to record changes sometimes they need to state a consensus The 3rd Colloquium came to an agreement about the importance of prepregnancy recognition and control of abnormalities of carbohydrate metabolism The 4th set out to examine what results it had achieved Much of this book is taken up with follow up studies of the applications of similar regimes in different parts of the world Since the first Aberdeen meeting in 1973 progress in the management of diabetic pregnancy has been slow and steady but the change in the city and the society where the meetings took place has been fast Fetal Monitoring John A.
