. Stevens Crawshaw,2016-08-12 This interdisciplinary volume illuminates the shadowy history of the disadvantaged sick and those who did not conform to the accepted norms of society It explores how marginal identity was formed perceived and represented in Britain and Europe during the medieval and early modern periods It illustrates that the identities of marginal groups were shaped by their place within primarily urban communities both in terms of their socio economic status and the spaces in which they lived and worked Some of these groups such as executioners prostitutes pedlars and slaves performed a significant social and economic function but on the basis of this were stigmatized by other townspeople Language was used to control and limit the activities of others within society such as single women and foreigners as well as the victims of sexual crimes For many such as lepers and the disabled marginal status could be ambiguous cyclical or short lived and affected by key religious political and economic events Traditional histories have often considered these groups in isolation Based on new research a series of case studies from Britain and across Europe illustrate and provide important insights into the problems faced by these marginal groups and the ways in which medieval and early modern communities were shaped and developed [The Oxford Handbook of Early Modern European History, 1350-1750](#) Hamish Scott,2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive

survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam *The Migrant and her Trafficker* Ruth Ennis, 2025-06-16 By the end of the nineteenth century terms like white slavery la traite des blanches and M dchenhandel had become linguistic equivalents to describe the coerced transnational migration of women and their subsequent sale of sex This book explores the historical roots of this Eurocentric conceptualization which since its development has fed into contemporary twenty first century understandings of human trafficking especially in women and children In unpacking these origins the books explores how populist narratives became entangled with state and organisational practices of categorising subalterns on the move Contributing to the historiography white slavery is shown to have been not only a component of a shifting legal dogma on mobility control and international police cooperation but also a political concern of women s rights and moral reformist movements Contrary to the sensationalized claims of the times white slavery was not a phenomenon reflecting such exaggerations but rather was part of the historical development of state mechanisms to define the voluntary and coerced migration based on race and gender based desirability *Logistics of Warfare in the Age of the Crusades* John H. Pryor, 2016-12-05 How were the Crusades made possible There have been studies of ancient medieval and early modern warfare as well as work on the finances and planning of Crusades but this volume is the first specifically to address the logistics of Crusading Building on previous work it brings together experts from the fields of medieval Western Byzantine and Middle Eastern studies to examine how the marches and voyages were actually made Questions of manpower types and means of transportation by land and sea supplies financial resources roads and natural land routes sea lanes and natural sailing routes all these topics and more are covered here Of particular importance is the attention given to the horses and other animals on which transport of supplies and the movement of armies depended **Shrines in a Fluid Space: The Shaping of New Holy Sites in the Ionian Islands, the Peloponnese and Crete under Venetian Rule (14th-16th Centuries)** Argyri Dermitzaki, 2021-12-28 The open access publication of this book has been published with the support of the Swiss National Science Foundation In Shrines in a Fluid Space The Shaping of New Holy Sites in the Ionian Islands the Peloponnese and Crete under Venetian Rule 14th 16th Centuries Argyri Dermitzaki reconstructs the devotional experiences within the Greek realm of the Venetian Stato da Mar of Western European pilgrims sailing to Jerusalem The author traces the evolution of the various forms of cultic sites and the perception of them as nodes of a wider network of the pilgrims holy topography She scrutinises travelogues in conjunction with archaeological visual and historical evidence and offers a study of the cultic phenomena and sites invested with exceptional meaning at the main ports of call of the pilgrims galleys in the

Venetian Terraferma in the Renaissance when the Venetian mainland state was being created Working with an extensive variety of descriptions the book demonstrates that no one narrative of Venice prevailed in the early modern European imagination and that authors continuously adapted geographical descriptions to changing political circumstances This in turn illustrates the importance of studying geographical representation and early modern state formation together Moreover it challenges the long standing concept of the myth of Venice by showing that Renaissance observers never saw the city of Venice and the Venetian Terraferma in a monolithic way
