Preventing Substance Abuse Intervention That Works:

Preventing Substance Abuse Michael J. Stoil, Gary Hill, Gary Allan Hill, 1996-10-31 Preventing Substance Abuse is an informal guide to successful programs for treating specific substance abuse problems identifying their origins implementation outcomes and where possible contacts for obtaining additional information The emphasis is on information documented from outcomes of successful interventions rather than on theories of what should work or what works under experimental conditions Key features include easy to follow charts and graphs and an appendix summarizing the National Structured Evaluation mandated by Congress of substance abuse prevention Encyclopedia of Substance Abuse Prevention, Treatment, and Recovery Gary L. Fisher, Nancy A. Roget, 2009 This collection provides authoritative coverage of neurobiology of addiction models of addiction sociocultural perspectives on drug use family and community factors prevention theories and techniques professional issues the criminal justice system and substance abuse assessment and diagnosis and more *Handbook of Drug Abuse Prevention* Zili Sloboda, William J. Bukoski, 2007-08-06 There are a number of reasons why this book is important First there is no one source that summarizes what we know about the prevention of substance abuse from the research field so the book serves as a repository of accumulated knowledge on prevention theory intervention design and development and prevention research methodology Second as an evolving field prevention science has only begun to assert itself in both the arenas of practice and policy The formation of the Society for Prevention Research in 1991 was the first recognition that a science of prevention existed and required a separate forum to present the rapidly growing content of the field for discussion and review Finally there is a need to establish a baseline a reference point against which progress in the field of prevention science can be assessed This book serves all of these purposes The idea for this book grew from the observation in the early 1990s that after decades of attempts to develop effective interventions to prevent drug use among children and adolescents in the United States that we were finally having success particularly in addressing the initiation of use These successes are the result of research that has provided a better understanding of the factors and processes associated with the onset of substance use **The School Services Sourcebook, Second Edition** Cynthia Franklin, Mary Beth Harris, Paula Allen-Meares, 2012-11-27 The School Services Sourcebook covers every aspect of school service delivery arming practitioners with the nuts and bolts of evidence based practice The second edition has been significantly revised with a new structure including 73 chapters divided into five Parts across thirteen Sections with an additional six chapters included in an online section found on the book's companion website Fifteen new chapters cover key topics such as implementing an RTI framework positive behavioral supports school climate functional behavioral assessment the integration of ethics Autism and suicide school engagement military families Latino immigrant families classroom management transition planning and several chapters that speak to assessment and accountability Each chapter serves as a detailed intervention map quickly summarizing the problem area before presenting step by step instructions on how to

implement an evidence based program with clear goals in mind and methods to measure the outcome The concise user friendly format from the first edition has been retained orienting readers to each issue with a Getting Started section then moves smoothly into What We Know What We Can Do Tools and Practice Examples and Key Points to Remember A new section Applying Interventions within Response to Intervention Framework has been added to each chapter to facilitate the implementation of an RTI model Quick reference tables and charts highlight the most important information needed for daily reference and annotated lists of further reading and Web resources guide readers in gathering additional information to tailor their practice to suit their students needs Each chapter has been specifically crafted by leaders in their fields with the ultimate goal of giving school based practitioners the tools they need to deliver the best mental health and social services possible to students families and communities This sourcebook is an invaluable reference for all school based social workers psychologists counselors mental health professionals educators and administrators Visit the companion website for more information and to access additional book content URL [Drug Abuse Prevention Intervention Research](#) National Institute on Drug Abuse,1991 This monograph is based on the papers and discussion from a technical review on Drug Abuse Prevention Intervention Research Methodological Issues held on May 22 23 1989 Rockville MD The review meeting was sponsored by the National Institute on Drug Abuse [Drug Abuse Prevention Through Family Interventions](#) Rebecca S.
