

# Summary

- Members of Congress make policy.
- They have a sizeable incumbency advantage.
- Congress is structurally complex.
- Presidents, parties, constituencies, and interest groups all affect legislators' vote choices.

# Presidents Politics Policy

**Lori Cox Han**

## **Presidents Politics Policy:**

**Presidents, Politics, and Policy** Erwin C. Hargrove, Michael Nelson, 1984 This book argues that presidential power is a mixture of constitutional cultural and political and individual elements that manifest themselves in recurring historical cycles of politics and policy

*Presidential Leadership* George C. Edwards III, Kenneth R. Mayer, Stephen J. Wayne, 2024-01-24 This classic text on the American presidency analyzes the institution and the presidents who hold the office through the key lens of leadership Edwards Mayer and Wayne explain the leadership dilemma presidents face and their institutional political and personal capacities to meet it Two models of presidential leadership help us understand the institution one in which a strong president dominates the political environment as a director of change and another in which the president performs a more limited role as facilitator of change Each model provides an insightful perspectives to better understand leadership in the modern presidency and to evaluate the performance of individual presidents With no simple formula for presidential success and no partisan perspective driving the analysis the authors help us understand that presidents and citizens alike must understand the nature of presidential leadership in a pluralistic system in which separate institutions share powers This fully revised thirteenth edition is fully updated through the Biden administration with recent policy developments the 2022 midterm elections changes to the media environment and the latest data

**The Politics of the Presidency** Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2017-07-06 Trace the opening rounds of the Trump administration highlighting the 2016 election transition inauguration and first one hundred days Never losing sight of the foundations of the office The Politics of the Presidency maintains a balance between historical context the current political environment and contemporary scholarship on the executive branch providing a solid foundation for any presidency course In addition to offering readers a comprehensive framework for understanding the expectations powers and limitations of the executive branch the Revised Ninth Edition uses the most up to date coverage and analysis of the 2016 election and Trump administration to demonstrate key concepts New to the Revised Ninth Edition A new chapter dedicated to the Trump transition and first one hundred days examines important topics such as the immigration ban and other executive orders efforts at deregulation the targeted military strikes in Syria and the war on the intelligence community and the deconstruction of the administrative state Recent congressional relations analyzed including the confirmation of Supreme Court justice Neil Gorsuch after Senate Republicans employed the nuclear option and took away the opportunity to filibuster Supreme Court nominees efforts to repeal and replace Obamacare fiscal 2017 and 2018 budget negotiations and congressional investigations of the Trump campaign s ties to Russia his firing of FBI director James Comey and the appointment of a special counsel in the matter An assessment of the public presidency reviews Trump s approval ratings communications strategies and media coverage Discussions of Trump s leadership challenges in a polarized age explain the difficulties of unifying a nation after a bitter election launching an administration and structuring the executive branch

*The Politics of the Presidency, Revised 8th Edition* Joseph A. Pika, John Anthony Maltese, 2013-07-15 Never losing sight of the historical foundations of the office of President of the United States the authors maintain a delicate balance as they examine the presidency through a modern lens

*The Fifth French Republic: Presidents, Politics and Personalities* Philip Thody, 2002-01-31 The Fifth French Republic is a study of modern French politics and history discussing the five presidents who span from 1959 to the present Charles de Gaulle Georges Pompidou Valéry Giscard d'Estaing François Mitterrand and Jacques Chirac Philip Thody examines the importance of the similarities between the five men for an understanding of the general and political culture of France the similarities and differences in the foreign policies pursued by the five presidents including anti Americanism France's role in the European Union and her attitude to the Cold War French domestic policies and administrative practices attempts to decentralize the state the role of the French civil service the problem of immigration and the rise of the National Front

*Black Presidential Politics in America* Ronald W. Walters, 1988-01-01 Assesses how Blacks have used presidential elections to exercise their political influence and looks at primaries party conventions behind the scenes bargaining and the general election

*The Politics of Presidential Appointments* David E. Lewis, 2010-12-16 In the wake of Hurricane Katrina many questioned whether the large number of political appointees in the Federal Emergency Management Agency contributed to the agency's poor handling of the catastrophe ultimately costing hundreds of lives and causing immeasurable pain and suffering The Politics of Presidential Appointments examines in depth how and why presidents use political appointees and how their choices impact government performance for better or worse One way presidents can influence the permanent bureaucracy is by filling key posts with people who are sympathetic to their policy goals But if the president's appointees lack competence and an agency fails in its mission as with Katrina the president is accused of employing his friends and allies to the detriment of the public Through case studies and cutting edge analysis David Lewis takes a fascinating look at presidential appointments dating back to the 1960s to learn which jobs went to appointees which agencies were more likely to have appointees how the use of appointees varied by administration and how it affected agency performance He argues that presidents politicize even when it hurts performance and often with support from Congress because they need agencies to be responsive to presidential direction He shows how agency missions and personnel and whether they line up with the president's vision determine which agencies presidents target with appointees and he sheds new light on the important role patronage plays in appointment decisions

