Forging Europe: Industrial Organisation in France, 1940-1952 Luc-André Brunet,2017-06-08 This book is a detailed and original look at the radical reorganisation of French heavy industry in the turbulent period between the establishment of the Vichy regime in 1940 and the creation of the European Coal and Steel Community ECSC the forerunner to the European Union in 1952 By studying institutions ranging from Vichy s Organisation Committees to Jean Monnet s Commissariat G n ral du Plan CGP Luc Andr Brunet challenges existing narratives and reveals significant continuities from Vichy to post war initiatives such as the Monnet Plan and the ECSC Based on extensive multi archival research this book sheds important new light on economic collaboration and resistance in Vichy the post war revival of the French economy and

the origins of European integration **France's Lost Empires** Kate Marsh, Nicola Frith, 2011-01-01 This collection of essays investigates the fundamental role that the loss of colonial territories at the end of the Ancient Regime and post World War II has played in shaping French memories and colonial discourses In identifying loss and nostalgia as key tropes in cultural representations these essays call for a re evaluation of French colonialism as a discourse informed not just by narratives of conquest but equally by its histories of defeat **The Sixties** Dimitry Anastakis, 2008-02 A new approach to one of the most memorable decades in recent history **Paris and the Right in the Twentieth Century** Jessica Wardhaugh, 2021-04-16 Certain images of Paris have become icons for the left but the Paris of the right has received far less attention This groundbreaking collection of essays examines the relationship between Paris and the right in the twentieth century exploring how political leaders and parties have depicted and controlled the streets people and history of Paris and how the city has been both context and inspiration for journalists and novelists of the right The first part focuses on the relationship between the right the street and the people and describes some of the most contentious political movements in recent French history from the anti parliamentary leagues of the Belle poque to the contemporary Front National The second part examines the importance of Paris for de Gaulle and his successors in their exercise of authority and control whether in the media the streets or municipal politics Lastly the book explores the Paris imagined and experienced by right wing novelists from Charles Maurras to the post war Hussards mapping out an intellectual topography and emphasising the tensions between a real and imaginary city A Franco British collaboration spanning history literary studies and political science this volume offers an original contribution to the political geography culture and symbolism of the French capital **Judgment at Tokyo** Gary J. the Philippines and elsewhere and rampant abuses of prisoners of war in notorious incidents such as the Bataan death march For the Allied powers the trial was an opportunity to render judgment on their vanquished foes but also to create a legal framework to prosecute war crimes and prohibit the use of aggressive war building a more peaceful world under international law and American hegemony For the Japanese leaders on trial it was their chance to argue that their war had been waged to liberate Asia from Western imperialism and that the court was victors justice For more than two years lawyers for both sides presented their cases before a panel of clashing judges from China India the Philippines and Australia as well as the United States and European powers The testimony ran from horrific accounts of brutality and the secret plans to attack Pearl Harbor to the Japanese military's threats to subvert the government if it sued for peace Yet rather than clarity and unanimity the trial brought complexity dissents and divisions that provoke international discord between China Japan and Korea to this day Those courtroom tensions and contradictions could also be seen playing out across Asia as the trial unfolded in the crucial early years of the Cold War from China's descent into civil war to Japan's successful postwar democratic elections to India's independence and partition From the author of the acclaimed *The Blood Telegram* which was a Pulitzer Prize finalist this magnificent history is the product of a decade of research and writing Judgment at Tokyo is a riveting story of wartime action dramatic courtroom battles and the epic formative years that set the stage for the Asian postwar era

Ernest Mandel Jan Willem Stutje, 2020-05-05 Ernest Mandel 1923 1995 was one of the most prominent anti Stalinist Marxist intellectuals of his time A political theorist and economist his worldview was shaped by experiences in the Second World War as an underground political activist in Occupied Belgium and during his subsequent internment in a Nazi prison camp Mandel's faith in human nature and in the working classes survived Nazi oppression and the murder of much of his family in the concentration camps He retained his connection to his Jewish roots throughout his life but believed that security and liberation for the Jewish people was best achieved through world revolution and universal emancipation rather than nationalism A brilliant orator in several languages Mandel was an indefatigable revolutionary militant and a key leader in the Fourth International and he had an enormous impact on the thought and practice of the 1968 generation His writings range from innovative economic and political theory to a study of

the Second World War and have been published in over forty languages His last major work Late Capitalism had an influence that reached from the social sciences into the humanities Biographer Jan Willem Stutje the first writer with access to Mandel s archives has interviewed many of the leading figures in the story and unearthed a wealth of new material detailing Mandel s arrest by the Nazis and his role in Latin American guerrilla warfare He recounts Mandel s interactions with both scholars Sartre Ernst Bloch Perry Anderson and comrades in arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man s sometimes tragic private life

The Allies and the German Problem, 1941-1949

Andrew Szanajda,2015-05-05 The Allies and the German Problem 1941 1949 examines Allied policymaking during the Second World War and the military occupation of postwar Germany demonstrating how the initial unity of the Allies disintegrated during the postwar military occupation in the face of their separate goals for postwar Germany and Europe

