Press Gallery Congress And The Washington Correspondents:

Press Gallery Donald A. Ritchie, 2009-06-30 Donald Ritchie examines the lives of early self styled congressional journalists such as Horace Greeley Emily Briggs Benjamin Perley Poore Jane Grey Swisshelm Horace White James G Blaine and others who were positioned in the hub of government when the Civil War the purchase of Alaska the Credit Mobilier scandal and the Johnson impeachment hearings were making front page news Rich in anecdote this lively book illuminates an important era of journalism and American history The nascent issues of censorship right to privacy and conflict of interest that it describes are still very much with us **The Documentation of Congress** Society of American Archivists. Task Force on Congressional Documentation, 1992 *Congress, the Media, and the Public* Stephen Frantzich, 2015-08-27 From the beginning of the Republic members of Congress have been in the media spotlight In recent years the expansion of media venues has provided both challenges and opportunities to Representatives and Senators the public and even the media itself Legacy media such as newspapers and broadcast television each carry with them their own needs and accepted usages affecting the kind and volume of news about Congress delivered to the public These sources still serve important roles for much of the public and are covered here This book goes beyond the traditional legacy media to include Congress portrayal on live television in political cartoons in film as a part of the emerging infotainment venues and through social media such as web pages Facebook and Twitter We increasingly live in a world where the lines between traditional news and others sources of information have been erased This is an exciting if challenging time for Congress the media and the public as each attempts to sort out the new media environment and employ it to its advantage Using a comprehensive analysis of previous research dozens of interviews and the inclusion of empirical data this book assesses the current status of the relationship between Congress and the media and sorts out the temporary changes from those likely to represent future trends Whether one is associated with Congress is an interested citizen or is part of the media industry understanding the relationships and developments between and among them is key to understanding how the public behaves in relation to Congress and vice versa **Covering Congress** Everette Dennis, 2018-05-04 Observers of media government relations most often think first of conflicts with the executive branch yet interactions between Congress and the media have been extensive and varied since the first Washington correspondents began sending dispatches from the sessions of Congress In recent years the relationship between Congress and the news media has grown more complex Coverage of Congress by the print and electronic media is extensive At the same time Congress has increasing power to make communications policy that will have an important impact on the ability of the media to conduct their affairs both economically and politically Covering Congress explores those aspects of the relationship between the media and Congress that shape the news that reaches an information seeking public The contributors consider Congress as the source of much news as well as a great deal of self promotion They note there is neither a broad nor deep understanding of our national legislature in the United States Contributors try to remedy this

shortcoming by looking at the overall picture the media scene on Capitol Hill the messages that reach beyond Washington and the history of relations between the Congress and the press They discuss such issues as the relationship Newt Gingrich has forged between his office and the media perhaps at his own peril the importance of speed over substance when reporting from Capitol Hill the unflattering image of Congress as depicted in political cartoons and the unparalleled power wielded by Speaker of the House Sam Rayburn when he dealt with the national media Congress depends on the media to reach the public but also has considerable muscle to shape its media relations when it has strong leadership and a coherent plan It usually lacks these but Congress does much to try to project a friendly face to the public through the media facilitating interviews hi Capitol Hill radio and television studios Regardless of what happens in any particular election it is clear that Congress is fully alert to the modern communications age and that the consequences of this encounter are likely to be accentuated in the years ahead Covering Congress is a necessary addition to the libraries of communications scholars media specialists political scientists historians and sociologists *Congressional Record* United States.
