Megaliths, Myths and Men Peter Lancaster Brown, 2000-01-01 Fascinating study of early astronomical knowledge through the interpretation of such ancient monuments as Stonehenge Carnac other megalithic sites Over 140 photos maps illustrations Fascinating Publishers Weekly **Megaliths, Myths and Men** Peter Lancaster Brown, 2013-01-23 Fascinating study of early astronomical knowledge through the interpretation of such ancient monuments as Stonehenge Carnac other megalithic sites Over 140 photos maps illustrations Fascinating Publishers Weekly **Myths of the Norsemen** H. A. Guerber, 2012-06-07 Reliable versions of age old Germanic and Scandinavian myths that have helped shape Western culture Creation of world deeds of gods and heroes such as Odin and Thor machinations of Loki more *The Myths of Greece and Rome* H. A. Guerber, 2012-04-27 A classic of mythology generously illustrated long prized for its accurate retelling of the principal myths of Greece and Rome and for its commentary on their origins and significance **Myths and Legends of the Australian Aborigines** W. Ramsay Smith, 2003-01-01 For many of their campfire tales the aboriginal people of Australia looked to the skies where they found a twinkling text of morals and stories within their own version of the zodiac Today the starry birds fishes and dancing men that provided a backdrop to life Down Under for thousands of years have found a new popularity beyond Australia With this colorful compilation of oral traditions readers can savor the tales as they were told by their aboriginal narrators Footnotes throughout the text clarify occasional obscurities providing background on aboriginal life and customs as the need for explanation arises For the most part however the author allows the myths to speak for themselves without any attempt to support or disprove anthropological theories The myths range in nature and tone from reverent recountings of the origins of the world and human life to legends about the roots of religious and social customs to fanciful and humorous animal fables Unabridged republication of *Myths and Legends of the Australian Aborigines* Ballantyne Press Spottiswoode Ballantyne Co Ltd London n d ca 1930 Index 63 black and white illustrations *Exploring Archaeoastronomy* Liz Henty, 2022-03-24 Archaeoastronomy and archaeology are two distinct fields of study which examine the cultural aspect of societies but from different perspectives Archaeoastronomy seeks to discover how the impact of the skyscape is materialized in culture by alignments to celestial events or sky based symbolism yet by contrast archaeology s approach examines all aspects of culture but rarely considers the sky Despite this omission archaeology is the dominant discipline while archaeoastronomy is relegated to the sidelines The reasons for archaeoastronomy s marginalized status may be found by assessing its history For such an exploration to be useful archaeoastronomy cannot just be investigated in a vacuum but must be contextualized by exploring other contemporaneous developments particularly in archaeology On the periphery of both there are various strands of esoteric thought and pseudoscientific theories which paint an alternative view of monumental remains and these also play a part in the background The discipline of archaeology has had an unbroken lineage from the late 19th century to the present On the other hand archaeoastronomy has not been consistently titled

having adopted various different names such as alignment studies orientation theory astro archaeology megalithic science archaeotopography archaeoastronomy and cultural astronomy names which depict variants of its methods and theory sometimes in tandem with those of archaeology and sometimes in opposition Similarly its academic status has always been unclear so to bring it closer to archaeology there was a proposal in 2015 to integrate archaeoastronomy research with that of archaeology and call it skyscape archaeology This volume will examine how all these different variants came about and consider archaeoastronomy's often troubled relationship with archaeology and its appropriation by esotericism to shed light on its position today

The Cat in Magic and Myth M. Oldfield Howey, 2003-01-01 The cat has symbolized a host of concepts good and evil light and darkness religion and black magic This intriguing book traces the history of these fascinating creatures from vampire and clairvoyant cats to cats in heraldry as sacrificial objects and idols of secret sects Includes 50 black and white illustrations

