Memoirs Of A British Broadcaster:

DG Alasdair Milne,1989 The BBC Tom Mills,2020-10-13 The BBC the mouthpiece of the Establishment The BBC is one of the most important institutions in Britain it is also one of the most misunderstood Despite its claim to be independent and impartial and the constant accusations of a liberal bias the BBC has always sided with the elite As Tom Mills demonstrates we are only getting the news that the Establishment wants aired in public Throughout its existence the BBC has been in thrall to those in power This was true in 1926 when it stood against the workers during the General Strike and since then the Corporation has continued to mute the voices of those who oppose the status quo miners in 1984 anti war protesters in 2003 those who offer alternatives to austerity economics since 2008 From the outset much of its activity has been scrutinised by the secret services at the invitation of those in charge Since the 1990s the BBC has been integrated into the market while its independence from government and big business has been steadily eroded The BBC is an important and timely examination of a crucial public institution that is constantly under threat

The History of Broadcasting in the United Kingdom: Volume V: Competition Asa Briggs,1995-03-23 Part of a five volume history of the rise and development of broadcasting in the United Kingdom *Television Producers* Jeremy Tunstall,2003-09-02 Covering all the major areas of television production this in depth work highlights the widely varying influences difficulties and opportunities at work in the industry Each kind of producer across the seven areas here examined faces the same practical issues of budget talent and equipment resources and end product expectations however the self image of the producers and the creative environment in which they work can differ greatly from one programming sector to the next and whilst their careers may run parallel they are usually cut off from one another ideologically Based on interviews from over two hundred and fifty producers working across a selection of British television channels as well as producers of a number of high profile American shows this book takes in a panoramic view of production models at work today and concludes with some insightful suggestions for the future

Power Without Responsibility James Curran,Jean Seaton,2018-10-08 This book attacks the conventional history of the press as a story of progress offers a critical defence and history of public service broadcasting provides a myth busting account of the internet a subtle account of the impact of social media and explores key debates about the role and politics of the media It has become a standard book on media and other courses but it has also gone beyond an academic audience to reach a wider public Hailed as a classic of media history and analysis by the Irish Times and a book that has cracked the canon by the Times Higher it has been translated into five languages This edition contains six new chapters These include the press and the remaking of Britain the rise of the neo liberal Establishment the moral decline of journalism the impact of social media and a history of attempts to reform the press It contains new research on the relationship between programmes institutions and society It places key UK institutions in the wider context of international affairs and their impact The book has been updated to take account of new developments like Brexit and the rise of Jeremy Corbyn and the shift in authority

and legitimacy prompted by social media It does this with a clear explanation of how policy can shape media outcomes

Power Without Responsibility James Curran, Jean Seaton, 2003-12-16 Widely regarded as the standard book on the British Media this authoritative introduction to the history sociology theory and politics of media and communications studies has been substantially revised and updated to bring it up to date with developments in the media industry Its three new chapters describe the battle for the soul of the internet the impact of the internet on society and the rise of new media in Britain In addition it examines the recuperation of the BBC how international and European regulation is changing the British media and why Britain has the least trusted press in Europe

Sultan of Swing Michael Crick, 2018-10-25 Sir David Butler pioneered the science of elections transforming the way we analyse election results In 1945 aged only twenty Butler was the first to turn British constituency results into percentages and thereby founded the science of psephology Appearing as an expert on Britain's first TV election night in 1950 he promoted the idea of swing to explain gains and losses to the public Later he invented the BBC's popular Swingometer which is still used today He has publicly analysed every British general election since the Second World War and done more than anyone to transform TV coverage of elections with a style that combined authority and showmanship with his phenomenal memory for facts and figures First summoned by Churchill for polling advice when he was only twenty five David Butler got to know most of Britain's senior post war politicians and has acted as a highly influential voice behind the scenes He wrote dozens of books and taught scores of leading figures in politics and the media around the world building a huge international reputation which regularly took him to America Australia and India Award winning TV correspondent Michael Crick has known David Butler for forty years In *Sultan of Swing* based on interviews with Butler himself his friends family and colleagues and with access to many previously unseen papers Crick chronicles the long and energetic life of the greatest analyst of British elections a story that weaves its way through post war history with surprises colour and humour

