Press Freedom And Global Politics:

Press Freedom and Global Politics Douglas A. Van Belle, 2000-04-30 Van Belle provides the first systematic analysis of the effects that press freedom has on the conduct of international politics. The institutionalization of press freedoms within a state and the free flow of information between the free presses of different nations creates a foreign policy decision making environment that systematically limits policy options, generates domestic political imperatives and provides specific benefits to a leader. This shapes some aspects of foreign policy in a consistent and empirically identifiable manner, most notably by limiting international conflicts. When social psychological propositions regarding dehumanization and the acceptance of killing in war are introduced to Van Belle's model, shared press freedom is shown to provide a mechanism that prevents lethal conflicts. The effects of press freedom on international conflict, particularly on hypotheses related to escalating conflicts beyond the threshold of casualties, are quite robust. However, Van Belle indicates there is no evidence of a complimentary effect on cooperation. The combination of findings from the empirical analyses suggest that the key to the effects of press freedom center on the creation of images such as the dehumanized image of an enemy. A thoughtful analysis that scholars and researchers of foreign policy and international relations as well as journalism and mass communication will find particularly useful.

Press Freedom and Global Politics Douglas A. Van Belle, 2000-04-30 This text provides a systematic analysis of the effects that press freedom has on the conduct of international politics with particular reference to the foreign policy decision making environment.

The New Global Politics of the Asia-Pacific Michael K. Connors, Rémy Davison, Jörn Dosch, 2017-10-30 Now in its new and fully updated third edition, *The New Global Politics of the Asia Pacific* continues to provide a compelling analysis of a region undergoing dramatic changes. Based on new research and offering fresh interpretation, this edition evaluates the prospects for continuing US dominance in the Asian Century. Whilst presenting evidence for a multifaceted Beijing Strategy which aims to counter the US by building an alternative regional order, it also explains Japan's definitive departure from its limited military role. Providing an introductory guide for the main frameworks needed to understand the region, including realism, liberalism and critical theory, this new edition is reader friendly and offers sophisticated competing explanations. Key content includes intra-regional conflicts in the South China Sea and the Korean peninsula; the different responses within the Asia Pacific to the globalization of Western ideas of democracy and political economy; the underappreciated success of the Association of Southeast Asian Nations in building a regional identity; the European Union's soft power in the region. A highly topical account which offers an overview of the main actors, institutions and contemporary issues in the Asia Pacific, the book will be essential reading for undergraduate students of Asian Studies, International Politics and anyone interested in the region.

The Greater Middle East in Global Politics Mehdi Amineh, 2007-10-30 This anthology unites in one volume two studies of the Greater Middle East in global politics, each conceptual and empirical. First, it is a historical comparative study of politics and societies in selected Greater Middle Eastern

countries from Napoleon's invasion of Ottoman Egypt in 1798 up until today. It addresses development and change in these societies as results of the complex interactions between external developments, the rise and expansion of European industrialized powers and internal developments, the disintegration of Islamic Empires, their transformation into nation states and their efforts to industrialize and modernize. Second, it is an empirical case study of states and societies of the Greater Middle East in global politics, addressing themes such as nationalism, revolution, political Islam, democracy, globalization, regionalism, war, energy and conflict, and cooperation. The book is comprised of three parts and nineteen chapters. Contributors include Mehdi Parvizi, Amineh Simon, Bromley, Robert M. Cutler, Louisa Dris, A. t. Hamadouche, S. N. Eisenstadt, Femke Hoogeveen, Henk Houweling, B. M. Jain, Mehran Kamrava, Roger Kangas, Fred H. Lawson, Prithvi Ram Mudiam, Nilgun Onder, Wilbur Perlot, Richard Pomfret, Kurt W. Radtke, Mirzohid Rahimov, Eva Patricia Rakel, and Yahia H. Zoubir. *Handbook of Research Methods in International Relations* Huddleston, R. J., Jamieson, Thomas, James, Patrick, 2022-08-05. Global Politics Jenny Edkins, Maja Zehfuss, Thomas Gregory, 2025-01-31. *Global Politics: A New Introduction* engages directly with questions that those coming to the study of world politics bring with them. Revised and updated throughout, the fourth edition offers examples engaging with the latest developments in global politics: the climate crisis and anthropocentrism, Indigenous experiences and thinking, racism and the rise of xenophobia, artificial intelligence, citizen journalism, global health and pandemic response, and drone warfare. *Global Politics* examines most significant issues in global politics: poverty, development, colonialism, human rights, gender inequality, race, war, peacebuilding, security, violence, nationalism, authority, and what we can do to change the world. Offers chapters written to a common structure ideal for teaching and learning and features a key question, an illustrative example, general responses, and broader issues. Integrates theory and practice throughout the text, drawing on international relations, political theory, postcolonial studies, sociology, geography, peace studies, and development. Contemporary International Trends 18-09-2025,□□□□□□□□ □□□.□ This book emerges from a period of profound transformation in international politics As we navigate the complex terrain of the 21st century traditional frameworks for understanding global affairs have proven increasingly inadequate The post Cold War optimism about liberal internationalism has given way to a more complicated reality characterized by multiple centers of power diverse forms of governance and interconnected challenges that transcend traditional boundaries In conceptualizing this project I have drawn inspiration from Amitav Acharya s notion of a Multiplex Era an international system that resembles a multiplex cinema where different movies or in this case different international orders run simultaneously on other screens with viewers or states and societies choosing which ones to watch This metaphor captures the complexity diversity and interconnectedness that define contemporary international politics better than traditional concepts like unipolarity bipolarity or multipolarity My aim in this book is to provide a comprehensive analysis of current trends in international politics through this multiplex lens Rather than offering simplistic predictions or prescriptions I aim to illuminate the multifaceted nature of contemporary challenges and

