Cultural Resources Archaeology Thomas W. Neumann, Robert M. Sanford, Karen G. Harry, 2010-01-16 Most students who pursue a career in archaeology will find employment in cultural resource management CRM rather than in academia or traditional fieldwork It is CRM the protection and preservation of archaeological and other resources that offers the jobs and provides the funding Few textbooks however are dedicated to teaching students the techniques and practices of this field Cultural Resources Archaeology now brought completely up date in this second edition and replete with new case studies from the western U S fills in the gap Drawing on their decades of teaching and field experience the authors walk students through the intricacies of CRM They clearly describe the processes of designing a project conducting assessment testing doing essential mitigation work Phases I II and III and preparing reports The book s emphasis on real world problems and issues use of extensive examples from around the country and practical advice on everything from law to logistics make it an ideal teaching tool for archaeology students who dream of becoming practicing archaeologists

Assessing Site Significance Donald L. Hardesty, Barbara J. Little, 2009-03-16 *Assessing Site Significance* is an invaluable resource for archaeologists and others who need guidance in determining whether sites are eligible for listing in the National Register of Historic Places NRHP Because the register s eligibility

criteria were largely developed for standing sites it is difficult to know in any particular case whether a site known primarily through archaeological work has sufficient historical significance to be listed Hardesty and Little address these challenges describing how to file for NRHP eligibility and how to determine the historical significance of archaeological properties This second edition brings everything up to date and includes new material on 17th and 18th century sites traditional cultural properties shipwrecks Japanese internment camps and military properties
