Press And People 1790 1850 Opinion In Three English Cities

Angela M. Leonard

Press And People 1790 1850 Opinion In Three English Cities:

Press and People, 1790-1850 Donald Read,1975 Visions of the Press in Britain, 1850-1950 Mark Hampton,2004 Hampton surveys a diversity of sources to demonstrate that British theories of the press were intimately tied to definitions of the public and the emergence of mass democracy in the late nineteenth and early twentieth centuries **Newspapers and English Society 1695-1855** Hannah Barker,2014-06-17 This lively new study covers the dramatic expansion of the press from the seventeenth century to the mid nineteenth century Hannah Barker explores the factors behind the rise of newspapers to a major force helping to reflect and shape public opinion and altering the way in which politics operated at every level of English life Newspapers Politics and English Society 1695 1855 provides a unique insight into the political and social history of eighteenth and nineteenth century England as well as an important study of the history of the media **The English Press in the Eighteenth Century (Routledge Revivals)** Jeremy Black,2010-10-18 First published in 1987 this is a comprehensive analysis of the rise of the British Press in the eighteenth century as a component of the understanding of eighteenth century political and social history Professor Black considers the reasons for the growth of the print culture and the relations of newspapers to magazines and pamphlets the mechanics of circulation and chronological developments Extensively illustrated with quotations from newspapers of the time the book is a lively as well as original and informative treatment of a topic that must remain of first importance for the literate historian *The Eternal Paddy* Michael de Nie,2004-07 In *The Eternal Paddy* Michael de Nie examines anti Irish prejudice Anglo Irish relations and the construction of Irish and British identities in nineteenth century Britain This book provides a new more inclusive approach to the study of Irish identity as perceived by Britons and demonstrates that ideas of race were inextricably connected with class concerns and religious prejudice in popular views of both peoples De Nie suggests that while traditional anti Irish stereotypes were fundamental to British views of Ireland equally important were a collection of sympathetic discourses and a self awareness of British prejudice In the pages of the British newspaper press this dialogue created a deep ambivalence about the Irish people an ambivalence that allowed most Britons to assume that the root of Ireland s difficulties lay in its Irishness Drawing on more than ninety newspapers published in England Scotland and Wales *The Eternal Paddy* offers the first major detailed analysis of British press coverage of Ireland over the course of the nineteenth century This book traces the evolution of popular understandings and proposed solutions to the Irish question focusing particularly on the interrelationship between the press the public and the politicians The work also engages with ongoing studies of imperialism and British identity exploring the role of Catholic Ireland in British perceptions of their own identity and their empire **Political Poetry as Discourse** Angela M. Leonard,2010-01-01 *Political Poetry as Discourse* examines the works of the political poets John Greenleaf Whittier and Ebenezer Elliott drawing comparisons to contemporary hip hoppers who take their words from local newspapers and other discursive sources that they read hear and observe Local presses and news vehicles stand as cultural material forms

that supply poets with words particularly words that congeal into patterns of language allowing the creation of a poetic discourse As readers of these poets apply techniques and theories of discourse analysis they reveal how poets borrow lift hijack or resituate words from one or more different genres to use as tools of political change Leonard engages with the critical toolboxes of content analysis semiosis and deconstruction to demonstrate how to critically investigate and interrogate the images sounds and words not just of politically engaged poets but also of any disseminator of culture and news Moving beyond theory into praxis this book becomes a model of its own transgressive premise by thinking analyzing writing and teaching against the grain Its focus on language as unbounded discourse makes this book a relevant and insightful demonstration in democratic pedagogy and in teaching for transformation

Imagining the Middle Class

Dror Wahrman,1995-07-13 Why and how did the British people come to see themselves as living in a society centred around a middle class The answer provided by Professor Wahrman challenges most prevalent historical narratives the key to understanding changes in conceptualisations of society the author argues lies not in underlying transformations of social structure in this case industrialisation which supposedly created and empowered the middle class but rather in changing political configurations Firmly grounded in a close reading of an extensive array of sources and supported by comparative perspectives on France and America the book offers a nuanced model for the interplay between social reality politics and the languages of class

