

Johnson's essay, like Forcione's and so many of the others in *On Cervantes*, opens up a familiar work by opening our attention *outward*, by going beyond conventional approaches and familiarly "literary" perspectives. That the writings of Cervantes would inspire, in all these articles, such examples of broad, patient scholarship and of daring assertion and unexpected discoveries should surprise no one. That this fine anthology has come into being, meanwhile, is cause for gratitude and sincere appreciation. One must thank all involved—Professor Parr, all the contributors, Professor Murillo and of course Cervantes.

Teresa Scott Soufas. *Melancholy and the Secular Mind in Spanish Golden Age Literature*. Columbia and London: University of Missouri Press, 1990. xiii + 186 pp.

Melancholy as a physical, mental and psychosomatic disturbance describes a wide range of illnesses in Renaissance and Baroque literature. The phenomenon has received considerable attention with regard to British literary texts, but similar studies dedicated to Spanish prose, poetry and theater are not as prevalent. In *Melancholy and the Secular Mind in Spanish Golden Age Literature*, Teresa Soufas elaborates upon her previous studies and definitively elevates melancholy from the status of *topos* to its appropriate central position within the literature of Golden Age Spain. Throughout the preface and five chapters, Soufas cogently undertakes a reexamination of melancholy's importance as reflected in the Catholic, post-Tridentine authors who "engage[d] in a dialectical transvaluation of values, that is, a reexamining and redefining of society and traditional norms that nevertheless does not seek to invalidate those norms or their inversion" (ix). She analyzes the scientific and literary transvaluation of melancholy in Cervantes (Chapter 1), religious melancholy in Tirso (Chapter 2), love melancholy in two different manifestations in Lope and Calderón (Chapter 3), the melancholy malcontent in picaresque narrative (Chapter 4), and the melancholy debate as exemplified in the *conceptista/culteranista* controversy, particularly in Góngora (Chapter 5).

The chapter on Cervantes, with its primary focus on *Don Quixote*, is a logical introductory locus for a general discussion of melancholy. Soufas brings to bear the important sources of Spanish and English Renaissance views on the illness as well as contemporary critics' readings of these sources. She provides concise summaries of Marsilio Ficino, Robert Burton, Timothy Bright, Juan Luis Vives, Alonso de Freylas and, naturally, Huarte de San Juan; the contemporary readers include Otis Green, Daniel Heiple,

The Aesthetics of Melancholia Luis F. López González, 2022-12-02 This book explores the intersection between medicine and literature in medieval Iberian literature and culture Its overarching argument is that thirteenth and fourteenth century Iberian authors revalorized the interconnection between the body the mind and the soul in light of the evolving epistemology of medicine Prior to the reintroduction of classical medical treatises through Arab authors into European cultures mental disorders and bodily diseases were primarily attributed to moral corruption demonic influence and superstition The introduction of novel regimens of health as well as treatises on melancholia into academic institutions and into the cultural landscape provided the tools for newly minted authors to understand that psychosomatic illnesses stemmed from malfunctions of the body s biochemical composition This book demonstrates that the earliest books written in the Iberian vernaculars contain the seeds that effect the shift from a theocentric worldview to a humanistic one The volume features close readings of multiple texts including medical treatises and religious writings and King Alfonso X s *Cantigas de Santa Maria* Juan Manuel s *Conde Lucanor* and Juan Ruiz s *Libro de buen amor* Even though these texts differ in literary genre rhetorical strategy and even purpose this study argues that they collectively employ humoral pathology and melancholic discourses as a means of underscoring the frailty and transience of human life by showing how somatic conditions sicken the body mind and soul unto death

Exorcism and Its Texts Hilaire Kallendorf, 2003-12-15 Exorcism and demonic possession appear as recurrent motifs in early modern Spanish and English literatures In *Exorcism and Its Texts* Hilaire Kallendorf demonstrates how this infection was represented in some thirty works of literature by fifteen different authors ranging from canonical classics like Shakespeare Cervantes Ben Jonson and Lope de Vega to obscure works by anonymous writers From comic and tragic drama to picaresque narrative and eight other genres possession worked as a paradigm through which authors could convey extraordinary experience including not only demonic possession but also madness or even murder The devil was thought to be able to enter the bodily organs and infect memory imagination and reason Some came to believe that possession was tied to enthusiasm poetic frenzy prophecy and genius Authors often drew upon sensational details of actual exorcisms In some cases such as in Shakespeare curing the body and the body politic meant affirming cultural authority in others as with Zamora it clearly meant subverting it Drawing on the disciplines of literary theory and history *Exorcism and Its Texts* is the first comprehensive study of this compelling topic
