Freudian Analysts/Feminist Issues Judith M. Hughes, 1999-01-01 In this book Judith M Hughes makes a highly original case for conceptualizing gender identity as potentially multiple She does so by situating her argument within the history of psychoanalysis Hughes traces a series of conceptual lineages each descending from Freud In the study Helene Deutsch Karen Horney and Melanie Klein occupy prominent places So too do Erik H Erikson and Robert J Stoller Among contemporary theorists Carol Gilligan and Nancy Chodorow are included in Hughes's roster In each lineage Hughes discerns an evolutionary narrative Deutsch tells a story of retrogression Erikson names his epigenesis and Gilligan continues in that vein Horney's discussion recalls sexual selection Stoller's and Chodorow's theorizing brings artificial selection to mind and finally in Klein's work Hughes sees a story of natural selection and adds to it her own notion of multiple gender identities

Arabs in Treatment: Yana Korobko, 2016-08-19 When I was only starting the therapeutic work with the Middle Eastern patients I was looking for some kind of guidance to enable my genuine understanding of the Muslim patient cases However the material was scarce haphazardly scattered and mostly referring to the traditional therapies That was not helpful and was even more confusing With time I managed to amass my own systemized data based on regular observations practical cases reflections and exchanges with the colleagues This material helped me to approach each case individually while respecting the cultural environment of a patient Eventually the book was published This is the kind of book that I have always wanted to find and I had to write it eventually by myself The work contains the systematized

knowledge on the evolution of scientific psychology in the Islamic world which starts with the prophetic times and continues until now The book reveals the signifiers which form a structure of a Muslim psyche It also exposes the recurrent mental health complaints of the Arab patients and investigates their unconscious roots The book is intended first of all for professionals who are directly related to the Muslim mental health care system Secondly it is for anyone who is considering undergoing a personal analysis And certainly the edition is for everyone interested in the subject This book does not intend to bring the answers It rather continues the dialogue regarding the necessity of creating the psychological counseling culture in the Muslim world
