Missing ... and Presumed Dead Michael Fleeman, 2019-11-05 The true story of a bizarre case in Myrtle Beach and the trials that followed a young woman's disappearance by the bestselling author of *Better Off Dead* On a cold Southern night in 2013 under a full moon twenty year old Heather Elvis parked her car at a boat ramp along the Intracoastal Waterway and was never seen again The disappearance of the beautiful vivacious hostess at a popular Myrtle Beach South Carolina restaurant made international headlines and triggered a sweeping high stakes investigation that exposed a twisted web of deception betrayal sexual obsession police corruption and revenge But Heather's body was never located A series of sensational trials involving a handsome restaurant coworker and his Disneyland obsessed wife resulted in shocking verdicts but no body as her family desperately sought closure and fought for justice and a resort town struggled to regain calm This is the full compelling story from a renowned author of true crime *El muerto disimulado / Presumed Dead* Ângela de Azevedo, Valerie Hegstrom, 2018-01-25 *El muerto disimulado Presumed Dead* is a comedy by Ângela de Azevedo a seventeenth century Portuguese playwright who wrote in Spanish The annotated text consists of an introduction Spanish edition and English prose translation This female authored play should appeal to a broad audience of readers and theatre practitioners specialists and non specialists Vox Lycei 1945-1946 Lisgar Collegiate Institute, Leeds Pals Laurie Milner, 1990-12-31 The British Army's losses on the opening day of the Battle of the Somme 1 July 1916 amounted to some 57 000 men killed wounded or missing Few units however suffered as terribly as the famous Pals battalions raised from volunteers who had flocked to answer Lord Kitchener's Call to Arms In the North of England particularly whole cities and towns went into mourning as news of that awful first day's casualties came through What is less well known is that some of these battalions were brought up to strength with reinforcements often from the cities in which they had been raised and sent back into action again and again This is the story of one such battalion the Leeds Pals which by the war's end in 1918 was described as having been four times wiped out but fighting to the end It is a story which traces in great and fascinating detail the raising and training of the battalion in and around Leeds their service in Egypt before being sent to France in December 1915 their heavy losses in their baptism of fire on the Somme 1916 in the Battle of Arras a year later and during the German offensives of March and April 1918 Based upon the accounts of survivors private diaries letters and papers official archives contemporary newspaper accounts and a wealth of unpublished photographs it is a story of patriotism enthusiasm humor and great courage Ultimately however it is a tale of great tragedy for though the Leeds Pals took part in the final advance to victory their three years in France had cost them 733 men killed 1 861 wounded and 776 missing or captured *Law at the Frontiers of Biomedicine* Shaun D Pattinson, 2023-01-26 How should judges and legislators address challenges arising at the frontiers of biomedicine What if it became possible to edit the DNA of embryos for enhanced traits gestate a fetus in an artificial womb self modify brain implants to provide new skills or bring a frozen human back to life This book presents an

innovative legal theory and applies it to future developments in biomedicine This legal theory reconceptualises the role of legal officials in terms of moral principle and contextual constraints contextual legal idealism It is applied by asking how a political leader or appeal court judge could address technological developments for which the current law of England and Wales would be ill equipped to respond The book s central thesis is that the regulation of human conduct requires moral reasoning directed to the context in which it operates The link between abstract theory and practical application is articulated using future developments within four areas of biomedicine Developments in heritable genome editing and cybernetic biohacking are addressed using Explanatory Notes to hypothetical UK Parliamentary Bills Developments in ectogestation and cryonic reanimation are addressed using hypothetical appeal court judgments The book will be of great interest to scholars and students of medical health law criminal law bioethics biolaw legal theory and moral philosophy