Hermeneutics of Megaliths Costas Maritsas, 2015-09-10 Hermeneutics of Megaliths offers provocative and unique insights into the cultural interpretation of megaliths While megalithic culture has been the subject of detailed study for a number of years this book introduces a new cultural mode of interpretation that will help in gaining a greater understanding of this extremely important epoch of human history As this volume shows the necessity behind the creation of megaliths is a result of the transition from natural selection to civilization It also emphasizes the original purpose of megalithic constructions such as dolmens menhirs cromlechs and effigy mounds analysing and exploring popular existing hypotheses In addition certain megalithic structures are shown to be scenes of primordial theatrical performances with the struggle for survival being replaced by the symbolic combat of dance This book provides the reader with details of under researched and lesser known megaliths It also explores the organic ties connecting megaliths origin their history and their contemporary existence in various sometimes rare forms The main theoretical concepts of the book are illustrated by means of well known and new material from a number of different cultures giving the reader the opportunity to view a wide range of interesting photographs from Machu Picchu Bulgaria Gobekli Tepe Stonehenge and Korea As such this book will serve as useful and fascinating reading material for anyone with an interest in the field of cultural studies

Masai Myths, Tales and Riddles Alfred C. Hollis, 2003-01-01 These enchanting tales from the Masai of East Africa describe worlds of warriors and devils monkeys and hyenas earthquakes and comets magical realms in which everyday life takes on supernatural elements For the past hundred years this volume has served as an authoritative source for studies of Masai culture

Journal of Astronist Studies Volume 1 Issue 1 Cometan, Juan Vivanco, Michael York, Monica Gyimah, 2024-08-15 This marks the first issue of the Journal of Astronist Studies and begins what is hoped to be a long tradition of scholarly discourse on space religions and the broader intersection between astronomy religion and spirituality This issue begins with a peer reviewed article by myself that gives a short history and comparison between Astronism Cosmism and Cosmodeism This first article of the first issue sets the scene for a scholarly discourse of Astronist studies by

providing some insight into the legacy of Astronism's predecessors in Cosmism and Cosmodeism. This issue continues with an article by Juan Vivanco who is new to the field of scholarly writing but who boasts a long history of entrepreneurship in eco-friendly construction and is based in Dubai. In his piece, Vivanco introduces readers to quantum cosmic theology and reflects on his experiences of cosmic meditation which has close links with the Astronist practice of night sky exposition and meditation. The third article in this issue is another peer-reviewed piece from myself this time focusing on the concept of astromorphism. This piece draws much inspiration from my master's dissertation but uniquely focuses on how the theory of an Astronic religious tradition contributes to the debate on the origins of religion. The origins of religion emerged as an academic pursuit in the early nineteenth century but the role of prehistoric astrolatry was never given any prominence in the debate. The second half of the issue begins with a piece by Professor Emeritus of cultural astronomy and astrology Michael York. York gives his perspective on how geocentrism represented by modern paganism and cosmocentrism represented by Astronism compare and contrast. York uses the sociological measuring tool of the ideal type to discuss the worldviews of geocentrism and cosmocentrism by analysing the aims of modern paganism and Astronism on whether humanity ought to escape Earth or attempt instead to restore our terrestrial conditions. The final full-length article in this issue comes from Dr Monica Gyimah who discusses issues involving a lack of state recognition and legal personality specifically impacting people who profess indigenous beliefs. Gyimah provides an extensive analysis of the international legal framework geared towards protecting indigenous communities and gives several examples of how indigenous groups professing various forms of nature religion and polytheism remain unrecognised and their access denied to several fundamental rights protected under freedom of religion or belief. This issue ends with my review of Tsvi Bisk's latest work *Cosmodeism: A Worldview for the Space Age*. It was a pleasure to read and review Bisk's work as many of the topics Bisk discusses in his work are prominent in Astronist philosophy. I reviewed Bisk's work from my perspective both as an Astronist but also as the founder of Astronism in particular to emphasise my belief in the need for the greater practical organisation of those movements that affirm the doctrine of transcension in some form.

The Hero Lord Raglan, 2013-05-27 Heroic figures all with the human desire for idealization in common are the focus of this study from Oedipus and King Arthur to heroes of the Trojan War and Robin Hood.

[The Destruction of Atlantis](#) Ignatius Donnelly, 2004-01-01 Supported by convincing geological, archeological and astronomical arguments, this remarkable study advanced a strikingly original idea for its time that a celestial object's devastating collision with the Earth's surface thousands of years ago resulted in massive gravel layers, the destruction of an advanced civilization, Atlantis, and years of cloud cover and extreme cold.
