People in Crisis Lee Ann Hoff, Lisa Brown, Miracle R. Hoff, 2011-02-25 The first edition of People in Crisis published in 1978 established success as a comprehensive and user friendly text for health and social service professionals The book and its following incarnations included critical life events and life cycle transition challenges clearly pointing out the interconnections between such events stressful developmental changes and their potential for growth but also danger of suicide and or violence toward others This revised edition includes new case examples and expanded coverage of cross cultural content including commonalities and differences in origins manifestations and crisis responses The authors illustrate the application of crisis concepts assessment and intervention strategies across a wide range of health and mental health settings as well as at home school workplace and in the community Each chapter contains a closing summary that includes discussion questions references and online data sources for maximum application and learning Updated chapters discuss new research based content on workplace violence and abuse youth violence in schools and higher education settings the use of psychotropic drugs including for very young children in the absence of comprehensive assessment the crisis vulnerability of war veterans and the hazards of pathologizing what should be considered a normal response to the repeated and catastrophic trauma of war the intersection of socio political factors with individuals psychological healing from catastrophic experiences such as war and natural disaster Preventing Elderly Suicide Joseph Richman, 1993 Crisis Lee Ann Hoff, 2014-08-29 Unlike books focusing on a single crisis topic Crisis helps recognize common signs of endangerment across a range of life challenges by showing the interconnections between various harmful events Through media coverage of school shootings suicides domestic abuse workplace violence and more we ve become accustomed to hearing about violence and trauma almost invariably followed by reports that show all of the warning signs that were missed While it is impossible to predict when where and with whom a crisis will occur we do have the means to be better equipped to intervene in stressful situations before they tip over into a crisis Important preventative information is readily available and this book better prepares us to take appropriate responsive action Often a crisis is the result of a critical life event whether or not a life changing event turns into a crisis depends on the type timing and interpretation of the event the person s life cycle development phase history of healthy coping and available timely support In sum Lee Ann Hoff illustrates how to recognize crisis as both danger and opportunity The more we know about how to spot a potential crisis and what to do the more likely distressed persons will get the help they need Adult Development and Aging William J. Hoyer, John M. Rybash, Paul Roodin, 1999 This edition offers a clear account of the salient issues and concerns that dominate the field of adult development Gender differences and race ethnic diversity are discussed in their relation to all major topics There is also new coverage on the impact of religion and spirituality Women and Suicidal Behavior Silvia Sara Canetto, 1995 This volume fills a major gap in the literature on suicide and contrasts with previous works that have addressed suicidal behavior in

women from a male perspective In the past researchers have focused on suicide mortality a less frequent and typically male phenomenon and from that have drawn conclusions about nonfatal suicidal behavior a more frequent and typically female phenomenon In an effort to avoid inherent research biases in suicidology this book critically reviews the most current research on suicide and women from a woman's perspective The contributors consider the social and cultural factors involved including age related and ethnic issues and also provide useful intervention strategies. This volume is a worthy addition to the libraries of clinicians academics and students concerned with the psychology of women suicide and death Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff, R R Bowker Publishing, 1996-09 Lay Me Down David Lester, Margot Tallmer, 1994 Suicide in the elderly an overview David Lester Symptoms and assessment of suicide in the elderly patient Margot Tallmer Suicide across the life span with particular reference to the elderly Antoon A Leenaars Psychiatric treatment of the elderly suicidal patient Bruce L Danto and Joan M Danto Individual and group therapy for the suicidal older person Margot Tallmer Family therapy for the suicidal elderly Joseph Richman Gender issues in counseling the suicidal elderly Silvia Sara Canetto Psychiatric management of the suicidal elderly Henry Rosenvinge Suicidal elders in long term care facilities preventive approaches and management Nancy I Osgood and Nancy R Covey Social work and the suicidal older person Elizabeth J Clark The elderly suicide those left behind Rochelle Balter Helping the suicidal elderly a Hungarian perspective Bea ta Temesva ry Alternatives to suicide Robert Kastenbaum Sara Teasdale case study of a completed suicide David Lester Subintentioned life threatening behavior in the elderly the story of Myra Lenore S Powell Assisted suicide and the elderly David Lester Forthcoming Books Rose Arny, 1993 Subject Guide to Books in Print Medical and Health Care Books and Serials in Print ,1997 Books In Print 2004-2005 Ed Bowker Staff, Staff .1997 **The Advocate**, 2002-11-12 The Advocate is a lesbian gay bisexual transgender LGBT monthly Bowker, Ed, 2004 newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States Suicide Among the Elderly in Long-Term Care Facilities Nancy Osgood, Barbara Brant, Aaron P. Lipman, 1991 This is the first large scale study of suicide in a population of institutionalized older adults From their findings the authors identify the most at risk groups and highlight the major factors contributing to suicide in older adults in institutions The study described in this work employed a sample survey design More than 1000 administrators of long term care facilities in the United States were randomly selected and surveyed about their staff and facilities and the incidence and type of suicidal behaviors which occurred among residents in 1984 and 1985 Results of the study confirmed that suicidal behavior occurred in approximately 20 percent of the facilities who responded High risk groups of residents included white males and the old old 75 years and older The survey reveals that certain environmental factors such as the size of the facility staff turnover rate per diem cost and auspices public private and religious were related to the occurrence and outcome of suicidal behavior Suggestions for suicide prevention based on these findings are also presented The book is divided into three parts Part One examines various types of long term care facilities

including skilled nursing facilities intermediate care facilities and adult homes Part Two highlights design methodology and findings from the national study of suicide in long term care facilities Case profiles of suicidal residents are included to provide a more personal account of suicide behavior and to illustrate important factors in the older individual s decision to end her his life Case profiles of four institutions are also included to highlight environmental factors related to suicidal behavior Part Three focuses on suicide prevention Suggestions on the treatment of depression in the elderly suicide prevention techniques and the ethics of suicide are discussed in detail This book makes valuable reading for professionals involved in the care of the elderly