*Presidents and Political Scandal* Richard P. Barberio, 2020-07-18 This book explores presidential power through an analysis of the ways that U.S. presidents attempt to manage scandals While presidents routinely stonewall to block or limit investigations into their alleged transgressions or in some cases cooperate with investigators this book proposes the existence of a third way of responding to scandals a backfire or the creation of a counter scandal to try to extinguish the original scandal The existence of possible backfires is surveyed through case studies of the major scandals that impacted the Nixon Reagan Clinton and Trump

administrations The development of this form of scandal response has meaningful implications concerning the growth of presidential power and its impacts on the functioning of the U S political system and the quality of American democracy Changes in partisanship the media environment and the public s view of the presidency and government are topics covered in the book s explanation of the trends in scandal responses

**The Politics of the Presidency** John Anthony Maltese, Andrew Rudalevige, Joseph A. Pika, 2025-02-24 Get insightful coverage and analysis of the U S presidency with this comprehensive text Never losing sight of the foundations of the office The Politics of the Presidency maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course In this Revised Eleventh Edition Maltese Rudalevige and Pika thoroughly analyze the change and continuity following the November 2024 presidential election

**Latin America's International Relations and Their Domestic Consequences** Jorge I. Domínguez, 1994 First Published in 1994 Routledge is an imprint of Taylor Francis an informa company

Investigating the President Douglas L. Kriner, Eric Schickler, 2016 Cover Title Copyright Dedication Contents List of Tables and Figures Acknowledgments CHAPTER 1 Introduction CHAPTER 2 When Congress Investigates CHAPTER 3 Investigations and Public Opinion CHAPTER 4 The Direct Influence of Congressional Investigations on Policy Outcomes CHAPTER 5 The Indirect Influence of Congressional Investigations on Policy Outcomes CHAPTER 6 Investigations in the Age of Obama CHAPTER 7 Conclusion References Index

**Politics, Policy, and Organizations** George A. Krause, Kenneth J. Meier, 2009-12-14 This groundbreaking work provides a new and more accurate guide to the interactions of bureaucracies with other political institutions and the public at large Jacket

Budgetary Politics in American Governments James J. Gosling, 2006 Budgetary Politics in American Governments unlike most public budgeting texts takes a comparative approach to the subject of public budgeting examining budgetary politics at the federal state and local government levels Students are introduced to the budgetary decision making process taxation spending budget execution and financial management as well as the budget process at each level of government Thoroughly updated but preserving much of the third edition s structure and approach this fourth edition contains a new chapter that will introduce students to the interrelationship of economics and politics in budgeting

**New Directions in the American Presidency** Lori Cox Han, 2017-10-06 Especially coming out of the landmark presidential elections of 2008 and 2016 the study of the American presidency both as a political institution and of those who have held the office is one of the most fascinating and dynamic fields of study within American government New Directions in the American Presidency takes a current look at the various issues facing the contemporary presidency and provides a state of the art overview of current trends in the field of presidency research This volume of original chapters by leading presidential scholars is designed to include all the essential topics covered in an undergraduate level presidency course or a graduate level seminar while also bringing together key disciplinary debates and treatment of important current real world developments Each chapter is written with students in

mind so that it remains accessible interesting and engaging New to the Second Edition New key chapters on presidents and political parties and presidential leadership essential following the 2016 presidential election A fresh approach to the President and the Constitution and the President and domestic policymaking are provided by new authors for these foundational chapters All chapters have been revised with updates coming out the 2016 election especially in relation to presidential campaign politics media and the Supreme Court Presidential Institutions and Democratic Politics Kurt von Mettenheim, 1997 While many comparative analysts see parliamentary government as essential for stable democracy this volume argues that the American presidential system that separates and diffuses power can provide new perspectives for those building democratic institutions in Latin America Eastern Europe and the new republics of the former Soviet Union The authors recognize risks of rigidity gridlock and excessive centralization in presidential institutions But they also emphasize the unexpected levels of legislative productivity during periods of divided government the dramatic reversal of declining popularity by Presidents Reagan and Clinton and the importance of direct appeals by presidents to the nation After examining the American presidential system the authors focus on the de facto separation of powers in European parliaments and presidentialism in France Latin America and Eastern Europe Both trends in European parliamentary systems and the dramatic changes within French presidential institutions suggest that scholars should temper broad generalizations about presidential or parliamentary government *Public Papers of the Presidents of the United States* United States.