The Obstructed Path H. Stuart Hughes,2017-09-29 The years of political and social despair in France from the great depression through the Nazi occupation Resistance and liberation to the Algerian War forced French intellectuals to rethink the values of their culture Their faltering attempts to break out of a psychological impasse are the subject of this thoughtful and compassionate book by a distinguished American historian In this first treatment of contemporary French thought to bridge philosophy literature and social science and to show its relation to comparable thinking in Germany Britain and the United States Hughes also assesses the work of other writers in terms of their emotional biography and role in society Hughes found those who struggled to find meaning and purpose amid chaos to be among the most brilliant minds of their century They included the social historians Bloch and Febvre the Catholic philosophers Maritain and Marcel the proponents of heroism Martin du Gard Bernanos Saint Exupery Malraux and DeGaulle and the phenomenologists Sartre and Merleau Ponty They also included the strangely assorted trio of Camus Teilhard de Chardin and Levi Strauss who showed the way to a wider cultural community Yet in nearly every case these scholars achieved something quite different from what they set out to do For this self questioning generation the interchange between history and anthropology became most compelling and of greatest interest to the world outside The Obstructed Path blends H Stuart Hughes concern for the many ways in which historians define and practice their craft his lifelong interest in literature his fascination with the influence of Marx and Freud and his empathy with the varieties of Christian thought It also demonstrates his delicate grasp of singular personalities such as Bernanos Merleau Ponty Jean Paul Sartre and Levi Strauss His profound insight into the flaws of many elaborate philosophical constructions and into t

The Presence of the Word Walter J.

Ong,1967-01-01 This provocative exploration of the nature and history of the word in some of its social psychological literary phenomenological and religious dimensions argues that the word is initially aural and in the last analysis always remains sound it cannot be reduced to any other category Father Ong contends that sound is essentially an event manifesting power

and personal presence and his descriptive analysis of the development of the media of verbal expression from their oral sources through the laborious transfer to the visual world and then to contemporary means of electronic communication shows that the predicament of the human word is the predicament of man himself Examining the close alliance of the spoken word with the sense of the sacred particularly in the Hebreo Christian tradition he reveals that in a world where presence has penetrated time and space as never before modern man must find the God who has given himself in the Word which brings man more into the world of sound than of sight

The Past in French History Robert Gildea, 1996-01-01 This fascinating book examines how the past pervades French public life how the French both commemorate their past triumphs heroes and martyrs and attempt to erase the more violent events in their history The book surveys the ways that various political communities in France during the past two centuries have manufactured different versions of the past in order to define their identities and legitimate their goals Beginning with a discussion of the bicentenary of the French Revolution in 1989 Robert Gildea moves backward in time to show how rival factions have used various elements of French political culture from the grandeur of the ancien r gime to Catholicism Jacobinism Anarchism and Bonapartism to further their ends Gildea shows how proponents of revolution and counterrevolution church and state centralism and regionalism and national identity and nationalism campaigned to achieve the widest possible acceptance of their own view of the past He describes the continuing battle between Left and Right for association with national heroes such as Joan of Arc and Napoleon He exposes the reworking of collective views of the past by political communities in order to increase or recover political legitimacy Written in clear and trenchant prose the book offers a new perspective on French history and political culture

The Fall and Rise of French Sea Power Hugues Canuel, 2021-04-15 The Fall and Rise of French Sea Power explores the renewal of French naval power from the fall of France in 1940 through the first two decades of the Cold War The Marine nationale continued fighting after the Armistice a service divided against itself The destruction of French sea power at the hands of the Allies the Axis and fratricidal confrontations in the colonies continued unabated until the scuttling of the Vichy fleet in 1942 And yet just over twenty years after this dark day Charles de Gaulle announced a plan to complement the country's nuclear deterrent with a force of nuclear powered ballistic missile carrying submarines Completing the rebuilding effort that followed the nadir in Toulon this force provided the means to make the Marine nationale a fully fledged blue water navy again ready to face the complex circumstances of the Cold War An important continuum of cooperation and bitter tensions shaped naval relations between France and the Anglo Americans from World War II to the Cold War The rejuvenation of a fleet nearly wiped out during the hostilities was underpinned by a succession of forced compromises often the least bad possible reluctantly accepted by French politicians and admirals but effectively leveraged in their pursuit of an independent naval policy within a strategy of alliance Hugues Canuel demonstrates that the renaissance of French sea power was shaped by a naval policy formulated within a strategy of alliance closely adapted to the needs of a continental state with worldwide

interests This work fills a distinct void in the literature concerned with the evolution of naval affairs from World War II to the 1960s The author drawing upon extensive research through French British American and NATO archives including those made public only recently regarding the sensitive circumstances surrounding the French nuclear deterrent maps out for readers the unique path adopted in France to rebuild a blue water fleet during unprecedented circumstances *De Gaulle's Legacy* W. Nester, 2014-12-16 This book explores the following What is the art of power What is the art of French power How did Charles de Gaulle understand and assert power establishing the Fifth Republic and breaking centuries of political instability How well or poorly have his successors wielded the art of French power to define defend or enhance French interests *Writing National Histories* Stefan Berger, Mark Donovan, Kevin Passmore, 2002-01-22 This book examines comparatively how the writing of history by individuals and groups historians politicians and journalists has been used to legitimate the nation state against socialist communist and catholic internationalism in the modern era Covering the whole of Western Europe the book includes discussion of history as legitimation in post revolutionary France unity and confederation in the Italian Risorgimento German historians as critics of Prussian conservatism right wing history writing in France between the wars British historiography from Macauley to Trevelyan the search for national identity in the reunified Germany