The Politics of Britain, 1688-1800 Jeremy Black,1993 This study provides a comprehensive analysis of both the structures of 18th century politics national and local and the major issues that provided the dynamics of a period that was far from static The author considers the position not only in England but also in Scotland Ireland and Wales The central emphasis of the book is on the interrelationship of political structure and content Jeremy Black argues that power was not solely sought for its own sake but also in order to advance or sustain particular policies and interests He also stresses that this was true not only of Whitehall Westminster and royal palaces centring around London but also of parish vestries town councils and commissions of the peace throughout the country This study is intended as an introductory textbook for students In addition to its analysis the book acquaints students with the most recent historiographical developments in the subject and the text is also supported by a section of documents

Childhood and Child Labour in Industrial England Katrina Honeyman,2016-05-23 The purpose of this collection is to bring together representative examples of the most recent work that is taking an understanding of children and childhood in new directions The two key overarching themes are diversity social economic geographical and cultural and agency the need to see children in industrial England as participants even protagonists in the process of historical change not simply as passive recipients or victims Contributors address such crucial subjects as the varied experience of work poverty and apprenticeship institutional care the political voice of children child sexual abuse and children and education This volume therefore includes some of the best innovative work on the history of children and childhood currently being written by both younger and established scholars

Creating

a Public James L. Huffman,1997-01-01 No institution did more to create a modern citizenry than the newspaper press of the Meiji period 1868 1912 Here was a collection of highly diverse private voices that provided increasing numbers of readers many millions by the end of the period with both its fresh picture of the world and a changing sense of its own place in that world Creating a Public is the first comprehensive history of Japan s early newspaper press to appear in English in more than half a century Drawing on decades of research in newspaper articles and editorials journalists memoirs and essays government documents and press analyses it tells the story of Japan s newspaper press from its elitist beginnings just before the fall of the Tokugawa regime through its years as a shaper of a new political system in the 1880s to its emergence as a nationalistic often sensational medium early in the twentieth century More than an institutional study this work not only traces the evolution of the press leading papers their changing approaches to circulation news and advertising and the personalities of their leading editors it also examines the interplay between Japan s elite institutions and its rising urban working classes from a wholly new perspective that of the press What emerges is the transformation of Japan s commoners minshu from uninformed disconnected subjects to active citizens in the national political process a modern public Conversely minshu begin to play a decisive role in making Japan s newspapers livelier more sensational and more influential As Huffman states in his Introduction The newspapers turned the people into citizens the people turned the papers into mass media In addition to providing new perspectives on Meiji society and political life Creating a Public addresses themes important to the study of mass media around the world the conflict between social responsibility and commercialization the role of the press in spurring national development the interplay between readers tastes and editors principles the impact of sensationalism on national social and political life Huffman raises these issues in a comparative context relating the Meiji press to American and Japanese press systems at similar points of development With its broad coverage of the press role in modernizing Japan Creating a Public will be of great interest to students of mass media in general as well as specialists of Japanese history

Late Georgian and Regency England, 1760-1837 Robert A. Smith,2004-07-08 A guide to historical literature on England between 1760 and 1837 emphasising more recent work **The Politics of Songs in Eighteenth-Century Britain,**

1723-1795 Kate Horgan,2015-10-06 Horgan analyses the importance of songs in British eighteenth century culture with specific reference to their political meaning Using an interdisciplinary methodology combining the perspectives of literary studies and cultural history the utilitarian power of songs emerges across four major case studies Routledge Library Editions: Education Mini-Set L Sociology of Education Various,2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization **Knowledge Dissemination in the Long Nineteenth Century** Marina Dossena,Stefano Rosso,2016-06-22 Distinctive in its markedly interdisciplinary approach this book presents

studies dealing with literary cultural and linguistic history both in Europe and in the US bringing together scholars from different fields while highlighting features that are shared among their contributions It offers new insights into phenomena which have generally been under investigated such as the role played by popular culture music and the arts in the circulation of information in the construction of popular taste and even in scientific popularisation on both sides of the Atlantic As for the choice to focus on the nineteenth century this is dictated by the fact that in those decades for the first time in history scientific technological and social developments accelerated simultaneously It is therefore important to see how such new knowledge was circulated among an ever growing audience by means of different genres and text types bearing in mind that divisions between the literary and non literary were hardly as sharp as they are today The book presents contributions by Robert Louis Abrahamson Nicholas Brownlees Bruno Cartosio Sonia Di Loreto Aileen Dillane Marina Dossena Kirsten Lawson Angela Locatelli William H Mulligan Jr Stefano Rosso and Polina Shvanyukova