President, 2000 Containing the public messages speeches and statements of the President 1956 1992 **Presidential Lightning Rods** Richard J. Ellis, 1994 Choice Outstanding Title H R Haldeman President Nixon's former chief of staff is said to have boasted Every president needs a son of a bitch and I'm Nixon's I'm his buffer and I'm his bastard I get done what he wants done and I take the heat instead of him Richard Ellis explores the widely discussed but poorly understood phenomenon of presidential lightning rods cabinet officials who take the heat instead of their bosses Whether by intent or circumstance these officials divert criticism and blame away from their presidents The phenomenon is so common that it's assumed to be an essential item in every president's managerial toolbox But Ellis argues such assumptions can oversimplify our understanding of this tool Ellis advises against indiscriminate use of the lightning rod metaphor Such labeling can hide as much as it reveals about presidential administration and policymaking at the cabinet level The metaphor often misleads by suggesting strategic intent on the president's part while obscuring the calculations and objectives of presidential adversaries and the lightning rods themselves Ellis also illuminates the opportunities and difficulties that various presidential posts especially secretaries of state chiefs of staff and vice presidents have offered for deflecting blame from our presidents His study offers numerous detailed and instructive examples from the administrations of Truman Dean Acheson Eisenhower Richard Nixon John Foster Dulles Herbert Brownell and Ezra Taft Benson LBJ Hubert Humphrey Ford Henry Kissinger and Reagan James Watt These examples Ellis suggests should guide our understanding of the relationship between lightning rods

and presidential leadership policymaking and ratings Blame avoidance he warns does have its limitations and may even backfire at times Nevertheless President Clinton and his successors may need to rely on such tools The presidency Ellis points out finds itself the object of increasingly intense partisan debate and microscopic scrutiny by a wary press Lightning rods can deflect such heat and help the president test policies gauge public opinion and protect his political power and public image Ellis s book is an essential primer for helping us understand this process

**American Political Development and the Trump Presidency** Zachary Callen, Philip Rocco, 2020-03-13 Leading political scientists analyze the presidency of Donald Trump and its impact on the future of American politics In virtually all respects the Trump presidency has disrupted patterns of presidential governance However does Trump signify a disruption not merely in political style but in regime type in the United States Assessing Trump s potential impact on democratic institutions requires an analysis of how these institutions including especially the executive branch have developed over time as well as an examination of the intersecting evolution of political parties racial ideologies and governing mechanisms To explore how time and temporality have shaped the Trump presidency editors Zachary Callen and Philip Rocco have brought together scholars in the research tradition of American political development APD which explicitly aims to consider how interactions between a range of institutions result in the shifting of power and authority in American politics with careful attention paid to complex processes unfolding over time By focusing on the factors that contribute to both continuity and change in American politics APD is ideally situated to take a long view and help make sense of the Trump presidency American Political Development and the Trump Presidency features contributions by leading political scientists grappling with the reasons why Donald Trump was elected and the meaning of his presidency for the future of American politics Taking a historical and comparative approach instead of viewing Trump s election as a singular moment in American politics the essays here consider how Trump s election coincides with larger changes in democratic ideals institutional structures long standing biases and demographic trends The Trump presidency as this volume demonstrates emerged from a gradual unsettling of ideational and institutional lineages In turn these essays consider how Trump s disruptive style of governance may further unsettle the formal and informal rules of American political life Contributors William D Adler Gwendoline Alphonso Julia R Azari Zachary Callen Megan Ming Francis Daniel J Galvin Travis M Johnston Andrew S Kelly Robert C Lieberman Paul Nolette Philip Rocco Adam Sheingate Chloe Thurston

**The Oxford Handbook of Religion and American Politics** Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion s role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely

unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene     *The Presidency and the Political System* Michael Nelson,2020-07-17 The Presidency and the Political System showcases the best of presidential studies and research with top notch presidency scholars writing specifically for an undergraduate audience Michael Nelson rigorously edits each contribution to present a set of analytical yet accessible chapters and offers contextual headnotes introducing each essay Chapters represent the full range of topics institutions and issues relevant to understanding the American presidency covering approaches to studying the presidency elements of presidential power presidential selection presidents and politics and presidents and government This Twelfth Edition fully incorporates coverage of the Trump administration

## The Enigmatic Realm of **Presidents Politics Policy**: Unleashing the Language is Inner Magic