Northern Ireland, the BBC, and Censorship in Thatcher's Britain Robert J. Savage, 2022-03-10 This is a study of how the Northern Ireland conflict was presented to an increasingly global audience during the premiership of Britain's Iron Lady Margaret Thatcher It addresses the tensions that characterized the relationship between the broadcast media and the Thatcher Government throughout the 1980s Robert J Savage explores how that tension worked its way into decisions made by managers editors and reporters addressing a conflict that seemed insoluble Margaret Thatcher mistrusted the broadcast media especially the BBC believing it had a left wing bias that was hostile to her interests and policies This was especially true of the broadcast media's reporting about Northern Ireland She regarded investigative reporting that explored the roots of republican violence in the region or coverage critical of her government's initiatives as undermining the rule of law and thereby providing terrorists with what she termed the oxygen of publicity She followed in the footsteps of the Labour Government that preceded her by threatening and bullying both the BBC and IBA promising that the draconian Prevention of Terrorism Act would be deployed to punish journalists that came into contact with the IRA

Although both networks continued to offer compelling news and current affairs programming the tactics of her government produced considerable success Wary of direct government intervention both networks encouraged a remarkable degree of self censorship when addressing the Troubles Regardless by 1988 the Thatcher Government unhappy with criticism of its policies took the extraordinary step of imposing formal censorship on the British broadcast media The infamous broadcasting ban lasted six years successfully silencing the voices of Irish republicans while tarnishing the reputation of the United Kingdom as a leading global democracy

The Artful Economist Ilde Rizzo, Ruth Towse, 2016-10-04 This book reassesses central topics in cultural economics Public finance and public choice theory as the basis for decision making in cultural and media policy the role of welfare economics in cultural policy the economics of creative industries the application of empirical testing to the performing arts and the economics of cultural heritage Cultural economics has made enormous progress over the last 50 years to which Alan Peacock made an important contribution The volume brings together many of the senior figures whose contributions to the various special fields of cultural economics have been instrumental in the development of the subject and others reflecting on the subject's progress and assessing its future direction Alan Peacock has been one of the leading lights of cultural economics and in this volume Ilde Rizzo and Ruth Towse and the other contributors ably capture the import of his contributions in a broader context of political economy In doing so they offer an overview of progress in cultural economics over the last forty years Tyler Cowen Professor of Economics and Director of the Mecatus Center George Mason University Fairfax Virginia USA A fitting tribute to Professor Sir Alan Peacock's inspiring intellect leadership and his outstandingly rich and varied legacy in the domain of cultural economics this book draws together illuminating analyses and insights from leading cultural economists about the role and value of this dynamic and increasingly policy relevant field of enquiry Gillian Doyle Professor of Media Economics and Director of Centre for Cultural Policy Research University of Glasgow UK

The Politics of Public Broadcasting in Britain and Japan Henry Laurence, 2022-07-29 The BBC and NHK have dominated their national media systems since the 1920s and still play a central role in shaping political social and cultural life Both are highly trusted news organizations and vitally influence national identity Yet despite remarkably similar organizational and funding structures they differ in their editorial autonomy relationship to the state and in the social and cultural roles they play While the BBC proud of its independence acts as a watchdog on the powerful NHK prefers a guide dog role cooperating with rather than confronting political elites The BBC is also more willing to challenge prevailing social norms often serving as an agent of social change NHK prefers to avoid controversy serving as an agent of social stability The book argues that these differences were shaped by decades of conflict and cooperation between broadcasters governments commercial media interest groups and audiences The broadcasters adopted distinctive editorial strategies to retain public support and elite approval in the face of technological upheaval hostility from commercial rivals and continuous political interference Both however continue to uphold the belief that democratic and social goals are better served by public rather

