illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing Such approaches can yield valuable insights Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision sparseness realism are the qualities singled out for praise The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche The role of the reader spectator and critic in conferring meaning is a crucial one

analyzes the connections between religion ethnicity and survival in the fiction of two of the best known U S American ethnic authors the Nobel Prize winning African American writer Toni Morrison and the internationally acclaimed Chippewa Indian Louise Erdrich Drawing on the historical literary and theoretical background of their novels the study exposes the central role of religion in the articulation of an independent ethnic identity for both writers This interdisciplinary approach moves beyond the realm of fiction to acknowledge a distinctively ethnic understanding of religion which revises the established view of an either radically secularized or fundamentally religious U S American society Faith Matters thus offers a reinterpretation of the function of religion both in American ethnic culture and in the larger U S American context
