Shapeshifting John Perkins, 1997-09-01 After Hit Man The New York Times bestseller Confessions of an Economic Hit Man documents John Perkins extraordinary career as a globe trotting economic hit man Perkins insider's view leads him to crisis of conscience to the realization that he must devote himself to work which will foster a world wide awareness of the sanctity of indigenous peoples their cultures and their environments Perkins books demonstrate how the age old shamanic

techniques of some of the world's most primitive peoples have sparked a revolution in modern concepts about healing the subconscious and the powers each of us has to alter individual and communal reality. Many indigenous cultures practice shapeshifting. Native American hunters take on the spirit of their prey to ensure a successful hunt. Asian medicine men ingest a sickness to heal the one afflicted. Amazon warriors become jaguars to soundlessly travel the jungle. Those who shapeshift understand that all of life is energy and that by focusing your intent you can change energetic patterns, rendering a new form. Shapeshifting can occur on three levels: cellular, transforming from human to plant or animal; personal, becoming a new self or leaving an addiction behind; and institutional, creating a new business or cultural identity. Since 1968, master shamans in Africa, Asia, the Middle East, and the Americas have been training John Perkins to teach the industrial world about the powerful techniques involved in shapeshifting. His groundbreaking book takes you to deserts and jungles, mountains and oceans, medical research centers and corporate board rooms to learn the step-by-step methods of this practice that integrates ancient and modern techniques to bring about profound healing.

**Recognising European Modernities** Allan Pred, 2014-02-25. For over a century, Europe has been characterised by a plurality of capitalist modernities. At any moment, each country possesses its own distinctly modern qualities which are partly shaped through interrelationships with other countries. Each European commodity society has experienced successive but different overlapping periods of industrial modernity, large-scale factories and urban growth, high modernity, social modernization promoted by social engineering, and hypermodernity, the acceleration of modernity yielding new circumstances and sensibilities. Interrogating contemporary hypermodern Europe thus requires an exploration of industrial and high modern Europe. **Recognising European Modernities** explores a century of civilisation through a critical examination of the extreme case of Sweden. Using montage, relayering, multiple pasts, and on-going present, the book challenges the contemporary obsession with postmodernity, demanding a deeper, more connective understanding of the pleasures and dangers of the European present. The author visits three spectacular spaces: the Stockholm Exhibition of 1897, the Stockholm Exhibition of 1930, and the Globe, a contemporary multi-purpose arena. Analysis of these pivotal spaces reveals the on-going process of modernization as new forms of consumption are repeatedly entangled in changing discourses of power to be reworked and translated into cultural politics.
