Okeke, Claude Messan Setodji, 2012-10-09 This report describes development of a statewide framework for evaluating and monitoring the short and long term impact of prevention and early intervention funding for mental health services on the California population It details the approach the data sources and the frameworks developed an overall approach framework and outcome specific frameworks

Evaluating the Impact of Prevention and Early Intervention Activities on the Mental Health of California's Population Katherine E. Watkins, M. Audrey Burnam, Edward N. Okeke, Claude Messan Setodji, RAND Health, Rand Corporation, 2012 In 2004 California voters passed the Mental Health Services Act which was intended to transform California's community mental health system from a crisis driven system to one that included a focus on prevention and wellness The vision was that prevention and early intervention PEI services comprised the first step in a continuum of services designed to identify early symptoms and prevent mental illness from becoming severe and disabling Twenty percent of the act's funding was dedicated to PEI services The act identified seven negative outcomes that PEI programs were intended to reduce suicide mental health related incarcerations school failure unemployment prolonged suffering homelessness and removal of children from the home The Mental Health Services Oversight and Accountability Commission MHSOAC coordinated with the California Mental Health Services Authority CalMHSA an independent administrative and fiscal intergovernmental agency to seek development of a statewide framework for evaluating and monitoring the short and long term impact of PEI funding on the population CalMHSA selected the RAND Corporation to develop a framework for the statewide evaluation This report describes the approach the data sources and the frameworks developed an overall approach framework and outcome specific frameworks

Prevention and Early Intervention with Children in Need MICHAEL. MOUNT LITTLE (KEVIN.), Kevin Mount, 2020-04-02 First published in 1999 this volume examines how in the middle of the nineteenth century Dr John Snow is reputed to have wringed the handle from a street pump in central London forcing people in the neighbourhood to change their drinking habits and so preventing them from contracting cholera from the dirty water Aspects of the story may be apocryphal but the general drift of Snow's assault on disease has enormous appeal for health education social services and police professionals working with children in need Why spend so much time struggling to find strategies to cope with the more intractable problems among adolescents when the problems might be prevented from occurring in the first place This book tries to untangle some of the complex ideas that underpin effective prevention and early intervention activity on behalf of children experiencing social or psychological difficulty It describes twenty programmes from Europe and America that have made an impact and where there has been an attempt to evaluate their usefulness On this basis it suggests some principles for more effective preventive practice

Uhlhaas, Stephen J. Wood, 2020-04-14 Experts discuss the potential of early intervention to transform outcomes for people with mental disorders Mental illness represents one of the largest disease burdens worldwide yet treatments have been largely ineffective in improving the quality of life for millions of affected individuals in part because approaches taken have focused on late stage disorders in adulthood This volume shifts the focus by placing the developmental stage of youth at the center of mental health The contributors challenge current nosology explore mechanisms that underlie the emergence of mental disorders and propose a framework to guide early intervention Offering recommendations for the future the book holds that early intervention in youth has the potential to transform outcomes for people with mental disorders and to reconfigure the landscape of mental health The contributors discuss epidemiology classification and diagnostic issues including the benefits of clinical staging the context for emerging mental disorders including both biological and sociocultural processes biological mechanisms underlying risk for psychopathology including aspects of neural circuitry and developing and implementing prevention and early intervention including assessment and intervention modalities and knowledge translation in early treatment of schizophrenia Contributors Nicholas B Allen Mario Alvarez Jimenez G Paul Amminger Shelli Avenevoli Hannah F Behrendt Tolulope Bella Awusah Maximus Berger Byron K Y Bitanhirwe Drew Blasco John D Cahill Joanne S Carpenter Andrew M Chanen Eric Y H Chen Shane D Colombo Christoph U Correll Christopher G Davey Kim Q Do Damien A Fair Helen L Fisher Sophia Frangou John Gleeson Robert K Heinssen Ian B Hickie Frank Iorfino Matcheri S Keshavan Kerstin Konrad Phuong Thao D Le Francis Lee Leslie D Leve Sarah A Lieff Cindy H Liu Beatriz Luna Patrick D McGorry Urvakhsh Meherwan Mehta Andreas Meyer Lindenberg Shreya V Nallur Cristopher Niell Merete

Despite the numerous benefits derived from major technological and medical innovations of the past century we continue to live in a world rife with significant social problems and challenges Children continue to be born into lives of poverty others must confront daily their parent s mental illness or substance abuse still others live amid chronic family discord or child abuse For some of these children life s difficulties become overwhelming Their enduring trauma can lead to a downward spiral until their behavioral and emotional problems become lifelong barriers to success and wellbeing Almost no one today would deny that the world is sometimes an inhospitable even dangerous place for our youth Yet most children even those living in high risk environments appear to persevere Some even flourish And this begs the question why in the face of such great odds do these children become survivors rather than casualties of their environments For many decades scholars have pursued answers to the mysteries of resilience Now having culled several decades of research findings the editors of this volume offer an in depth leading edge description and analysis of Resilience in Children Families and Communities Linking Context to Practice and Policy The book is divided into three readily accessible sections that both define the scope and limits of resilience as well as provide hands on programs that families neighborhoods and communities can implement In addition several chapters provide real life intervention strategies and social policies that can be readily put into practice The goal to enable children to develop more effective problem solving skills to help each child to improve his or her self image and to define ways in which role models can affect positive outcomes throughout each child s lifetime For researchers clinicians and students Resilience in Children Families and Communities Linking Context to Practice and Policy is an essential addition to their library It provides practical information to inform greater success in the effort to encourage resilience in all children and to achieve positive youth development
