Mein Judentum:

Kafka and the Universal Arthur Cools, Vivian Liska, 2016-07-25 Kafka's work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century. Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization. This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in and is transformed by Kafka's writings but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular. The contributions in this volume approach these questions from a variety of perspectives. They are structured according to the following issues: ambiguity as a tool of deconstructing the pre-established philosophical meanings of the universal; the concept of the law as a major symbol for the universal meaning of Kafka's writings; the presence of animals in Kafka's texts; the modernist mode of writing as challenge of philosophical concepts of the universal and the meaning and relevance of the universal in contemporary Kafka reception. This volume examines central aspects of the interplay between philosophy and literature.

The Jews and Germany Enzo Traverso, 1995-01-01 The Jews and Germany debunks a modern myth that once upon a time there was a Judeo-German symbiosis in which two cultures met and brought out the best in each other. Enzo Traverso argues that to the contrary, the attainments of Jews in the German-speaking world were due to the Jews aspiring to be German with little help from and often against the open hostility of Germans. As the Holocaust proved in murder and theft, German Jews could never be German enough. Now the works of German Jews are being published and reprinted in Germany. It is a matter of enormous difference whether the German rediscovery of German Jews is another annexation of Jewish property or an act of rebuilding a link between traditions. Traverso shows how tenuous the link was in the first place. He resumes the queries of German Jews who asked throughout the twentieth century what it meant to be both Jewish and German. Hannah Arendt, Gershom Scholem, Martin Buber, Max Horkheimer, Walter Benjamin, Theodor Adorno, Ernst Bloch, Rosa Luxemburg, Franz Kafka and many more thinkers of genius found the problems unavoidable and full of paradoxes. In returning to them, Traverso not only demolishes a sugary myth but also reasserts the responsibility of history to recover memory even if bitter and full of pain. Enzo Traverso was born in Italy in 1957. He currently works at the Bibliothèque de documentation internationale contemporaine in Nanterre where he is in charge of the German section of documentary research. He is also the author of *The Marxists and the Jewish Question: History of a Debate 1843-1943*. Daniel Weissbort is a professor of English at the University of Iowa. He is the author of *Inscription* and the editor of *Translating Poetry* and *The Poetry of Survival*. His translations include Claude Simon's *The World about Us*, *Transitional Justice in Italy and the Crimes of Fascism and Nazism*. Paolo Caroli, 2022-06-09 This book presents a comprehensive analysis of the Italian experience of transitional justice, examining how the crimes of Fascism and World War II have been dealt with from a comparative perspective. Applying an interdisciplinary and comparative methodology, the book offers a detailed

reconstruction of the prosecution of the crimes of Fascism and the Italian Social Republic as well as crimes committed by Nazi soldiers against Italian civilians and those of the Italian army against foreign populations It also explores the legal qualification and prosecution of the actions of the Resistance Particular focus is given to the Togliatti amnesty the major turning point through comparisons to the wider European post WWII transitional scenario and other relevant transitional amnesties allowing consideration of the intense debate on the legitimacy of amnesties under international law The book evaluates the Italian experience and provides an ideal framework to assess the complexity of the interdependencies between time historical memory and the use of criminal law In a historical moment marked by the resurgence of racism neo Fascism falsifications of the past as well as the desire to amend the faults of the past the Italian unfinished experience of dealing with the Fascist era can help move the discussion forward The book will be an essential reading for students researchers and academics in International Criminal Law Transitional Justice History Memory Studies and Political Science **An**

Bauer, 2017-07-05 When the Hungarian composer Gyrgy Ligeti passed away in June 2006 he was widely feted as being one of the greatest composers of our time His complete published works were recorded during his lifetime and his music continues to inspire a steady stream of performances and scholarship Ligeti's Laments provides a critical analysis of the composer's works considering both the compositions themselves and the larger cultural implications of their reception Bauer both synthesizes and challenges the prevailing narratives surrounding the composer's long career and uses the theme of lament to inform a discussion of specific musical topics including descending melodic motives passacaglia and the influence of folk

music But Ligeti laments in a larger sense his music fuses rigour and sensuality tradition and the new and influences from disparate high and low cultures with a certain critical and ironic distance reflected in his spoken commentary as well as in the substance of his music The notions of nostalgia exoticism and the absolute are used to relate works of different eras and genres along with associated concepts of allegory melancholy contemporary subjectivity and the voice

