Medusa - Through the eyes of the Gorgon Skevi Philippou, 2013-07-05 Mythology retold Medusa s vicious claws ready to strike Perseus as he swoops his curved sword towards her neck Her glowing green eyes clearly see her pivotal moments on this earth a beautiful baby taken in by a mortal family who loved her so an innocent childhood and the peaceful days of priestess training But the rage and regret of a thousand murders will never leave her soul as she places the blame directly on Poseidon s lustful attack on her innocence and on Athena s sordid punishment immortality as a hideous Gorgon Medusa knows that her death will be a rebirth and Perseus is merely the pawn a calculated risk towards a greater existence

Bear, 2023-08-08 A vivid and moving reimagining of the myth of Medusa and the sisters who loved her A gorgeously crafted retelling of Greek mythology *Medusa s Sisters* is a celebration of the many faces love can wear BookPage starred review Perfect for fans of *Circe* this is easily one of the best books I ve read this year Prepare to be enthralled Stephanie Marie Thornton USA Today bestselling author of *Her Lost Words* A BookPage Best Book of 2023 Science Fiction Fantasy and Horror The end of the story is only the beginning Even before they were transformed into Gorgons Medusa Stheno and Euryale were unique among their immortal family Curious about mortals and their lives Medusa and her sisters entered the human world in search of a place to belong yet quickly found themselves at the perilous center of a dangerous Olympian rivalry and learned too late that a god s love is a violent one Forgotten by history and diminished by poets the other two Gorgons have never been more than horrifying hags damned and doomed But they were sisters first and their journey from lowly sea born origins to the outskirts of the pantheon is a journey that rests hidden underneath their scales Monsters but not monstrous Stheno and Euryale will step into the light for the first time to tell the

story of how all three sisters lived and were changed by each other as they struggle against the inherent conflict between sisterhood and individuality myth and truth vengeance and peace *Medusas Child-18DP* St. Martins Mass Mark Staff,1997-11-01 The Medusa Reader Marjorie Garber,Nancy J. Vickers,2013-10-11 Fascinating and terrifying the Medusa story has long been a powerful signifier in culture with poets feminists anthropologists psychoanalysts political theorists artists writers and others Bringing together the essential passages and commentary about Medusa The Medusa Reader traces her through the ages from classical times through the Renaissance to the pop culture art and fashion of today This collection with a critical introduction and striking illustrations is the first major anthology of primary material and critical commentary on this most provocative and enigmatic of figures *Germaine de Staël, George Sand, and the Victorian Woman Artist* Linda M. Lewis,2003 By examining literary portraits of the woman as artist Linda M Lewis traces the matrilineal inheritance of four Victorian novelists and poets George Eliot Elizabeth Barrett Browning Geraldine Jewsbury and Mrs Humphry Ward She argues that while the male Romantic artist saw himself as god and hero the woman of genius lacked a guiding myth until Germaine de Stael and George Sand created one The protagonists of Stael s Corinne and Sand s Consuelo combine attributes of the goddess Athena the Virgin Mary Virgil s Sibyl and Dante s Beatrice Lewis illustrates how the resulting Corinne Consuelo effect is exhibited in scores of English artist as heroine narratives particularly in the works of these four prominent writers who most consciously and elaborately allude to the French literary matriarchs Exploring a connection between French and English literature and providing fresh insight Germaine de Stael George Sand and the Victorian Woman Artist makes a major contribution to our understanding of nineteenth century feminism Jacket *Women's Intuition* Paula M. Adamo,Margaret Rustin,2018-04-24 Observing young children at play is an everyday and often fascinating and pleasurable experience for many of us It also has a great pedigree in the development of

psychoanalysis from Freud's observation of his grandson's game with the cotton reel onwards. This book describes the practice of observing young children in home and nursery settings in a systematic and non-intrusive way in order to expand our understanding of their emotional, cognitive and social development. It uses a psychoanalytic lens to enrich the meaning of what is seen. How do minds and personalities take shape? How can we train people to see what is most relevant in helping children to develop? The chapters range from classic papers by famous practitioners of an older generation to observations completed in recent years in the UK, Europe and the US. Observation of this sort has also spread to Latin America, India, Australia, Africa and the Far East. The differences and continuities with Infant Observation are the starting point. **Child's Magazine**, 1816. The Medusa Proposition Cindy Dees, 2023-03-12. She's a journalist by day, a Medusa by night. He despises journalists but has great respect for women special operators. It's love and hate at first sight for these two when a body washes up on a beach and throws them together in a deadly confrontation with an assassin out to kill them both. As their worlds collide and killers close in on them, can they contain the incendiary attraction threatening to consume them both? Cindy Dees is the New York Times and USA Today bestselling author of over 100 novels and creator/executive producer of an upcoming thriller television series. She draws upon her experience as a U.S. Air Force pilot to create taut suspense and love on the edge of danger. Lovers of Dees' high-stakes, fast-paced action will find exponentially increasing tension in each scene and pulse-pounding adventure that will keep readers enthralled.