than commercial media **Don't Mention the War** David Miller,1994-10-20 The media has told us for over twenty five years that the conflict in Northern Ireland is irrational and has no objective social basis The role of the British Army in Northern Ireland is still described as a peacekeeping one the cause of the troubles as terrorism Yet even in the light of the peace initiatives many people in Britain and abroad know little about the war that has not been called a war Why is this so Don t Mention the War explains some of the fundamental reasons why there is such a dearth of knowledge and concern about Northern Ireland and how the problem has been defined both publicly and politically Miller argues that the central strategy of the British state since 1969 has been to contain the troubles and bring about a return to normal In pursuing this argument Miller examines the strategies and tactics used by the British government the nationalists the unionists and others to influence perceptions and ideas about the conflict through press statements and other information management activities This is a unique and timely work based on over 100 interviews with journalists government officials political activists and politicians which lays bare the lies of the propagandists and paints a disturbing picture of the success of the media managers in manipulating our perception of the conflict in Northern Ireland *News and Journalism in the UK* Brian McNair,1999 On journalism in the UK **News and Journalism in the UK** McNair,Brian McNair,2003-09-02 News and Journalism in the UK is an accessible and comprehensive introduction to the political economic and regulatory environments of press and broadcast journalism in Britain and Northern Ireland Surveying the industry in a period of radical economic and technological change Brian McNair examines the main trends in journalistic media in the last two decades and assesses the challenges and future of the industry in the new millennium Integrating both academic and journalistic perspectives on journalism topics addressed in this revised and updated edition include tabloidization Americanization and the supposed dumbing down of journalistic standards changing work patterns and the feminization of journalism trends in media ownership and editorial allegiances the impact of technological innovations such as digitalization online media and 24 hour news the implications of devolution for regional journalists **Special Relations** Howard Malchow,2011-02-18 A study of Anglo American cultural and countercultural exchange from the mid Fifties to the mid Seventies Special Relations explores aspects of London modernism the anti war movement student rebellion black power the second wave feminist and gay liberation movements and transatlantic nostalgia **Swearing in English** Tony McEnery,2004-06 Swearing is an everyday part of the language of most speakers of modern English This corpus informed account describes swearing and its social function with a particular focus on the relationship between swearing and abuse **Popular Music in Leeds** Brett Lashua,Karl Spracklen,Kitty Ross,Paul Thompson,2023-10-13 This first academic collection dedicated to popular music in Leeds developed from the work of interdisciplinary scholars drawn from a major public museum exhibition Sounds of Our City and built upon contemporary research Leeds has rich musical histories and heritage a long tradition of vibrant music venues nightclubs dance halls pubs and other sites of musical entertainment The city has spawned crooners folk singers punks post punks Goths DJs popstars

rappers and indie rockers yet with a few exceptions Leeds has not been studied for its scenes in ways that other UK cities have In ways that the chapters explore Leeds popular music exemplifies and informs understandings of broader cultural and urban changes both in Britain and across wider global contexts of the social and historical significance of music as mass media music and migration music racialisation and social equity industrial decline de industrialisation neoliberalism and the rise of the 24 hour city Charting moments of stark musical politicisation and de politicisation while concomitantly tracing arguments about heritagising popular music within discussions about music s place in museums and in the urban economy this book contributes to debates about why music matters has mattered and continues to matter in Leeds and beyond

The Communication of Politics Ralph M. Negrine,1996-09-24 How should those exercising power be made more accountable and what roles should the mass media play in that process Can the public monitor the exercise of power without the existence of a strong and inquisitive media The Communication of Politics examines these and other questions vital to the debate on the media s role in the democratic process Ralph Negrine explores the complexity of the links between the media the institutional political world and the public through case studies drawn from contemporary British politics and other political systems including the United States He examines some of the often overlooked problems faced by the media in its efforts to create an informed citizenry Questioning the practices that filter information and confronting the idea that information itself is unproblematic Negrine shows why the essential task of uncovering truths remains elusive Censorship Derek Jones,2001-12-01 First published in 2002 Routledge is an imprint of Taylor Francis an informa company

Independent Television in Britain Jeremy Potter,2016-07-27 The ITV network was designed as a federation of companies different in size and character jointly and severally constructing programme schedules in which strands of entertainment were interwoven with news bulletins drama with sport feature films with documentaries church services with broadcasting for schools The purpose of this volume is to convey some impression of diversity by illustrating and illuminating the rich assortment of companies and programmes making up ITV s overall service to the public in the operation of a plural system on a single television channel during a peak period in British broadcasting *Television Policies of the Labour Party 1951-2001* Des Freedman,2004-08-02 Des Freedman explores Labour s divided response to the development of commercial television in the 1950s and assesses the impact of Wilson s governments on television in the 1960s His key argument is that Labour has always been a vigorous but ultimately unreliable advocate of television