Homo Temporalis Nitzan Itzhak Lebovic, 2025-01-15 Homo Temporalis focuses on the importance of temporal concepts for four German Jewish thinkers who profoundly shaped twentieth century intellectual history Martin Buber Walter Benjamin Hannah Arendt and Paul Celan By analyzing the concept of time Nitzan Lebovic explores Buber s stress on the temporality of the dialogue between I and Thou Benjamin s now time and dialectics in standstill Arendt s understanding of democracy as natality or a permanent revolution and the breathturn that informs Celan s poetry Framing the reception of German Jewish thinking in the second half of the twentieth century as a parallel story to the rise of the modern humanities Homo Temporalis also highlights how these foundational temporal concepts illuminate the causes of the present crisis in the humanities and its disciplinary limitations in the age of biopolitics and the Anthropocene

Memoirs Hans Jonas, 2021-04 Jonas was a veritable intellectual celebrity in Germany owing to the runaway success of his 1979 book The Imperative of Responsibility an extra ordinarily timely work that mediates between humankind s enormous technological capacities and its diminished moral sensibilities The book became something of a cultural shibboleth Jonas himself became a celebrated public intellectual For Jonas this development must have been enormously gratifying In the 1920s Jonas studied philosophy with Edmund Husserl and Martin Heidegger at universities in Marburg and Freiburg but the Nazi regime s early attempts to Aryanize the universities forced Jonas to leave Germany for London He emigrated to Palestine in 1935 and eventually enlisted in the British Army s Jewish Brigade to fight against Hitlerism Following the Israeli

War of Independence in which he also fought he emigrated to the US and took a position at the New School for Social Research in New York He became part of a circle of friends around Hannah Arendt and Heinrich Blücher which included Adolph Lowe and Paul Tillich Because Jonas's life spanned nearly the entire twentieth century this memoir provides nuanced pictures of a host of important historical moments of German Jewry during the Weimar Republic of German Zionism of the Jewish emigrants in Palestine during the 1930s and 1940s and of German Jewish émigré intellectuals in New York In addition Jonas outlines the development of his work beginning with his studies under Husserl and Heidegger and extending through his later metaphysical speculations about God after Auschwitz

A Philosophical Journey into the Anthropocene Agostino Cera, 2023-01-09 A Philosophical Journey into the Anthropocene Discovering Terra Incognita presents the Anthropocene not only as a geological epoch but rather as the potential marker of our age and the most faithful expression of the current zeitgeist Insofar as the Anthropocene establishes that the human agency as technological omnipower represents a global geophysical force capable of altering the destiny of the Earth system the coming of this new epoch shows that technology now embodies the subject of both history and nature In this totalized form technology achieves the status of an integral epochal phenomenon the new environment for human life Agostino Cera argues that the technisches Zeitalter age of technology outlined by twentieth century philosophical thought is fully realized in the Anthropocene and that a more appropriate name for this planetary framework is therefore Technocene The book develops along four basic directions epistemological ontological anthropological and ethical It argues that the Anthropocene is something radically new a terra incognita or an epistemic hyperobject with a geo historical barycenter giving rise to an unprecedented form of reification of nature petrification of nature an unexpected version of anthropocentrism Aidosian Prometheanism and an unpredictable ethical paradox paradox of omnipresponsibility

