*Scarce Heard Amid the Guns* John Conrad, 2011-09-15 Scarce Heard Amid the Guns tears the curtain of myth away providing a rare visceral inner perspective of the various Canadian peacekeeping missions In the Service of Peace simple words that adorn the obverse of every United Nations medal yet behind this eloquence lurks violence and an unheralded heroism invisible to an often misunderstood

quarter of Canada's military history The Canadian contribution to peacekeeping is enormous but ensnared in a lethal mythology that has seen it abandoned to popular folklore From the early and intrinsic Canadian contribution to the U N Emergency Force in 1956 through the blur of the frenetic 1990s down to the anemic level of contemporary Canadian participation it is difficult to make sense of the wide circumference of this significant legacy Until now Scarce Heard Amid the Guns provides an incisive perspective on the various Canadian missions their omnipresent doubt and untelegraphed terrors This insiders guided tour of our military at war in peace introduces us to some of the men and women who carried the day ordinary Canadians who did extraordinary things and continue to bear the scars of forgotten fields in their bones

**Canada's Foreign Policy and the Arab-Israel Conflict** Kamaran M.K. Mondal, 2022-01-10 Using the historical and comparative approaches of study this book traces the roots of the Arab Israel conflict in general and the Palestine Israel conflict in particular as well as Canada's role in the thorny issue of the conflict and peace processes through multilateral fora and institutions It shows that the Canadian perception and policy while uniquely Canadian have operated within the broader Anglo American framework of support for a Jewish homeland and the two state theory The book argues that three significant factors have impacted Canada's outlook and actions Firstly Canada's perception and policy towards the Arab Israel conflict have been shaped by religious cultural and historical factors rather than by its acclaimed Liberal Internationalism Second growing economic and commercial interests after the 1973 Arab Israel War and its perceived national interest made it adopt a more nuanced and balanced approach towards the conflict Finally it argues that the elite perception the initiatives by Lester Pearson and the presence of an active Jewish community have had a significant influence on Canadian perception towards the Arab Israel conflict

Constructing Allied Cooperation Marina E. Henke, 2019-10-15 How do states overcome problems of collective action in the face of human atrocities terrorism and the threat of weapons of mass destruction How does international burden sharing in this context look like between the rich and the poor the big and the small These are the questions Marina E Henke addresses in her new book *Constructing Allied Cooperation* Through qualitative and quantitative analysis of 80 multilateral military coalitions Henke demonstrates that coalitions do not emerge naturally Rather pivotal states deliberately build them They develop operational plans and bargain suitable third parties into the coalition purposefully using their bilateral and multilateral diplomatic connections what Henke terms diplomatic embeddedness as a resource As *Constructing Allied Cooperation* shows these ties constitute an invaluable state capability to engage others in collective action they are tools to construct cooperation Pulling apart the strategy behind multilateral military coalition building Henke looks at the ramifications and side effects as well As she notes via these ties pivotal states have access to private information on the deployment preferences of potential coalition participants Moreover they facilitate issue linkages and side payments and allow states to overcome problems of credible commitments Finally pivotal states can use common institutional contacts IO officials as cooperation brokers and they can convert common institutional venues into fora for negotiating coalitions The theory and evidence presented by Henke force us to revisit the conventional wisdom on how cooperation in multilateral military operations comes about The author generates new insights with respect to who is most likely to join a given multilateral intervention what factors influence the strength and capacity of individual coalitions and what diplomacy and diplomatic ties are good for Moreover as the Trump administration promotes an America First policy and withdraws from international agreements and the United Kingdom completes Brexit *Constructing Allied Cooperation* is an important reminder that international security cannot be delinked from more mundane forms of cooperation multilateral military coalitions thrive or fail depending on the breadth and depth of existing social and diplomatic networks
