H. Charles, 2021-12-10 A mere proposal to legalize certain drugs results in dire consequences for all involved US Senator Tom Graves s proposal to legalize drugs creates a backlash from the religious right whose opposition is unwittingly organized and funded by Carlos Renner one of Washington s many power brokers not knowing that Renner is a drug lord The opposition takes a deadly turn when a zealot detonates an explosive during the first hearing on the proposal and Graves is hospitalized During his recovery he meets Dr Victoria Bennett a woman with a complicated past Unaware of her background they become involved When tragedy later strikes Graves resorts to his combat experience in Iraq to track down her murderer who has fled to Rio Captured by Renner Graves is helped to escape by his daughter Angelica only to be tracked down and surrounded in an abandoned DEA safe house by Renner s trained assassins Escape seems impossible This book is an international thriller that shows there can be **No Escape** *Policing Patients* Elizabeth Chiarello, 2024-09-17 A book that takes you inside the culture of surveillance that pits healthcare providers against their patients Doctors and pharmacists make critical decisions every day about whether to dispense opioids that alleviate pain but fuel addiction Faced with a drug crisis that has already claimed more than a million lives legislatures courts and policymakers have enlisted the help of technology in the hopes of curtailing prescriptions and preventing deaths This book reveals how this Trojan horse technology embeds the logics of surveillance in the practice of medicine forcing care providers to police their patients while undermining public trust and

doing untold damage to those at risk Elizabeth Chiarello draws on hundreds of in depth interviews with physicians pharmacists and enforcement agents across the United States to take readers to the frontlines of the opioid crisis where medical providers must make difficult choices between treating and punishing the people in their care States now employ prescription drug monitoring programs capable of tracking all controlled substances within a state and across state lines Chiarello describes how the reliance on these databases blurs the line between medicine and criminal justice and pits pain sufferers against people with substance use disorders in a zero sum game Shedding critical light on this brave new world of healthcare Policing Patients urges medical providers to reaffirm their roles as healers and proposes invaluable policy solutions centered on treatment prevention and harm reduction

Off the Street W.A. Bogart,2016-11-12 An unflinching analysis of one of the major issues of our time the shift from criminalization to regulation of recreational drugs The war on drugs has failed The cost of trying to control the production sale and use of recreational drugs through the criminal law is too high unjust incarceration illicit markets tainted substances exploited children and an untaxed industry But there is an alternative The watchwords for governments controlling the consumption of alcohol tobacco junk food and gambling are permit but discourage All are legal but harmful consumption is decreased by targeted regulatory strategies That same approach should be adopted for drugs Legalization and regulation can attack the underground economy drive down excessive use provide revenue for prevention treatment and counselling and better protect children Off the Street Legalizing Drugs calls for a thoughtful national discussion of the legalization and regulation of recreational drugs the least bad way forward

Parlor Whales Chris Cauhapé,2021-11-12 Parlor Whales A City Hall Brawling Borderlander s Memoir of Drug Prohibition s Collateral Mayhem and How to Use America s Most Powerful Weapon to Conquer Substance Abuse By Chris Cauhap A unique plan for ending the drug overdose crisis and eliminating the black market in drugs A must read for anyone suffering an addiction in the family An intriguing very personal up close account of local politics and the devastating

unintended consequences of drug prohibition from the viewpoint of a lifelong resident of the US frontier with Mexico The author is genetically culturally linguistically historically and geographically connected to America's southern neighbor Cauhap came of age just as returning Vietnam vets taking advantage of the GI Bill's educational benefits brought back a very relaxed view of cannabis use from the battlefields of Southeast Asia and introduced that viewpoint to baby boomer classmates on college campuses throughout the US Cauhap dubs the resultant 1960s drug explosion The Big Bong Cauhap a self described Anarchistic Constitutionalist relates his experiences from harvesting lettuce and laboring at menial jobs to competing with laundered drug money and convict labor in the business world He exposes how Corporate Socialism on the local level has bilked the taxpayer and how politicians obsession with incarceration has undermined societal tranquility and the very infrastructure of the entire nation while providing a world class education in criminal activity for American jailbirds on the dime of law abiding college students Through more than a half century of research and personal observation Cauhap indicts drug prohibition as the number one cause of drug abuse He chronicles drug policy's collateral damage in his own environment by citing crime in his barrio and the substance abuse related murders of friends neighbors and employees Parlor Whales offers a solution to chemical dependence and its monstrous baggage by utilizing the same devastating weapon that vanquished America's opponents in The Second World War and the Space Race That same weapon was the knockout punch in mankind's victories over many other diseases that have haunted our species since day one North Eastern Reporter ,1976 **State Laws and Published Ordinances, Firearms** ,1981 **The Guardian Index** ,1988