Cosmopolitan Vision Ulrich Beck, Ciaran Cronin, 2014-11-05 In this new book Ulrich Beck develops his now widely used concepts of second modernity risk society and reflexive sociology into a radical new

sociological analysis of the cosmopolitan implications of globalization Beck draws extensively on empirical and theoretical analyses of such phenomena as migration war and terror as well as a range of literary and historical works to weave a rich discursive web in which analytical critical and methodological themes intertwine effortlessly Contrasting a cosmopolitan vision or outlook sharpened by awareness of the transformative and transgressive impacts of globalization with the national outlook neurotically fixated on the familiar reference points of a world of nations states borders sovereignty exclusive identities Beck shows how even opponents of globalization and cosmopolitanism are trapped by the logic of reflexive modernization into promoting the very processes they are opposing A persistent theme running through the book is the attempt to recover an authentically European tradition of cosmopolitan openness to otherness and tolerance of difference What Europe needs Beck argues is the courage to unite forms of life which have grown out of language skin colour nationality or religion with awareness that in a radically insecure world all are equal and everyone is different

Anthropology in the Age of Technology Paul van Dijk, 2000 This book is the first to discuss for an English speaking audience the ideas of the German Jewish man of letters thinker and activist Günther Anders Anders is one of few philosophers to deal intensely with the moral consequences of Auschwitz and Hiroshima He can rightly be called the philosopher of the atomic age and his thinking a philosophy of modern technology In biting manifestoes sharp aphorisms and penetrating essays in stirring diary notes and political fables Anders strikes out the age in which we live As a twentieth century visionary he exposes the absence of the moral and social imaginations that is necessary to prevent our history from ending in a total catastrophe In the gap between our technical creations and our utter inability to imagine their destructive potential lies the basis for the unstoppable activity of this practical philosopher From every possible angle he attempts to comprehend this modern schizophrenia in its roots and consequences Anders is one of the most important thinkers of the twentieth century He tried to describe and analyze the variety of manifestations of the self destructive progress of our technical civilization which makes humanity into an antiquated sort He diagnosed countless important problems ranging from the world of media to the dictates of the world of machinery and he investigated their social political and philosophical meaning To read his writings is more than becoming acquainted with a rich and colorful philosopher It is more than an encounter with a moving and passionate individual It is ultimately a confrontation with oneself with our own guilt and responsibility with our personal hopes and fears with our lack of imagination and with our need to recover it *Eternal Guilt?* Michael Wolffsohn, 1993 Should the Germans of today continue to atone for the sins of their forebears *Eternal Guilt* argues persuasively that Germans Israelis and American Jews cling to their historical legacy in order to manipulate contemporary political ends

Unlikely History J. Zipes, L. Morris, 2016-04-30 In the English speaking world it is generally believed that there are very few Jews living and thriving in Germany Yet there has been an unlikely postwar history 1945-2001 that has been somewhat repressed in North America and the United Kingdom While most people are well informed about the Holocaust and the consequences that this tragic event has had for the world very few people know that there has been a steady increase in the population of Jews in Germany since 1945 and that there is a flourishing Jewish culture certainly a relatively strong Jewish presence in Germany today Does this development mean that Jews are playing a significant role in German social life Does this mean that the great German Jewish relationship often referred to as a kind of symbiosis has re-emerged despite the odds against it The sixteen essays in this book written by the leading critics in the field cover the fascinating changes that have been made in German society since 1945 in the Jewish communities literature theater film architecture and other areas of interest including an examination of the resurgence of anti-Semitism in Austria For anyone interested in reading about the unpredictable transformations in German Jewish relations since 1945 Unlikely History will provide information and insights into a history that needs to be told to bring about greater understanding of Jews and Germans in contemporary Germany

Essays on Antisemitism, Anti-Zionism, and the Left Jean Améry, 2022-01-04 In April 1945 Jean Am

ry was liberated from the Bergen Belsen concentration camp. A Jewish and political prisoner, he had been brutally tortured by the Nazis and had also survived both Auschwitz and other infamous camps. His experiences during the Holocaust were made famous by his book *At the Mind's Limits: Contemplations by a Survivor of Auschwitz and Its Realities*. *Essays on Antisemitism, Anti Zionism and the Left* features a collection of essays by Amiry translated into English for the first time. Although written between 1966 and 1978, Amiry's insights remain fresh and contemporary and showcase the power of his thought. Originally written when leftwing antisemitism was first on the rise, Amiry's searing prose interrogates the relationship between anti Zionism and antisemitism and challenges the international left to confront its failure to think critically and reflectively.