Politics and the Mass Media in Britain

Ralph Negrine, 2003-09-02 This fully updated new edition of *Politics and the Mass Media* provides a comprehensive introduction to the role of mass communications in politics at all levels from election campaigns news reports and lobbying groups to the media activities of pressure groups The relationship between politics politicians and the media is a matter of increasingly contentious debate as politicians awareness of the importance of the media becomes more sophisticated amidst rapidly advancing media technology and control Providing a review of the nature and content of political communications and of recent theoretical developments Negrine addresses the issues surrounding today s mass media including cable and satellite television investigation of the press the relationship between the state and broadcasting institutions and the ever present question of whether or not Britain needs a media policy This new edition includes Case studies from television and the press Fully revised text with updated sections on the press broadcasting and media legislation Brand new chapters on Europe and globalisation

Dictionary of Nineteenth-century Journalism in Great Britain and Ireland Laurel Brake, Marysa Demoor, 2009 A large scale reference work covering the journalism industry in 19th Century Britain

Electoral Reform at Work Philip Salmon, 2002 This book charts the political transformation of Britain that resulted from the Great Reform Act of 1832 It argues that this extensively debated parliamentary reform aided by the workings of the New Poor Law 1834 and Municipal Corporations Act 1835 moved the nation far closer to a modern type of representative system than has previously been supposed Drawing on hitherto neglected local archives and the records of election solicitors Dr Salmon demonstrates how the Reform Act s practical details far from being mere small print had a profound impact on borough and county politics Combining computer assisted electoral analysis with traditional methods he traces the emergence of new types of voter partisanship and party organisation after 1832 and exposes key differences between the parties which resulted in a remarkable national recovery by the Conservative party In passing he provides important new perspectives on issues such as MPs relations with their constituents the expense and culture of popular politics after 1832 the electoral impact of railway

development and the role of deference voting in the counties Dr PHILIP SALMON is Editor of the 1832 1945 House of Commons project at the History of Parliament *Crowds and History* Mark Harrison,2002-06-20 A fresh look at the crowd in relation to the urbanising process and the civic culture it inspired **Celebrities, heroes and champions** Simon James Morgan,2021-06-29 Celebrities heroes and champions explores the role of the popular politician in British and Irish society from the Napoleonic Wars to the Second Reform Act of 1867 Covering movements for parliamentary reform up to and including Chartism Catholic Emancipation transatlantic Anti Slavery and the Anti Corn Law League as well as the receptions of international celebrities such as Lajos Kossuth and Giuseppe Garibaldi it offers a unique perspective on the connections between politics and historical cultures of fame and celebrity This book will interest students and scholars of Britain Ireland continental Europe and North America in the nineteenth century as well as general readers with an interest in the history of popular politics Its exploration of the relationship between politics and celebrity and the methods through which public reputations have been promoted and manipulated for political ends have clear contemporary relevance [The Economics of Emancipation](#) Kathleen Mary Butler,2017-12-15 The British Slavery Abolition Act of 1834 provided a grant of u20 million to compensate the owners of West Indian slaves for the loss of their human property In this first comparative analysis of the impact of the award on the colonies Mary Butler focuses on Jamaica and Barbados two of Britain s premier sugar islands The Economics of Emancipation examines the effect of compensated emancipation on colonial credit landownership plantation land values and the broader spheres of international trade and finance Butler also brings the role and status of women as creditors and plantation owners into focus for the first time Through her analysis of rarely used chancery court records attorneys letters and compensation returns Butler underscores the fragility of the colonial economies of Jamaica and Barbados illustrates the changing relationship between planters and merchants and offers new insights into the social and political history of the West Indies and Britain