opportunities providing scholars policymakers and citizens with analytical tools that can help them navigate this complex landscape

A Practice of Ethics for Global Politics Jack L. Amoureux, 2015-10-05 What kind of ethics in world politics is possible if there is no foundation for moral knowledge or global reality is at least complex and contingent Furthermore how can an ethics grapple with difference a persistent and confounding feature for global politics This book responds to the call for a bold and creative approach to ethics that avoids assuming or aspiring to universality and instead prioritizes difference complexity and uncertainty by turning to reflexivity not as method or methodology but as a practice of ethics for politics This practice ethical reflexivity offers individuals organizations and communities tools to recognize interrogate and potentially change the stories they tell about politics about constraints notions of responsibility and visions of desirability The benefits and limits of ethical reflexivity are investigated by the author who engages writing on critique rhetoric affect and relationality and carefully considers dominant and alternative framings of difficult issues in International Relations IR the 1994 genocide in Rwanda and the US policies of enhanced interrogation and drone strikes This path breaking study provokes new possibilities for agency and action and contributes to a growing literature in IR on reflexivity by uniquely elaborating its promise as an ethics for politics and by drawing on thinkers less utilized in discussions of reflexivity such as Hannah Arendt Michel Foucault and Aristotle This book will appeal to scholars and upper level graduates in several sub fields of IR including international global ethics IR theory global governance international organizations non governmental organizations foreign policy analysis and US foreign policy

Measuring Global Media Freedom Laura Schneider, 2019-10-09 The Media Freedom Analyzer developed by Laura Schneider is a new way to measure global media freedom in a more objective unbiased and transparent way Grounded in the opinions of around 1000 experts from 126 countries the index is the first empirically validated tool to assess free and independent media across the world The existing press freedom rankings are frequently criticized for being arbitrary and having a Western bias This book tackles this very problem In times of widespread populism disinformation and mistrust in the media it is vitally important to have an assessment tool that is accepted across cultures

God's Century: Resurgent Religion and Global Politics Monica Duffy Toft, Daniel Philpott, Timothy Samuel Shah, 2011-03-14 A fresh and illuminating perspective on the surge in religion's political influence across the globe Is religion a force for good or evil in world politics How much influence does it have Despite predictions of its decline religion has resurged in political influence across the globe helped by the very forces that were supposed to bury it democracy globalization and technology And despite recent claims that religion is exclusively irrational and violent its political influence is in fact diverse sometimes promoting civil war and terrorism but at other times fostering democracy reconciliation and peace Looking across the globe the authors explain what generates these radically divergent behaviors In a time when the public discussion of religion is overheated these dynamic young scholars use deeply original analysis and sharp case studies to show us both how and why religion's influence on global politics is surging Finally they offer concrete suggestions on how

to both confront the challenges and take advantage of the opportunities posed by globally resurgent religion **The Handbook of Global Media and Communication Policy** Robin Mansell, Marc Raboy, 2011-04-12 The Handbook of Global Media and Communication Policy offers insights into the boundaries of this field of study assesses why it is important who is affected and with what political economic social and cultural consequences Provides the most up to date and comprehensive collection of essays from top scholars in the field Includes contributions from western and eastern Europe North and Central America Africa and Asia Offers new conceptual frameworks and new methodologies for mapping the contours of emergent global media and communication policy Draws on theory and empirical research to offer multiple perspectives on the local national regional and global forums in which policy debate occurs **The International Politics of Eurasia** Karen Dawisha, Bruce Parrott, 2016-09-16 First Published in 1998 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states Global Political Campaigning Fritz Plasser, 2002-02-28 Plasser examines the changing practices of election campaigning worldwide Based on data of an indepth survey of campaign managers and political consultants from 43 countries he provides insights into the professional role definitions and strategic orientations determining the future of electioneering in media centered democracies The first section gives a state of the art overview of the international literature and modernization theories describing and analyzing the ongoing process of modernization and growing professionalization of electioneering around the world The second section deals with the topic of an Americanization of campaign practices in countries fundamentally different from the United States from a diffusion point of view A special focus is the role of U S overseas consultants in influencing and modifying campaign practices in foreign countries based on indepth interviews about the professional experiences of leading figures of the Americans overseas consultancy business The third section deals with central features of campaign practices from a comparative perspective and provides information and data about the media infrastructure and political culture indicators for 50 countries as well as a detailed comparison of country specific campaign regulations party system features and campaign styles The fourth section focuses on the results of Plasser s Global Political Consultancy Survey among 592 campaign professionals from 43 countries The results of this first worldwide survey offer insights into professional orientations role definitions and practices of campaign managers and political consultants throughout the world The fifth section discusses different area and country specific campaign styles from a comparative perspective The final chapters present a global typology of distinct campaign styles across the world summarize the central findings and link them to the ongoing debate about the future of electioneering in media centered democracies An essential research tool for scholars students and other researchers involved with comparative electioneering political management and political communication *The Comparative International Politics of Democracy Promotion* Jonas Wolff, Hans-Joachim

