The New American Story Bill

Bradley, 2007-03-27 Politics is stuck writes Bill Bradley in this insightful informative and provocative book about America at a crossroads but idealism isn't dead It can be reawakened What will it take to make America a better stronger truer country asks the bestselling author former Knicks star and onetime presidential candidate Bill Bradley believes that America is at a teachable moment when we are compelled to reevaluate our political system our leadership our agenda as a nation and ourselves as citizens With clarity and urgency Bradley shows why the story we are being told now about who we are as a people is not true He then offers a new story about our nation based on America's rich heritage and his belief in the character of the American people Bradley explores what changes need to be made in our parties in our politics and in citizen activism to ensure America's future He asserts that the American people are ready for the truth and suggests that the party that chooses to embrace this new story will be in power for a generation Writing from his own experience in politics and drawing on his knowledge of history Bradley shows how the Republican Party has built a solid pyramid structure since the 1970s at the base of which are money ideas and media whereas the Democratic Party's structure is an inverted pyramid with too much emphasis put on the need for a charismatic leader to hold the pyramid up Each party for different reasons fails to deal with the real issues that now confront America This informed and inspiring call to action is addressed not only to the

parties and elected leaders but to citizens as well Bradley proposes things every American can do to shape our nation's future He points out that if eighty percent of the electorate voted instead of fifty percent it would be the most important change in American politics since women got the vote Now more than ever he says we need to embrace an ethic of connectedness a combination of collective action and individual responsibility to solve our nation's most pressing problems and he argues that the fate of all countries is bound together as never before Writing today with the freedom of a private citizen Bradley provides this transformative and eye opening book about the danger and the promise of America's choice at this crucial moment in the nation's history *My 20+ Years In America.
