Presidential Temples Benjamin Hufbauer,2005 This book explores the visual and material cultures of presidential commemoration memorials and monuments libraries and archives and the problematic ways in which presidents themselves have largely taken over their own commemoration The author sees these various commemorative sites as playing a key role in the construction of our collective political and cultural self images and as another sign of our preoccupation with celebrity culture Ultimately he contends these presidential temples reflect not only our civil religion but also the extraordinary expansion of executive authority and presidential self commemoration since FDR      **Presidential Retreats** Peter Hannaford,2012-10-30 A fascinating history of U S presidential vacation spots collected for the first time in one guide that covers everything from Mount Vernon to Kennebunkport to Camp David Where do you go to relax when you re the leader of the free world Even the president needs to get away from it all sometimes From George Washington to Barack Obama each of our presidents has sought solace from the tightly structured daily routines of the White House As Ronald Reagan once said of his California ranch I do some of my best thinking there Peter Hannaford takes readers on a fascinating armchair vacation with each of our leaders offering unique historical context for the why and the where of their chosen retreats Which president asked visiting foreign dignitaries to send him seeds to plant at his family home Who called his vacation property Sherwood Forest because it was a good place for an outlaw Which adventure loving Commander in Chief set up a Summer White House in New York every year Who liked to cruise aboard the presidential yacht when faced with momentous wartime decisions Who polled the American people to help him decide where to vacation *Presidential Retreats* explores a side of the American presidency that we don t often see the downtime as it offers an intriguing glimpse at the evolution of leisure time in this country      *Virginia's Presidential Homes* Patrick L. O'Neill,2010-09-27 *Images of America Virginias Presidential Homes* takes a visual excursion to the homes of the eight Virginia born men who served as president of the United States George Washington Thomas Jefferson James Madison James Monroe William Henry Harrison John Tyler Zachary Taylor and Woodrow Wilson Virginia nicknamed the Mother of Presidents is the birthplace of these eight men who were key to the success of the American Revolution the forming of the U S government the War of 1812 the annexation of Texas the Mexican American War and World War I Coming from diverse backgrounds and classes their residences ranged from simple wood frame structures to elegant brick pillared mansions and estates Through images and drawings this book will bring to life their homes and family life      **Creating the American West** Derek R. Everett,2014-05-27 Boundaries lines imposed on the landscape shape our lives dictating everything from which candidates we vote for to what schools our children attend to the communities with which we identify In *Creating the American West* historian Derek R Everett examines the function of these

internal lines in American history generally and in the West in particular Drawing lines to create states in the trans Mississippi West he points out imposed a specific form of political organization that made the West truly American Everett examines how settlers lobbied for boundaries and how politicians imposed them He examines the origins of boundary making in the United States from the colonial era through the Louisiana Purchase Case studies then explore the ethnic sectional political and economic angles of boundaries Everett first examines the boundaries between Arkansas and its neighboring Native cultures and the pseudo war between Missouri and Iowa He then traces the lines splitting the Oregon Country and the states of California and Nevada and considers the ethnic and political consequences of the boundary between New Mexico and Colorado He explains the evolution of the line splitting the Dakotas and concludes with a discussion of ways in which state boundaries can contribute toward new interpretations of borderlands history A major theme in the history of state boundaries is the question of whether to use geometric or geographic lines in other words lines corresponding to parallels and meridians or those fashioned by natural features With the distribution of western land Everett shows geography gave way to geometry and transformed the West The end of boundary making in the late nineteenth century is not the end of the story however These lines continue to complicate a host of issues including water rights taxes political representation and immigration Creating the American West shows how the past continues to shape the present Borrowed Narratives Harold Ivan Smith, 2012-04-27 What do Dexter King Condoleezza Rice Mackenzie King Corazon Aquino Eleanor Roosevelt Bill Cosby Tony Dungy Theodore Roosevelt George H W and Barbara Bush Caroline Kennedy Arthur Ashe Lady Bird Johnson Colin Powell and C S Lewis have in common They all have significant grief experiences that have shaped their lives in dramatic ways stories that have also shaped our lives Grieving individuals through borrowing narratives look for inspiration in biographic historical and memoir accounts of political and religious leaders celebrities sports figures and cultural icons In a time of diminishing trust in heroes and sainted leaders who will speak to us from their grief In a diverse society grief counselors and educators need to identify and mine the experienced griefs of historical personalities for resources for reflection and meaning making This book will help readers find read evaluate extract and adapt historical biographical materials create bio narrative resources for use in grief counseling and grief education explore the wide diversity of experienced grief in biographical narratives identify ways to harness grief narratives for personal reflection