Spanger, Hans-Jürgen Puhle, 2013-09-11 Though scholarly attention to democracy promotion is increasing there is still little comparative and theoretically based work on the protagonists of democracy promotion This book investigates the motives that drive democracy promotion in a comparative and theoretically oriented manner exploring how democracy promoters deal with conflicting objectives and the factors that shape their behaviour It also addresses the more policy oriented debate on the contemporary challenges to democracy promotion focusing on US and German policies towards three kinds of challenges the emergence of radical leftist governments in Bolivia and Ecuador the political rise of Islamist movements in Turkey and Pakistan and the consolidation of semi authoritarian rule in Belarus and Russia In each case North Western democracy promoters have been confronted with serious conflicts of objectives between security economic interests and democracy promotion The analysis and comparison of such situations in which democracy promoters have to deal with competing objectives and make tough decisions provides powerful evidence as to the factors that shape democracy promotion The Comparative International Politics of Democracy Promotion will be of interest to students and scholars of international relations comparative politics democratization studies and foreign policy Rethinking 'Democratic Backsliding' in Central and Eastern Europe Licia Cianetti, James Dawson, Seán Hanley, 2020-06-29 This book seeks to inject fresh thinking into the debate on democratic deterioration in Central and Eastern Europe CEE viewing democratic backsliding through the prism of a range of cases beyond Hungary and Poland to redress the imbalance in current scholarship Over the past decade a consensus has emerged that democracy in CEE is sharply deteriorating perhaps even backsliding into new forms of authoritarianism Debate has however so far focused disproportionately on the two most dramatic and surprising cases Hungary and Poland This book reflects on the backsliding debate through the experience of CEE countries such as the Czech Republic Bulgaria Latvia and Estonia as well as neighbouring post communist regions such as the Western Balkans and former Soviet Union cases such as Moldova and Ukraine whose patterns of failing or partial democratisation may be newly instructive for analysing the development of CEE Contributors present less frequently considered perspectives on democratic backsliding in the CEE region such as the role of oligarchisation and wealth concentration the potential of ethnographical approaches to democracy evaluation the trade offs between democratic quality and democratic stability and the long term interplay between social movements state building and democratisation This book was originally published as a special issue of East European Politics *Public Sentinel* Pippa Norris, 2009-11-19 What are the ideal roles the mass media should play as an institution to strengthen democratic governance and thus bolster human development Under what conditions do media systems succeed or fail to meet these objectives And what strategic reforms would close the gap between the democratic promise and performance of media systems Working within the notion of the democratic public sphere Public Sentinel News Media and Governance Reform emphasizes the institutional or collective roles of the news media as watchdogs over the powerful as agenda setters calling attention to social needs in natural and

human caused disasters and humanitarian crises and as gatekeepers incorporating a diverse and balanced range of political perspectives and social actors Each is vital to making democratic governance work in an effective transparent inclusive and accountable manner The capacity of media systems and thus individual reporters embedded within those institutions to fulfill these roles is constrained by the broader context of the journalistic profession the market and ultimately the state Successive chapters apply these arguments to countries and regions worldwide This study brought together a wide range of international experts under the auspices of the Communication for Governance and Accountability Program CommGAP at the World Bank and the Joan Shorenstein Center on the Press Politics and Public Policy at Harvard University The book is designed for policy makers and media professionals working within the international development community national governments and grassroots organizations and for journalists democratic activists and scholars engaged in understanding mass communications democratic governance and development

Democratization in Africa: Challenges and

Prospects Gordon Crawford, Gabrielle Lynch, 2013-09-13 It is two decades since the third wave of democratization began to roll across sub Saharan Africa in the early 1990s This book provides a very timely investigation into the progress and setbacks over that period the challenges that remain and the prospects for future democratization in Africa It commences with an overall assessment of the lack of progress made from 1990 to 2010 exploring positive developments with reasons for caution Based on original research subsequent contributions examine various themes through country case studies inclusive of the routinisation of elections accompanied by democratic rollback and the rise of hybrid regimes the tenacity of presidential powers the dilemmas of power sharing ethnic voting and rise of a violent politics of belonging the role of donors and the ambiguities of democracy promotion Overall the book concludes that steps forward remain greater than reversals and that typically though not universally sub Saharan African countries are more democratic today than in the late 1980s Nonetheless the book also calls for more meaningful processes of democratization that aim not only at securing civil and political rights but also socio economic rights and the physical security of African citizens This book was originally published as a special issue of Democratization
